TECHNICAL BAGS™

Bike transportation, protection, saddlebags and accessories

2007

# Transportation - Aerotech™ Evolution

Unparalleled quality. Possibly the best personal bike case on the market.

Design, Performance, Functionality. Engineered by professional riders.

AEROTECH EVOLUTION - THE SUITCASE FOR YOUR BICYCLE.

You are seated in the Airport departure lounge.

Your training is finally about to begin. The prospect of covering the first kilometres by bicycle in the sun pumps a lot of positive hormones into a body which is still in weak shape. Then, suddenly, your look becomes scared and the positive hormones disappear completely.

Outside you see that the suitcase containing your bicycle does not end up in the plane hold, but falls from a low height out of the belt conveyor. You hear a thud, the plastics breaks, the bicycle and the suitcase lie on the asphalt in bits and pieces. It's a disaster.

If you now wake up in a sweat from your nightmare, then you have been lucky! But this doesn't mean you don't have to worry about the way of transporting your bicycle to your holiday place.

It is actually not so rare for a bicycle to reach the arrival lounge damaged. However, it is possible to cancel or reduce the risk. AEROTECH EVOLUTION is the answer for cyclists who want to protect their beloved fast bicycles as much as possible, it is definitely worthwhile investing in it.

Aerotech is made from a vacuum-formed ABS plastic, a highly impact-resistant and temperature resistant material.

Reinforced 40mm smooth-rolling thermorubber wheels with bearing.

Saddle, shoes and accessories can be stored in the included nylon bag for a clean storage.

Reinforced closure system integrates a convenient combination lock.

## Bike Hard Case Aerotech™ Evolution

Material	ABS	Black	TP 070 00 05 02
Fastening	Combi Lock		
Weight	11500 grams		
Volume	94cm x 113cm x 36cm	FOAM PADDING	✈️ 🚚 🚗

## Spare parts

4 Aerotech wheels kit + screws	SP 000 00 00 70	High Quality padded interior	SP 070 00 05 13
2 Steel Quick-Release for bike wheels	SP 000 00 00 11	2 Covers for bike wheels	SP 051 00 03 10
4 Locks kit (2 Combi Lock) + screws	SP 000 00 00 12	Saddle/shoes Soft Bag	SP 000 00 05 14

Quality details ensure a clean, stylish look.

AEROTECH EVOLUTION represents the safest among bicycle containers.

In regard to its most important task, that is to protect the precious transported goods, AEROTECH EVOLUTION optimizes method, safety, comfort and handling. This way, AEROTECH EVOLUTION have a solid and insensitive effect against knocks.

AEROTECH EVOLUTION is made in ABS, a little softer kind of plastics can better absorb the energy of a fall; it may get dented, but it remains intact and can usually be repaired.

Bike Wheels are fixed with quick clamping devices in containers recognizable from outside – that's practical. Fixing belts protect the frame, from sliding. The running holding is regular and smooth. Light, with a very good crash test result. It can contain wheels of frame height until 64.

## Technology.

Designed, engineered and made in Italy.

Name box with privacy slider.

Aerotech integrates many smart handles moulded in its shell.

Practical strap allows easy loading on flat surfaces such as your trunk car. Must be removed before flight.

# Champion's Saddlebags Collection - Signature Editions

5 World Class riders, 3 unparalleled products, 1 concept: the 'Champions Signature Series'.

*Danilo Di Luca*  
Danilo DI LUCA

Design, Performance, Functionality. Engineered by professional riders.

Saddle RainProtector™ included !

The "Champions Signature Series" collection offers three unique saddlebags designed and developed by professional riders. Years of research, passion, advanced materials and superior technology have allowed our craftsmen to develop functional saddlebags which provide superior protection, longer lasting performance and enhanced aerodynamic integration. Design, Performance, Functionality.

SB 092 04 06 09 DL  
Saddlebag "Phantom 230" Di Luca

Saddlebag "Phantom 230"

The smallest version of our Champions bags collection. Designed to carry inner tubes, tyre repair essentials, patch kit, tyre levers.

- Super minimal and aerodynamic design.
- Roller System™ saddle fixing. No tools needed.
- Carbon Fibre & Cordura Dupont® fabric material.
- 180° rear opening zip for easy access.
- Silent zipper puller.
- Zipper 6,4 spiral. Strong and durably.
- Inside compression Velcro® Strap.
- Perimetral 3M® Reflective piping for a better visibility.
- Specs and capacity label.
- Champion signature logo.
- Volume: 230 cc
- Weight: 52 grams

Saddle RainProtector™ included.

Saddlebag "Compact 430"

The mid-sized version of our Champions bags collection with an innovative Italian design. Carry the essentials plus tools, energy bar.

- Sleek and aerodynamic shape.
- Roller System™ saddle fixing. No tools needed.
- Carbon Fibre & Cordura Dupont® fabric material.
- Fully open zip for easy access.
- Zipper 6,4 spiral. Strong and durably.
- Silent zipper puller.
- Inside compression Velcro® Strap.
- 3M® Reflective double piping and all around tape
- ABS body structure retains its aero shape.
- Specs and capacity label.
- Champion signature logo.
- Volume: 430 cc
- Weight: 74 grams

Saddle RainProtector™ included.

Saddlebag "Vortex 480"

The biggest version of the collection. Carry the essentials plus tools, energy bar, keys, phone. Amazing capacity in a smart package.

- Round geometry with saddle shape design.
- Roller System™ saddle fixing. No tools needed.
- Carbon Fibre & Cordura Dupont® fabric material.
- Fully open zip for easy access.
- Zipper 6,4 spiral. Strong and durably.
- Silent zipper puller.
- Inside compression Velcro® Strap.
- 3M® Reflective tape for a better visibility.
- ABS body structure retains its shape.
- Specs and capacity label.
- Champion signature logo.
- Volume: 480 cc
- Weight: 104 grams

Saddle RainProtector™ included.
