MOUNTAIN BIKES

SABBATH

Diamondback's flagship downhill gearbox bike, see it in all its glory.

TEAM ASHTON DIAMONDBACK

The high flying team of the moment catch them and their bikes inside.

MTRAX

The all new Mtrax range, taking the UK press by storm.

uvex

PROTECTING PEOPLE

IAS 3D

3 dimensional innovative micro adjustment system for width and height providing the perfect fitting helmet.

MADE IN GERMANY

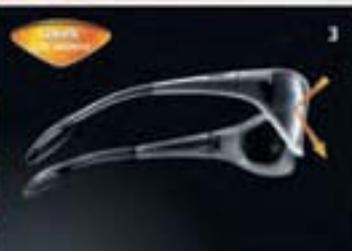

Sport Boss RS

Double in-mould technology
High density EPS construction
Makrolon microshell
IAS 3D fitting system
FAS chin strap

Hawk Glasses

100% protection from UVA / UVB / UVC rays
100% IR protection
Includes Lite mirror & Degarde lens technology
Cold adjustable temple ends
Soft nose pads

1 - Double Inmould Technology

The makrolon outer and impact absorbing inner shells are inseparably bonded together for a lightweight stable maximum safety helmet structure

2 - Uvex Degradé

Colour gradient lens tinted at the top, clear at the bottom, ensures reliable glare protection and clear vision

3 - Uvex Lite Mirror

Mirror technology, offering complete protection against infrared light, without compromising on fashion and function

It's the big wheel thing, go on....give it a go

DIAMONDBACK® Technology

Diamondback is an aggressive brand that not only accommodates but plays to the UK weather and trails, and because DB is designed, tested and sold in the UK the bikes feature everything you need for this tough environment.

UK specific frames

Diamondback's hardtails are built for the harder side of riding, trading XC race weight for some larger travel and strength. All bikes feature UK specific design such as larger tyres but still with ample mud clearance, designated downtube mudguard fixings and hydroformed tube sets that give extra strength but weight saving.

Single Pivot design

The single pivot design gives great performance with modern rear suspension units and adds reliability and ease of service when the weather eventually beats your bearing seals. Using the single pivot makes the whole bike a fast, responsive and great handling bike that has simple clean lines that will have a longer life in harsh conditions than multi pivot systems.

Swing Arm Yoke

This year we have worked on a new one piece CNC'd swing arm yoke, the new piece is featured on the XSL's and XTS range. The new swing arm yoke provides a massive weight saving but adds to the strength of the swing arm and gives greater torsion rigidity for better handling and power transfer. The swing arms also feature cable routing within for cleaner lines and added protection against the elements

DBSABBATH

The Sabbath is the first of the new generation of gearbox bikes. It's taken the Diamondback product design team, testers and engineering partners nineteen long months.

The first "Black Sabbath" mule was built after extensive CAD analysis and tested over the winter months in torrid British weather conditions. Universal transmissions have refined, lightened and evolved the early G-Boxx1 gearbox.

It's now a lightweight, fully enclosed 7 speed transmission system. Available as a complete race bike or frame kit consisting of frame, G-Boxx inc shifters and rear sprockets, custom zero dish rear hub, Fox DHX4.0 rear shock, FSA Orbit DH headset and seat clamp.

