HOW EASY DO YOU WANT BIKING TO BE?

SR SUNTOUR'S MISSION, IN ONE SENTENCE, IS TO MAKE BIKING SIMPLE, COMFORTABLE, SAFE, ERGONOMIC AND PHYSICALLY CORRECT. BUT IN ONE WORD, IT'S TO MAKE BIKING EASIER!

THIS HAS BEEN THE EXPECTATION OF A MYRIAD OF A PEOPLE FROM A PLETHORA OF BIKING WORLDS. FROM THE HARD-CORE DIRT JUMPER TO THE DAILY COMMUTER, FROM THE ALP-CROSSING ENDURO TREKKER TO THE STUDENT WHO NEEDS TO SQUEEZE HIS VEHICLE INTO HIS TINY FLAT, ALL OF THEM REQUIRE AN EASIER RIDE.

THIS MISSION IS THE HANDRAIL ON TO WHICH SR SUNTOUR HAS HELD DURING ITS 70-YEAR HISTORY. FROM THE ORIGINS OF A SMALL COMPANY WE'VE NOW EVOLVED TO ONE OF A VERY RESPECTABLE SIZE. OUR ENGINEERING GROUP CAN LOOK BACK ON 50 YEARS INVOLVED IN THE CYCLING INDUSTRY.

WE'VE SEEN THE DRIVE TRAIN DEVELOP FROM SINGLE SPEED TO 27 SPEEDS, THE STIFF FRONT FORK TO AN INNOVATIVE TRAVEL ADJUSTMENT SUSPENSION FORK AND THE BRAKING SYSTEM EVOLVE FROM AN ORDINARY TYRE BRAKE TO PERFORMANCE DISC BRAKES.

WE AT SR SUNTOUR MADE THE FIRST MOUNTAIN BIKE COMPONENTS IN THE EARLY '80S. WE'VE OBSERVED THE PROCESS OF THE BICYCLE FRAME AND THE SUSPENSION BECOMING A SINGLE UNIT AND REACTED BY INTRODUCING THE CONCEPT OF FUNCTIONAL INTEGRATION WITH OUR I.C.E PRODUCT LINE.

THROUGHOUT ALL THESE CHANGES THOUGH, ONE THING AT SR SUNTOUR HAS ALWAYS REMAINED THE SAME: THE CONSTANT SEARCH FOR SOLUTIONS TO IMPROVE BIKING. TO MAKE IT EASIER, TO MAKE IT BETTER.

THROUGH THE YEARS OUR PASSION FOR MAKING BIKING EASIER HAS BEEN OUR FAITHFUL COMPANION, A PARTNER IN WHICH WE COULD TRUST, A CONSTANT INSPIRATION, AN ENDLESS ENERGY SOURCE, A COMMON THEME IN OUR WORLD WIDE, MULTINATIONAL COMPANY.

IT IS THIS PASSION TO OUR COMPANY PRINCIPLES OF PROVIDING QUALITY, PRICE AND FULFILMENT THAT HELPS US TO SATISFY THE EXPECTATIONS OF OUR CUSTOMERS, OUR RETAILERS AND THE BICYCLE ENTHUSIASTS WHO USE OUR PRODUCTS.

THE PASSION TO IMPROVING RIDE QUALITY IS OUR INSPIRATION TO OFFER AFFORDABLE AND INNOVATIVE PRODUCTS FOR OUR CUSTOMER'S ENJOYMENT AND CONSTANTLY TRIGGERS NEW INNOVATION IMPULSES IN OUR MINDS THAT WILL KEEP ON CHANGING THE BIKING WORLD FOR THE COMING DECADES.

LET US MAKE YOUR LIFE EASIER...

YOUR SR-SUNTOUR TEAM

HUB DYNAMO

MODEL: DH-CT600-SERIES

Our new DH-CT600-Series is a compact light and efficient dynamo hub. It is developed to match the latest german regulations StVZO §22a. Some of the requirements are increased efficiency, voltage limitation and a characteristic of the voltage/speed- which reduces flashing when riding at a very low speed.

The DH-CT600-Series dynamo hub is of course optimized in weight and rolling resistance and is including a state of the art connector which makes the wheel disassembly and assembly as easy as possible.

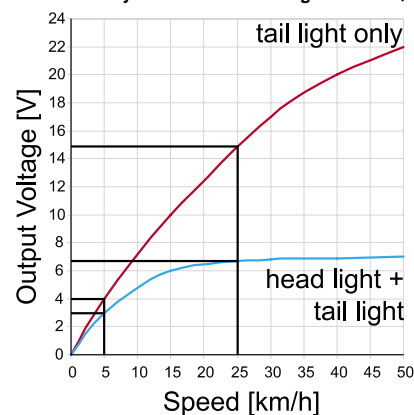

MODEL: DH-CT600-SERIES VARIATIONS

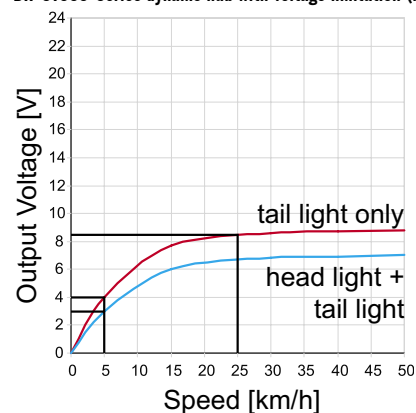

- Alloy body
- New german standard approved including K-mark and wave symbol
- 6V-3W or 6V-2.4W models
- 32H or 36H
- Silver or Black
- Nut type or quick release type
- Weight is approximately xxx grams

OUTPUT VOLTAGE COMPARISON

Conventional dynamo hub without voltage limitation (old StVZO-Standard)

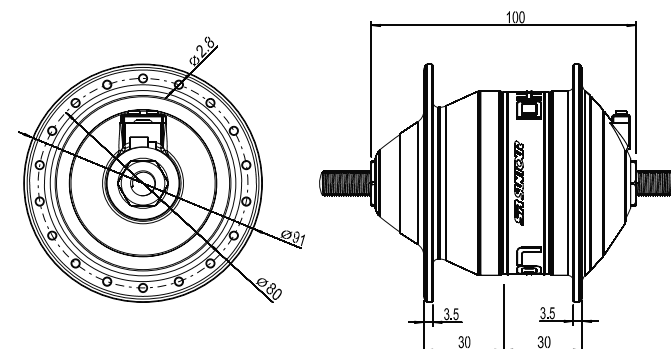

DH-CT600-Series dynamo hub with voltage limitation (new StVZO-Standard)

The voltage limitation prevents bulb breakdown caused by over voltage. This usually happens on conventional dynamos without voltage limitation.