SIZES: SABBK08 Complete bike
SABBFRM08 Frame kit includes gearbox & rear hub

 gravity

 WTB

XTS MOTO

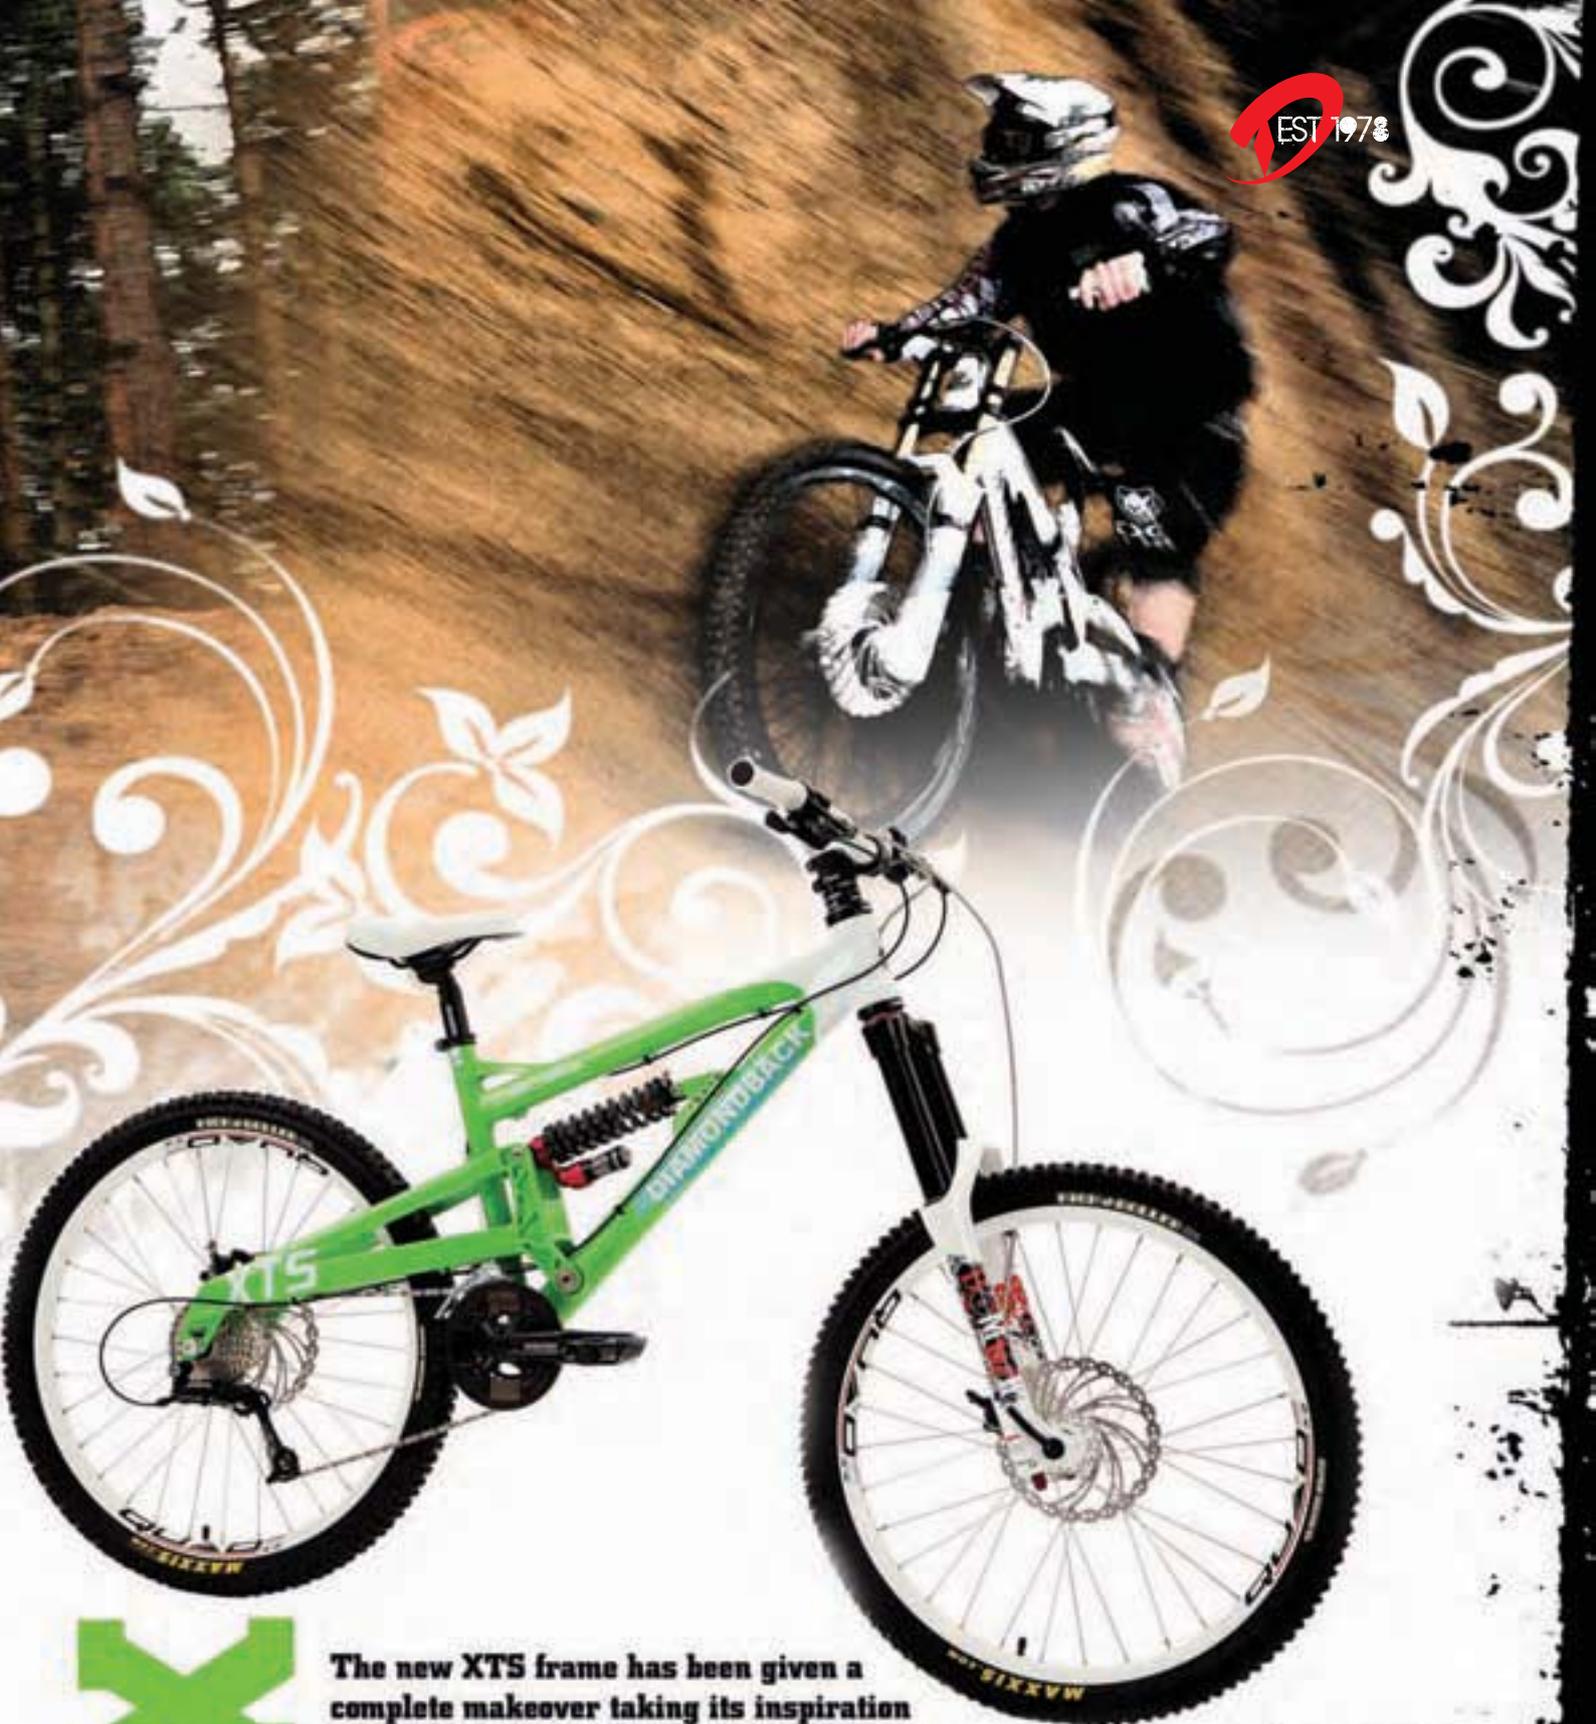

KURT BRAIN -
ASHTON DIAMONDBACK

With the XTS Moto we wanted a race bike that can be taken out of the box on the Friday night and raced at the weekend with nothing to change. The spec list is full of top parts from Gravity, E13, Quad, Fox, Marzocchi and Maxxis, with a list like that and this price tag you can't go wrong!

- New XTS frame with one piece CNC swing arm yoke and Fox Van R shock with rebound damping providing 7.6" of travel
- Marzocchi 888 RCV 203mm
- Shimano Tiagra 9 speed road gearing with Gravity Light cranks and E-13 light guide
- Quad Deuce brakes with 203mm rotors
- Quad 3.2 DH wheelset with DT Swiss spokes, running Maxxis High Roller 2.3 Super Tacky
- Gravity DH bar and Stem
- WTB Rocket V SLT

SIZES:
Complete bike
16" (XTSM16NI)
Frameset
16" (XTS16FRM)

XTS

The new XTS frame has been given a complete makeover taking its inspiration from the Sabbath. The front triangle has used a super stiff but lightweight Hydroformed tubeset and the new one piece CNC'd swing arm yoke along with massive bearings providing a huge amount of strength and stiffness.

The rear end uses a 150mm x 12mm bolt axle for increased stiffness and tracking, and the geometry can be adjusted with the sliding shock mount.

We designed the XTS to feature a spec that would be at home in the bike parks as well as out at the local races, we think its bang on!

- New XTS frame with one piece CNC swing arm yoke and Fox Van R shock with rebound damping providing 7.8" of travel
- Marzocchi 66 RCV 180mm with 1.5" steerer
- Shimano Deore gearing with Truvativ Ruktien 2.0 with 24T/36T and bash guard
- Quad Sting Pro brakes with 203mm rotors
- Quad 3.2 DH wheelset with DT Swiss spokes, running Maxxis High Roller 2.3 Super Tacky
- Gravity 1.5" DH stem with Diamondback oversized DH bar
- Outland white Freeride saddle

SIZES: 16" (XTS16GR)

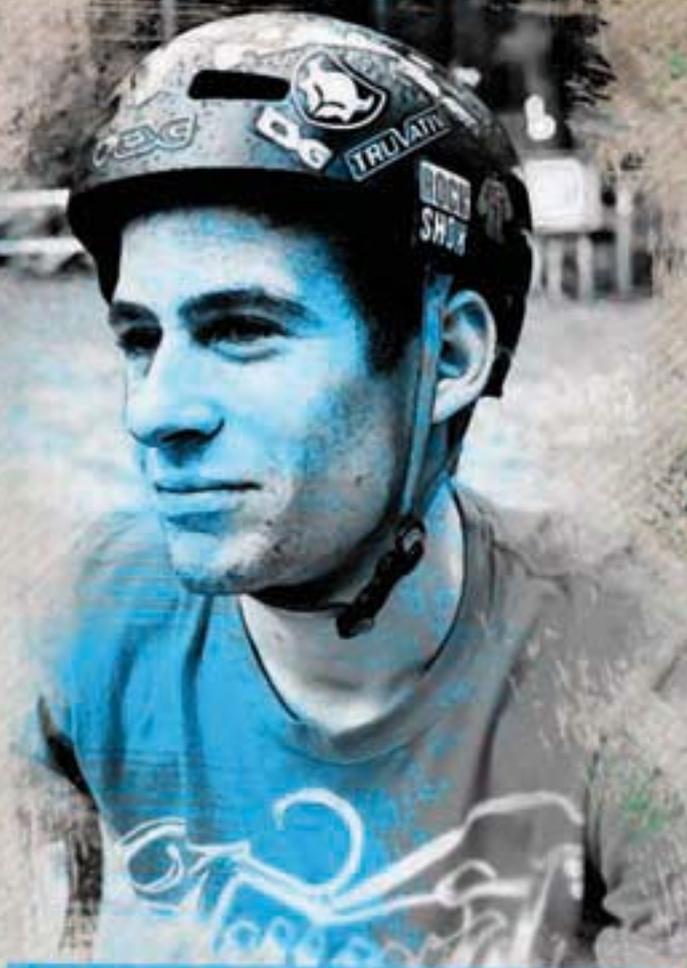

DIAMONDBACK

MARTYN ASHTON

"The success we enjoyed in 2008 was a dream start. That success has provided a great platform for us to build the Team in new and exciting ways for 2009. With a respected company like Diamondback behind us I'm very confident of another successful year for the Team. Diamondback's heritage in Mountain Biking is astounding; to have a sponsorship relationship with them is a dream come true. I'm very excited about the product we are developing through the Team; it is going to be a brilliant range of bikes"

**SAM PILGRIM**

"I love riding at the moment; the tricks are getting huge. Basically it's about going big, or go home. It's exciting to work with a team that's developing such awesome product; the guys at DB are listening to our feedback. Diamondback is cool again!"

**KATIE CURD**

"I'm looking forward to a challenging season, and I have the best support to make it a good one. I will be focusing on downhill and 4X for this season, I shall be competing in both the National and World Cup Series, with my goal set to finish within the top ten in the world."

Ever since joining the Team, Martyn has been pushing me to focus hard on my training. I've been working closely with the trainer and this is an area I'm making real improvements. Having different team members to ride with will hopefully help me to progress as well."

BRIDGES DIA MOND BACK

ROWAN JOHNS

"I'm playing with some cool changes to my bike set-up this year. Brakeless being the most obvious diversion from last year. Riding without brakes is taking control to the extreme, because Trials moves rely heavily on the brakes. It is an exciting way to ride though and I'm enjoying it a lot. I'm also really looking forward to capturing the Team in the podcasts in '09. This years line up is awesome and the content of these films are going to be worth a watch for sure."

KURT BRAIN

"Live and die by the sword man! Nothing is won, or even lost by sitting on the fence, hanging it out, heart on your sleeve style. Life's too short to not take some chances, win or lose. Pick up a bike and ride. See you out there!"

ALEXZ WIGG

"Team Ashton Diamondback is such positive support for me. Cross-training on trials mountain bikes is becoming very important; the Diamondback Justice/Resolve is going to give me an edge with technique. The team is also managing my fitness training, I'm sure it will be another big step forward for my riding."

Outland

cutting edge products

GRIPS

Continuing on the success of our Enduro Lock-On grips, we have introduced 2 new models to complete the range. The new Slopestyle Lock-On grips are a definite must have for any dirt, street or extreme mountain biker! Retailing at less than 11 quid, they're a bargain! Also, for those long XC rides, commuting or simply if you want ultimate grip comfort, we've got the ergonomically designed grip and bar end combo.

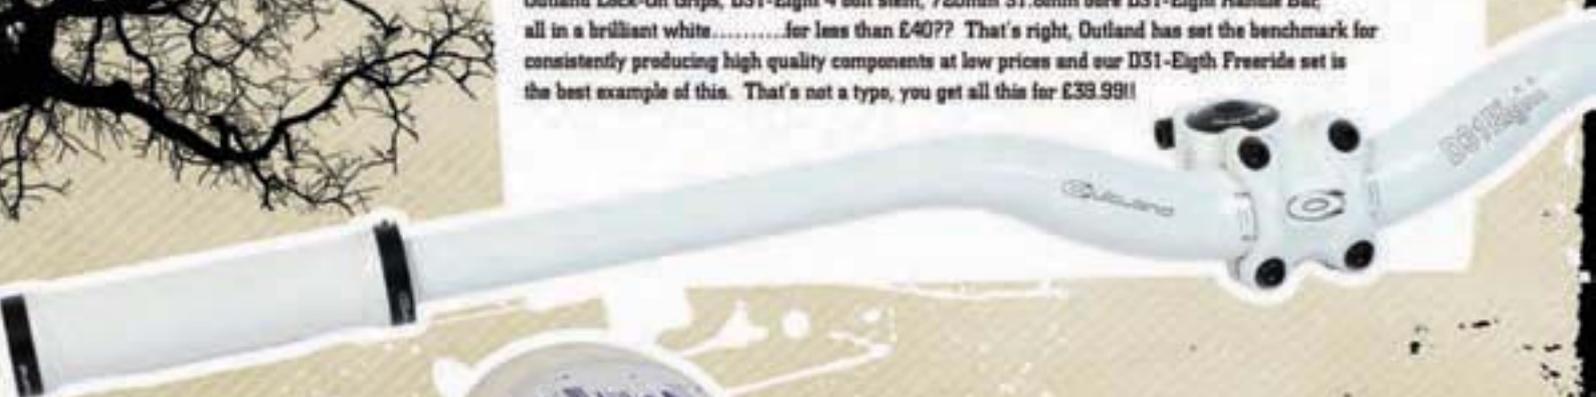

PEDALS

Outland offer a full range of pedals including Flat and Clipless. The Kustom Slim and Kustom Sealed are our best sellers and with a whole new range of colours including the 50/50 option, they look set to continue on this path! Both models come with full sets of replaceable pins, curved alloy body for surefooted grip and high quality crmo axles!

D31-EIGHT FREERIDE SET

Outland Lock-On Grips, D31-Eight 4 bolt stem, 720mm 31.8mm bore D31-Eight Handle Bar, all in a brilliant white.....for less than £40?? That's right, Outland has set the benchmark for consistently producing high quality components at low prices and our D31-Eight Freeride set is the best example of this. That's not a typo, you get all this for £39.99!!

SADDLES

2009 sees Outland launch a complete range of new saddles! These were designed to cover the needs of the most demanding riders, in all categories. Road, XC, DH, Freeride, DJ, Street - they're all here, even "his" and "hers" models for the average Sunday rider! With specs boasting Super Light Titanium rails, Kevlar wraps, leather covers, finger grabs and eye catching graphics, Outland can offer the saddle you want, for no more than 50 quid!

FRAME SAVER KIT

There are quite a few frame saver kits out there now, but the Outland offering is definitely up there with the best. Not only does this kit protect your dropouts and caliper pistons while you're travelling, it also has a built in jockey wheel with chain cleaner!! This can be used to protect your chainstays while travelling and the chain cleaner can be used for general maintenance

SINGLE SPEED CONVERTER

The Outland Single Speed Converter quickly and easily converts your cassette rear wheel to single speed. The kit includes all the spacers you need, a 17 tooth cog and a lock ring.

XSL

The XSL frame has been redesigned but keeps the ideals of a durable trail bike that can take the hits, get you up, over and down with a grin from ear to ear. The new one piece CNC'd swing arm yoke provides extra weight savings but offers massive strength and torsional rigidity, coupled with the simple, dependable and easy maintenance single pivot design. This 5" All Mountain rig will give you a lot to smile about.

The XSL brings this great frame together with a great spec to suit the trail centres but will still leave you enough money for a bacon butty! Full Deore gearing, Quad Disc brakes and lightweight Suntour suspension systems will cope with any trail centre and any weather condition.

- New XSL frame with one piece CNC swing arm yoke and Suntour Epicon DA Air shock with compression and rebound damping providing 5" of travel
- Suntour Radion 120mm with lockout mechanism
- Shimano Deore 27 speed with Truvativ FireX 3.1 cranks
- Quad Disc hydraulic brakes with 180mm rotors
- Rigida Taurus rims on Formula DC hubs with Continental Mountain King 2.40 tyres
- FSA bar and stem with Diamondback lock-on grips
- WTB Pure V race saddle

SIZES: 16" (XSL16WH)
18" (XSL18WH)
20" (XSL20WH)

XSL COMP

The XSL Comp adds to the new frame with Rock Shox Tora 302 Solo air forks up front and the reliable Monarch 2.1 air shock out back. Shimano's new SLX groupset and Quad Sting Pro brakes also feature on this highly spec'd bike.

- New XSL frame with one piece CNC swing arm yoke and Rock Shox Monarch 2.1 Air shock with compression and rebound damping providing 5" of travel
- Rock Shox Tora 302 Solo Air 130mm with lockout
- Shimano SLX 27 speed with Truvativ FireX 3.2 cranks
- Quad Sting Pro hydraulic brakes with 180mm rotors
- WTB Dual Duty XC rims on Shimano disc hubs with Continental Mountain King 2.40 tyres
- FSA bar and stem with Diamondback lock-on grips
- WTB Pure V race saddle

SIZES: 16" (XSLC16BK)
18" (XSLC18BK)
20" (XSLC20BK)

XSL ELITE

The XSL Elite is the top of the XSL range, it boasts a longer travel Rock Shox Revelation 426 Dual Air fork with the added stiffness of a 20mm bolt through axle, and the fully tuneable Monarch 4.2 rear shock. The groupset is taken care of by the fully dependable Shimano XT including the new more powerful brakes.

- New XSL frame with one piece CNC swing arm yoke and Rock Shox Monarch 4.2 Air shock with floodgate with on/off switch and rebound damping providing 5" of travel
- Rock Shox Revelation 426 Dual Air 140mm with 20mm axle
- Shimano XT 27 speed with Truvativ Stylo 3.2 cranks
- Shimano XT hydraulic brakes with 180mm centre lock rotors
- WTB Dual Duty XC rims on Shimano SLX hubs inc Front 20mm bolt through with Continental Mountain King 2.40 tyres
- FSA bar and stem with Diamondback lock-on grips
- WTB Silverado Race SL saddle

SIZES: 16" (XSLE16GR)
18" (XSLE18GR)
20" (XSLE20GR)

HARDTAILS

The new Diamondback hardtail trail frames have been specifically designed to be a gravity fed trail bike. These bikes will take all the abuse of the toughest descents with Hydroformed tubing giving an ideal combination of high strength and low weight. They also feature a UK specific design, this comes in the shape of massive mud and heel clearance at the rear, designated Crud Catcher mounts on the downtube and even a spare replaceable dropout just in case.

APEX

The Apex features the new Shimano SLX trail groupset, this added to the new hardtail frame and the Rock Shox Tora 302 Solo Air forks makes a trail bike that is happiest when you're letting it all hang out on the tight single track or over sketchy rock sections.

- New Trail frame with Hydroformed double butted tube sets
- Rock Shox Tora 302 Solo Air 130mm with lockout
- Shimano SLX 27 speed with Truvativ FireX 3.2 cranks
- Quad Sting Pro hydraulic brakes with front 180mm and rear 160mm rotors
- WTB Dual Duty XC rims on Shimano hubs with Continental Mountain King 2.20 tyres
- FSA bar and stem with Diamondback lock-on grips
- WTB Pure V Race saddle

SIZES: 16" (APX16PU), 18" (APX18PU), 20" (APX20PU)

AXIS

The Axis is our top line hardtail, it boasts a Shimano XT groupset, the XT hydro brakes even feature a 180mm front rotor to give you that much needed control in the wet or when things get steep and tech. The new frame coupled with the Rock Shox Recon 335 air tech. The new frame coupled with the Rock Shox Recon 335 air tech with their 130mm of travel will inspire confidence to hit the trail with a bit more gusto than you would with a less capable bike.

- New Trail frame with Hydroformed double butted tube sets
- Rock Shox Recon 335 Solo Air 130mm
- Shimano XT 27 speed with Truvativ Stylo 3.2 cranks
- Shimano XT hydraulic brakes with front 180mm and rear 160mm centre lock rotors
- WTB Dual Duty XC rims on Shimano LX hubs with Continental Mountain King 2.20 tyres
- FSA bar and stem with Diamondback lock-on grips
- WTB Silverado Race SL saddle

SIZES: 16" (AXI16BK)
18" (AXI18BK)
20" (AXI20BK)

HARDTAILS

EST 1978

RESPONSE

If responsive all mountain setup is what you're after, then the Response with parts from Truvativ, Quad and WTB is the answer. This bike is a great starter for UK trail centres.

- Alloy trail frame with Vectra Hydroformed tubes
- EST GILA Pro RL 100mm with remote lockout
- Shimano Alivio 24 speed with Truvativ Iso Flow 3.0 cranks
- Quad Axis hydraulic brakes with 160mm Pulse rotors
- DB doublewall trail rims on Quando sealed bearing hubs with WTB Moto Raptor 2.1 tyres
- DB bar and white stem with Diamondback trail white grips
- WTB Rocket V Comp saddle

SIZES: 16" (RES16WK)
18" (RES18WK)
20" (RES20WK)

RESPONSE SPORT

The Response Sport is the perfect UK trail centre bike, the Shimano Deore groupset will keep you spinning while the new frame and 120mm Suntour XCR forks will help you when things get a little loose, this coupled with the great tread of the Continental Mountain King tyres and the control of the Quad Dime brakes will keep you on the trail.

- New Trail frame with Hydroformed double butted tube sets
- Suntour XCR RL 120mm with lockout
- Shimano Deore 27 speed with Truvativ FireX 3.2 cranks
- Quad Dime hydraulic brakes with front 160mm and rear 160mm rotors
- WTB Dual Duty XC rims on Shimano hubs with Continental Mountain King 2.20 tyres
- FSA bar and stem with Diamondback lock-on grips
- WTB Pure V Race saddle

RALEIGH

Exclusive UK Distributor - www.raleigh.co.uk

THE ALL NEW

MTRAX

Mtrax has been around since 1994 and in that time the brand has racked up a formidable amount of National and World Championships, this year the brand has been re-launched with a goal of packing the brand with value, relevance to the modern rider and to make them sexy. We and the UK bike press seem to think we have done just this.

HT5.0

Some things are just special. The HT5.0 uses our own carbon fibre chassis built specifically for UK trails and Enduro racing. Lightweight stable, fast - featuring Sram X-0, Rockshox Reba Race and Mavic Crosstrail UST wheelset. Ready to rock.

- Lightweight carbon MTB race/trail chassis
- Rockshox Reba Race 100mm travel with remote lockout and pop-lock
- 27 speed SRAM X-0 with X-0 trigger shifters
- Quad Sting Pro hydraulic disc brakes with 160mm rotors
- Mavic Crosstrail Disc UST wheelset with UST Continental Mountain King 2.2" tyres
- Ritchey PRO 4-Axis stem with PRO Riser bars
- Outland El Ray MTB saddle

SIZES: 16" (MTX516NI)
18" (MTX518NI)
20" (MTX520NI)

THE ALL NEW

MTREFX

HT4.0

The HT4.0 is our premier UK trail machine. Built out of a passion to ride harder and longer and featuring our custom built 6061 hydroformed aluminium chassis with integrated carbon seatstays.

The HT4.0 comes dressed to party with Rockshox's Recon SL Air fork, Sram's X-9 and the UK's own Quad 2.4 wheelset and Quad Stinger Pro brakes.

- 6061 Hydroformed and butted chassis with integrated carbon seatstays
- Rockshox Recon SL Air 100mm travel with remote lockout and pop-lock
- 27 speed SRAM X-9 with X-9 trigger shifters
- Quad Sting Pro hydraulic disc brakes with 160mm rotors
- Quad QWR 2.4 wheelset with folding Continental Mountain King 2.2" tyres
- Outland Solo bar and stem
- Outland El Ray MTB saddle

SIZES: 16" (MTX416WH)
18" (MTX418WH)
20" (MTX420WH)

HT3.0

The HT3.0 is a trail riders dream. Using our custom built 6061 hydroformed aluminium chassis with integrated carbon seatstays, silky smooth air suspension from Rockshox's Tora Race and Sram X7 drive, the HT3.0 is ready for a weekend trail centre road trip or 24hr Enduro event.

- 6061 Hydroformed and butted chassis with integrated carbon seatstays
- Rockshox Tora Race Solo Air 100mm travel with remote lockout
- 27 speed SRAM X-7 with X-7 trigger shifters
- Quad Dime hydraulic disc brakes with 160mm rotors
- Rigida Disc Bull rims running on Formula disc hubs with Continental Mountain King 2.2" tyres
- Outland Solo bar and stem
- Outland El Ray MTB saddle

SIZES: 16" (MTX316OR)
18" (MTX318OR)
20" (MTX320OR)

HT2.0

The HT2.0 features our custom built 6061 hydroformed aluminium chassis with integrated carbon seatstays. Lightweight, efficient and built to shred singletrack all day long

- 6061 Hydroformed and butted chassis with integrated carbon seatstays
- Marzocchi 33 LO 100mm travel with lockout
- 27 speed SRAM X-5 with X-5 trigger shifters
- Quad Axis hydraulic disc brakes with 160mm rotors
- Rigida Taurus white rims running on Formula disc hubs with Continental Mountain King 2.2" tyres
- Outland Solo bar and stem
- Outland El Ray MTB saddle

SIZES: 16" (MTX216GR)
18" (MTX218GR)
20" (MTX220GR)

HT1.0

Designed specifically for UK trails. With tight, fast geometry built onto our lightweight 6061 hydroformed chassis, the MTrax HT1.0 is the perfect starting point for UK trail centres.

- 6061 Hydroformed and butted chassis
- Suntour XCR RL 100mm travel with remote lockout
- 27 speed SRAM X-5 with X-5 trigger shifters
- Quad Axis hydraulic disc brakes with 160mm rotors
- Rigida Taurus white rims running on Formula disc hubs with Continental Mountain King 2.2" tyres
- Outland Solo bar and stem
- Outland El Ray MTB saddle

SIZES: 16" (MTX116PU)
18" (MTX118PU)
20" (MTX120PU)

QUAD[®]

TECHNOLOGY

**Designed and tested in the UK
Engineered in Taiwan**

Quad's UK designed hydraulic disc brake range offers something for everyone. From the budget monobloc Axis caliper through to the heavy weight Deuce DH brake, you can be assured there is a brake to fit your riding needs and wallet. The one thing they all have in common is the great magazine reviews...

MUST HAVES FOR Men

- 1 AVENIR PERFORMANCE WATERPROOF JACKET
- 2 AVENIR CASUAL JERSEY
- 3 UVEX SPORT BOSS RS HELMET
- 4 VAUDE ULTRATRAIL 20 BACKPACK
- 5 AVENIR ELITE MTB SHORTS

DIRT JUMP

The Lex has been our team rider Alex "Lex" Gross' steed for some time now. His own bike has been put through huge stair drops, massive street transfers that to any normal person would just look like a one way ticket to A&E and it's still running true! This year new Quad Axis brakes and a new paint job is just what the evil genius wanted.

- Full 4130 chromoly street/dirt frame
- Society Xeno 100mm in custom yellow
- Single speed converter with FSA Alpha Drive cranks with 32T chainring
- Quad Axis hydraulic brakes with 160mm pulse rotors
- 24" Diamondback doublewall rims on Formula rear hub & Quando 20mm bolt through front hub with Kenda K-Rad tyres
- FSA Gravity Maximus bar and stem
- Outland Freeride saddle

SIZES: 13" (LEXYW)

BANDITO

EST 1978

The Bandito using the same bomb proof frame as the Lex has had its spec improved yet again. This year the forks have been upgraded to the RST Launch and the introduction of WTB Graffiti tyres makes the Bandito the perfect street and trails bike.

- Full 4130 chromoly street/dirt frame
- RST Launch 100mm
- Single speed converter with FSA Alpha Drive cranks with 36T chainring
- Quad Mechanical disc brakes with 160mm rotors
- 26" Diamondback doublewall rims on Formula hubs with WTB Graffiti SF tyres
- Diamondback oversized riser handlebar and 50mm extension stem
- Outland Freeride white saddle

SIZES: 13" (BANDITAO)

BETA

The new Beta, brings style and function together to create a great looking bike that can kick start you at the trails. But with 21 gears the Beta can also be used for your neighbourhood rides.

- Alloy street/dirt frame with Hydroformed tubes
- RST Gila TB 100mm
- 21 speed Shimano gears with alloy cranks
- Alloy Tektro V brakes with full alloy levers
- Diamondback doublewall dirt jump rim on alloy quick release hubs with Kenda tyres
- Diamondback riser bar and stubby stem with DB team white grips
- Outland Freeride white saddle

SIZES: 14" (BETAWH)

GROOVE

The Groove boasts an 80's clash culture graphic theme with a top spec that will help you shred the trails. Dual Quad disc brakes and 120mm of travel supplied by the RST Gila Pro forks will help you save those bad landings. Old school graphics meets new school tricks!

- Alloy street/dirt frame with Hydroformed tubes
- RST Gila Pro 120mm
- 24 speed Shimano Acera with Shimano EZ fire shifters
- Quad Mechanical disc brakes with 160mm rotors
- Diamondback doublewall dirt jump rim on alloy quick release hubs with Kenda tyres
- Diamondback riser bar and stubby stem with DB team white grips
- Outland Freeride white saddle

SIZES: 14" (GROOVEBK)

"15,000 metres of climbing,
1800 km of trails,
200 km of rocky descents.
And when did you last change your tyres?"

XC
A/T

XC
Dry²

XC
Hard Terrain

How much of your last epic ride was wasted because your tyres couldn't withstand the abuse? Maybe it's time you tried the Michelin XC range of tyres. Built to take on the most punishing cross-country trails, Michelin XC A/T, XC Dry² and XC Hard Terrain tyres deliver unsurpassed durability, thanks to their incredibly tough carcass design. Just don't forget to change them once in a while.

HARDTAILS

These bikes feature all that we learned from the development of the new trail frames, but they are designed around a smaller travel fork for the rider that wants to use their bike for everything from the local singletrack to the ride to work.

SORRENTO

The Sorrento uses our Vectra hydroformed frame specifically designed for trail riding but it's also a practical everyday use bike. 100mm RST Gila Pro forks provide supple bump eating ability but have a lock out if the climbs need you to get out of the saddle, while Quad QMD 5 mechanical discs provide all conditions stopping power.

- Alloy trail frame with Vectra Hydroformed tubes
- RST Gila Pro 100mm with mechanical lock-out
- 24 speed Shimano Alivio with Truvativ Iso Flow 3.0 cranks
- Quad Mechanical disc brakes with 160mm rotors
- Diamondback doublewall trail rim on alloy quick release hubs with Kenda tyres
- Diamondback riser bar and trail stem with DB trail grips
- WTB Rocket V Camp saddle

SIZES: 16" (SOR1680)
18" (SOR1880)
20" (SOR2080)

PEAK

The Peak brings you top brand name components from Shimano, Truvativ and Outland. The tough upgradeable frame can be switched to discs easily and all day geometry will keep you doing just that, all for a price that won't break the bank.

- Alloy trail frame with Vectra Hydroformed tubes
- RST Gila 100mm with mechanical lock-out
- 24 speed Shimano Acera with Truvativ X Flow 3.0 cranks
- Alloy Tektro V brakes with full alloy levers
- Diamondback doublewall trail rim on alloy quick release hubs with Kenda tyres
- Diamondback riser bar and trail stem with DB trail grips
- Outland Trail saddle

SIZES: 16" (PEAK16GY)
18" (PEAK18GY)
20" (PEAK20GY)
22" (PEAK22GY)

Our Women's Specific bikes have been developed with you in mind. They include subtle changes to the geometry, for a perfect fit but still equipped with the same great quality kit as featured on all Diamondback bikes.

Women SPECIFIC

DBR 1

The DBR 1 comes in a classy shade of berry that many men will only get to see the rear of during the coming race season.

- DBR E1 alloy women's specific race frame
- Rock Shox Recon XC solo air forks
- Shimano Deore LX 27 speed with Truvativ Stylo cranks
- Quad Sting Pro brakes and FSA finishing kit
- DBR race rims on Shimano LX hubs with Maxxis Ranchero 26 x 1.95 tyres
- FSA XC180 white bar and stem
- Outland XC Race saddle

SIZES: 14" (DBR14LPK), 16" (DBR16LPK)

PEAK

The Peak Ladies has got great styling to suit the modern world of accessorising, the Outland saddle and RST Gila forks provide comfort and traction for the trail, and Truvativ cranks will keep you rolling over the Peaks.

- Alloy trail frame with Vectra Hydroformed tubes
- RST Gila 100mm with mechanical lock-out
- 24 speed Shimano Acera with Truvativ X Flow 3.0 cranks
- Alloy Tektro V brakes with full alloy levers
- Diamondback doublewall trail rim on alloy quick release hubs with Kenda tyres
- Diamondback riser bar and trail white stem with DB trail grips
- Outland Trail saddle

SIZES: 14" (PEA14LGR), 16" (PEA16LGR)

RESPONSE SPORT

The Response Sport Ladies has the same great spec as its male counterpart; the suspension has been reduced to 100mm for easier control and added weight loss but still features the remote lockout when things get hilly. The gearing is taken care of by Shimano Deore and braking is done by the Quad Sting Pro brakes for great control.

- Alloy trail frame with Vectra Hydroformed tubes
- RST GILA Pro RL 100mm with remote lockout
- Shimano Deore 27 speed with Truvativ FireX 3.1 cranks
- Quad Sting Pro hydraulic brakes with 160mm Pulse rotors
- DB doublewall trail rims on Quando sealed bearing hubs with WTB Moto Raptor comp 2.1 tyres
- FSA bar and white stem with Diamondback lock on grips
- WTB Rocket V Comp saddle

THE SPIRIT OF
MOUNTAIN SPORTS

HARDTAILS

EST 1978

These bikes feature all that we learned from the development of the new trail frames but they are designed around a smaller travel fork for the rider that wants to use their bike for everything from the local singletrack to the ride to work.

! OUTLOOK

The Outlook is a great styled bike with excellent spec that brings you a mountain bike that is balanced between the rough terrain and smoothing the pot holes of the streets. The top name parts from Shimano, Suntour and Outland will keep the Outlook going for ever.

- Alloy trail frame with Vectra Hydroformed tubes
- Suntour XCT 80mm with mechanical lock-out
- 21 speed Shimano gears with Suntour XCC cranks
- Alloy Tektro V brakes with full alloy levers
- Diamondback doublewall trail rim on alloy quick release hubs with Kenda tyres
- Diamondback riser bar and trail stem with DB trail grips
- Outland Trail saddle

SIZES: 14" (OUT14BK), 16" (OUT16BK)
18" (OUT18BK), 20" (OUT20BK)
22" (OUT22BK)

! OVERDRIVE

The Overdrive is Diamondbacks offering for your first real mountain bike, its tough alloy frame will take the abuse but it is still lightweight. Also the Suntour forks will help tame the rocky track ahead.

- Alloy trail frame with Vectra Hydroformed tubes
- Suntour M2000 suspension forks
- 21 speed Shimano gears with EZ tire shifters with Suntour XCC cranks
- Alloy Tektro V brakes with Full alloy levers
- Diamondback Alloy singlewall rims with Kenda tyres
- Diamondback riser bar and trail stem with DB trail grips
- Outland Trail saddle

SIZES: 14" (OVR14OR), 16" (OVR16OR)
18" (OVR18OR), 20" (OVR20OR)

2:1 Fructose

Can help you race faster, much faster!

High5 drinks with 2:1 fructose (Super Carbs) are now the 1st choice for elite riders, and the reason is simple. They can help you race faster, much faster.

Independent research has shown that High5 drinks with a 2:1 fructose formulation can easily outperform the best traditional sport drink formulations^[1] delivering up to 50% more energy and providing exceptional fluid replacement.

High5 drinks with 2:1 fructose are light tasting and refreshing. They have been shown to virtually eliminate stomach upset and have been voted best tasting by 9 out of 10 athletes taking part in performance research. Finally, at a per serving cost less than many bottled waters,^[2] High5 drinks offer great value for money.

Too good to be true? Visit the High5 web site and check out the research studies for yourself.

Don't get left behind! Do you want to race faster this season? Make the switch to High5 and we guarantee that you will race faster and stronger over almost every distance, no matter what brand of nutrition you may have used in the past - or we will refund your money.^[3]

EXPERT RACE FASTER GUIDES

FREE expert race faster guides. These plain English guides tell you exactly how to use 2:1 fructose drinks, combined with moderate doses of caffeine, in order to race faster and stronger over every major distance: 10 to 100 mile TT, Cyclo Sportive, Multi Day Endurance events and Stage Racing. Download guides from www.highfive.co.uk.

faster in a 60km time trial

8 min 40s faster than PSP-22

7 min 39s faster than SiS Go

5 min 47s faster than Endura

5 min 36s faster than Maxim

Official test results!

Results of a large 2007 study involving a simulated stage race. The times above show how much faster (on average) riders were able to complete a final 60km time trial (in the heat of Australia) using a High5 EnergySource drink after previously riding at a moderate intensity for 2 1/2 hours.

faster in tough 8-day Trans Alp

4 1/2 hrs faster than SiS Go

Yes you read it correctly! Athletes using High5 EnergySource 4:1 were an average 4 1/2 hours faster over the full 8 days of the Trans Alp MTB race as compared to those athletes fueling and hydrating on SiS GO. Big climbs, blistering heat and long days in the saddle - it's a tough event. 28 test athletes were required to consume equal amounts of both drinks. Calvert et al., Med Sci Sports Exerc; 40 (5) Supplement 1: S74, 2008.

we beat our competition will you beat yours?

EXCLUSIVE UK CYCLE DISTRIBUTOR - RALEIGH P&A

For more info visit: www.highfive.co.uk

SiS is a trade mark of Science in Sport Ltd. Maxim is a trade mark of Health Europe BV. Endura is a trade mark of Health World Ltd. (Australia). [1] Research by Metabolites University and others - see High5 web site. [2] Price comparison based on 22g size EnergySource and 224g of 500ml serving 500ml bottled water typical price £1.20 to £1.50 per 500ml Petrol Forecourt. [3] Race Faster guarantee applies when an athlete follows the guidelines in the High5 Race Faster Guides for their sport. For details see the High5 web site.

FULL SUSPENSION

At Diamondback we believe the single pivot suspension design has a lot to offer the UK rider with less moving parts so less to go wrong, single pivot designs are also a lot easier to clean and that's got to be good after a long dirty ride!

COIL FS

The Coil uses the simple yet effective single pivot suspension design with top name parts from WTB, Truvativ, Shimano, Oval and RST. All these great names come together to make a great bike.

- Alloy Single Pivot frame with Hydroformed Vectra tubes with Kind Shock KS260 with rebound damping
- RST Gila Pro 100mm with lockout mechanism
- Shimano Acera 24 speed with Truvativ X Flow 3.0 cranks
- Oval Mechanical disc brakes with 160mm rotors
- Diamondback doublewall trail rim on alloy quick release hubs with Kenda tyres
- Diamondback riser bar and trail stem
- WTB Rocket V Comp saddle

SIZES: 16" (CL16YL), 18" (CL18YL)
20" (CL20YL)

OUTLOOK FS

The Outlook FS gives you a lot of the same great specs as its hardtail brother, but its all bolted onto the same single pivot frame used by the Coil. This bike is perfect for riding in rough terrain, and it can be easily up graded to handle even rougher stuff.

- Alloy Single Pivot frame with hydroformed Vectra tubes with Kind Shock KS260 rear shock
- RST Gila TB 100mm
- Shimano 21 speed with Suntour XCC cranks
- Alloy Tekro V brakes with hill alloy levers
- Diamondback doublewall trail rim on alloy quick release hubs with Kenda tyres
- Diamondback riser bar and trail stem
- Outland Trail saddle

SIZES: 16" (OT16FSBK), 18" (OT18FSBK)
20" (OT20FSBK)

Premium Range of Bike Specific Lubricants & Cleaners

With over 88 years of experience, Motorex are renowned worldwide for being a market leader in the production of premium products. From their experience in producing high performance Motor Bike products Motorex now has a range of Bike specific lubricants & cleaners to help maintain the performance of all bikes.

29ERS

29ERS

29ERS

29ERS

29ERS

MOJITO

29ers are still a bit of a "new thing" the Mojito was designed to let you try out the 29" phenomenon and up-grade as time goes on. The geometry is adjusted to suit suspension forks, the single speed converter allows the addition of gears without a new wheel and cable discs can be up-graded to hydraulic.

- Alloy 29er frame with Vectra Hydroformed tubes
- Rigid Chromoly trail blade forks with suspension adapted geometry
- Single speed converter with Truvativ Iso Flow 1.0 with bash guard
- Quad Mechanical disc brakes with 160mm rotors
- Diamondback 29er doublewall trail rim on alloy quick release hubs with Kenda Nevegal 2.2" tyres
- Diamondback riser bar and trail stem with DB trail grips
- WTB Speed V Sport saddle

SIZES: 18" (MOJ18WH)
20" (MOJ20WH)

ABSINTH

The Absinth takes the same ideals of the Mojito but gives you all the added up-grades, suspension is provided by the RST M-29 Air forks, the hydraulic Quad brakes give you that added stopping power and the 24 speed Shimano gears will get you going again quick.

- Alloy 29er frame with Vectra Hydroformed tubes
- RST M29 Air forks with 80mm travel
- Shimano Altvio 24 speed with Truvativ Iso Flow 3.0 cranks
- Quad Sting hydraulic disc brakes with 160mm rotors
- Diamondback 29er doublewall trail rim on alloy quick release hubs with Kenda Nevegal 2.2" tyres
- Diamondback riser bar and trail stem with DB trail grips
- WTB Rocket V Comp saddle

SIZES: 18" (ABS18GR)
20" (ABS20GR)

URBAN TRANSPORT

WE MAKE BIKES BECAUSE WE LOVE TO RIDE

But like most of you we've got a 9-5 to fuel our passions for riding. We wanted a bike that handles well, looks cool and can take on the urban landscape on our daily commute. The Quantum fits the brief perfectly. Our radical hydroformed frame is the coolest on the street and is at home on the road or outside the latest must-visit coffee bar. All bikes are specified with components to keep the bikes simple, dependable and functional.

QUANTUM V

The Quantum V is a lightweight, agile performer perfect for the daily commute. Stylish hydroformed frame and featuring 24 speed Shimano gears and Truvativ cranks.

- Alloy Vectra hydroformed urban frame with chromoly aero blade fork
- 24 speed Shimano Acera with EZ fire shifters
- Tektro alloy V brakes
- DB alloy wheelset with Kenda K Rad Street tyres
- Suspension seatpost, Avenir saddle
- DB alloy bar and stem, comfort grips

• SIZES: 16" (0V1608)

PUMPS. TRULY MADE IN GERMANY.

SKS-GERMANY.COM

Unior produce their comprehensive range of cycle tools to suit any professional workshop, at the same time as the more enthusiastic rider. From cone wrenches to tool chests, Unior has the product to satisfy the requirements of all mechanical needs to the highest level. When setting up your own cycle workshop, broken tools can cause extra work, expense, not to mention bruised knuckles - Unior offers a quality that gives reliability and so quickly instils confidence into the user.

Unior offer 2 multi tools, compact enough to drop into a small bag/pocket but strong enough to tighten all components to the necessary torque. With soft rubber grip and easy access keys thanks to the pop up lever, the tools include Allen keys from 2.5 to 10mm and now also available in TORX version offering T9, 10, 15, 20, 27, 30 and 40.

The Unior pedal spanner is a must have for any professional workshop. With double dipped handle, strong rubber grip and angled head, this spanner is amazingly strong and easy to use.

Hollowtech II bottom brackets are increasingly becoming the norm for mid to high end bikes. This Unior hollowtech II tool comes with all the benefits of the pedal spanner and even includes the pre-load cap tool.

"The best chain whip I've EVER used" - DIRT.

Every tool Unior produce shows the same attention to detail and quality no matter how often it is intended to be used, or its cost. The Unior Chain Whip is no exception. With incorporated spring, this whip grips the cassette with ease and with no fiddly, dangling chain as with so many others.

Whether you're a keen cyclist or the average "Sunday Rider" who only blows the cob webs away once every month or so, you will at some point always need the right tools to do a job. CyclePro is designed precisely for that reason.

New for 2009, CyclePro has introduced this high quality, dual faced pressure gauge. Reading up to 100 and 300 psi, it has all bases covered!

Cyclepro's 10 function multi tool includes all the necessary tools for most road side repairs. Allen keys and a flat and Phillips screwdriver will tighten and adjust your brakes, seat clamp, gears and any other day to day niggling problem.

Awarded MBUK's tool of the month, this Hollowtech II tool is ideal for home use. Incorporating a Shimano adapter and 10mm hex key, it suits all bikes with a Hollowtech II bottom bracket.

Removing tight tyres can often lead to snapped tyre levers, or damaged rims. These CyclePro levers are the best of both worlds! With a metal inner and nylon outer casing, they have the strength to remove even the tightest road tyres, whilst at the same time having the slightly less vicious nylon outer casing.

DIRT ATTACK

Regular washing is a major part of the maintenance programme for all bikes. Oil is much less effective when mixed with dirt and grime. Dirt Attack bike specific products are designed to aggressively attack dirt and grime without damaging components.

Dirt Attack Brush Set. The perfect collection of brushes for cleaning any bike. Gone are the days when a bucket of hot water and an old sponge would do the job! For any rider who takes maintenance seriously, the right products and right tools for the job are essential - this brush set ticks all the boxes: sprockets, frame, tyres and detailing, all covered by the Dirt Attack brush set.

The Choice of Professionals

Dirt Attack's Bike Wash offers the ultimate cleaning formula. With its easy to use, biodegradable ingredients, it cleans your bike and restores a new look instantly. Available in both a 1ltr spray and 5ltr bottle.

WIN!

A PAIR OF LIMITED EDITION QUAD DISC WHEELS & BRAKES

One lucky reader of Complete Cycling could be riding away with a pair of Limited edition Dime XC brakes & Quad Equipe Pro disc wheels

QUAD
TECHNOLOGY

HOW TO ENTER - All you need to do is log onto www.raleigh.co.uk/quad and fill in the required form and you will be entered into the free prize draw.

Closing date for entries is 30th June 2009

Terms and conditions

1. The promotion is open to participants aged 16 or over who are UK & Ireland, Channel Islands or Isle of Man residents only, excluding employees and their immediate families of Raleigh and its agents or anyone else associated with the administration of the promotion. 2. No purchase necessary to enter, simply register your details on line at www.raleigh.co.uk/completecycling. Entries received by any other means (including postal) will be excluded. 3. Closing date 30th June 2009. 4. One entry per person. 5. Entry is by website only. All correct entries received throughout the promotion will be entered into the draw to win the prize featured above. The first winner selected at random by an independent party will win the prize. 6. There is one prize to be won. 7. The winner only will be notified in writing within 28 days of the relevant prize draw. 8. No cash or other alternative prizes are available except that in the event of circumstances outside of its control the promoter reserves the right to substitute similar prizes of equal or greater value. Unless agreed otherwise in writing by the promoter, the prizes will be awarded only to the winners named. 9. For a list of the winners' name please send an SAE to Raleigh UK Ltd, Church Street, Eastwood, Nottingham NG16 3HT within 28 days of the closing date. 10. Winners agree to take part in any reasonable publicity required. 11. From time to time, we may contact you by post, email, SMS or telephone to inform you of offers which we feel may be of interest to you. By entering the promotion you agree that we may use your contact details for this purpose. Please note that there may be instances where it may be necessary for us to communicate with you, in any event, for administrative or operational reasons relating to our products and services. Raleigh UK Ltd will not share your personal details with anyone. 12. By entering the promotion participants agree to be bound by the terms and conditions governing the offer and by any other requirements set out in promotional material as well as any terms and conditions of prize providers. 13. The decision of the Promoter in all matters shall be final and binding and no correspondence shall be entered into. Promoter: Raleigh UK Ltd, Church Street, Eastwood, Nottingham NG16 3HT. (Please do not send entries to this address).
