

**TITEC**®  
THE BEST PART OF ANY BIKE

# THE BEST PART OF ANY BIKE™

You can't just say this—you have to earn it. It takes many years of experience, skillful engineering and a commitment to mountain-tested prototypes to say our products are the best. We started in 1987 with the revolutionary 118 Ti™ bar, we brought one of the first riser bars to market and now we have pushed the limits of carbon technology with our innovative Pluto line. To make the best parts we rely on our experience, constant R&D and a commitment to crafting parts that will endure both trail and time.

## WHY USE TITEC

For a mountain biker, staying in control of your bike is critical, so you should never underestimate the importance of your control components. Small details such as shape, construction and materials can make a big difference when hurtling down a trail. At Titec, we focus on the control components exclusively. This enables us to create products that are designed to work together—and in doing this, we strive to create the **ultimate control system** in terms of performance, function and comfort.

## 4 GROUPS FOR EVERY RIDING STYLE

All of our products are built to last and technically sophisticated, but what makes us really proud is how well they work in the real world. Titec is pleased to present four groups to satisfy the demands of mountain bikers, from North Shore freeriders to leg-shaving racers: **El Norte**, **HellBent**, **HellCat** and **Pluto**.

Each group offers a full line of parts in a wide range of materials, and new **Carbon**, **ProLite**, **Expert** and **Comp** levels mean there's a part for every budget. From high-tech carbon fiber to the most durable freeride parts around, our new line has something for everyone. Because at Titec we know you ride for your own reasons, and now your parts can be as individual as your style.

### El Norte

#### DOWNHILL/FREERIDE

You live for shuttle runs, race day and hard-core stunts like ladders, teeter-totters and big drops. You're the first to the bottom and demand the stiffest and most durable parts available.

DOWNHILL/FREERIDE
EPIC XC/ALL-MT.
XC RACE/MARATHON

### HellBent®

#### EPIC XC/ALL MOUNTAIN

When your buddy heads to the races, where do you go for the weekend? Whether it is a trip to Moab or a favorite ride closer to home, you need parts light enough for the haul up and sturdy enough for the epic descent.

DOWNHILL/FREERIDE
EPIC XC/ALL-MT.
XC RACE/MARATHON

### HellCat

#### WOMEN'S MOUNTAIN

Designed to fit a women's anatomy. Everything you would expect from Titec products—no compromise on performance.

DOWNHILL/FREERIDE
EPIC XC/ALL-MT.
XC RACE/MARATHON

### pluto

#### XC RACE/MARATHON

You demand the best and lightest parts. Carbon Fiber. Titanium. Anything to shed pounds and put you in the lead. So whether you're building up your dream bike, entering your first 24-hour race or competing in the World Cup, Titec Pluto components will get you there faster.

DOWNHILL/FREERIDE
EPIC XC/ALL-MT.
XC RACE/MARATHON

## PRODUCT RATING SYSTEM

Each Titec group offers a full line of control components in a wide range of sizes and materials. The new **Carbon**, **ProLite**, **Expert** and **Comp** levels mean there's a part for every budget.

**CARBON**:::Optimal strength to weight ratio. We Build our carbon products to withstand real world mountain bike abuse. Features such as high compression carbon fiber and aluminum reinforcement where its needed.

**PROLITE**:::Our best alloy products. Designed to be good enough for professionals. Construction techniques such as tapered walls, double butted and 3D forging make the Prolite group of products worthy of their name. All have the legendary Titec performance and durability.

**EXPERT**:::Top designs and manufacturing process. Slightly less expensive materials offer the same performance at less cost.

**COMP**:::Same great designs means full performance at a great value.

## KNOCK-RATED™ GUARANTEE

Look for products with Titec's exclusive Knock-Rated guarantee. These parts are covered against riding damage for **Two years** from the original purchase date. Jumping, crashing, hucking, you name it. You ride it. If you break it, Titec will replace it for free. Simple as that.

Want to know if your part is covered? Look for the Knock-Rated icon on your Titec components.

The fine print: Void where prohibited. Any Titec wararanty is made void by modification of the part in any way, or by improper installation or application. If you have any questions about proper usage, consult an authorized Titec dealer, call us @ 1-888-800-5999 or email us at warranty@titec.com.

## WARRANTY POLICY (We stand behind what we sell)

Titec warrants all their component parts against defects in materials and workmanship for the life of the original owner. (which we hope to prolong with our bomb-proof parts!)

In addition to our industry leading warranty, we offer great customer service.

## HELLBENT HANDLEBAR FEATURES

### Carbon

- ::: HellBent Carbon bars are built to last, meeting or exceeding the leading competitor in strength tests
- ::: High-compression multi-directional carbon weave
- ::: Reinforced anti-crush zones at clamp and bar ends

### Aluminum Alloy

- ::: Purposefully designed for the rigors of all day Epic adventures
- ::: Tapered and butted for optimal strength to weight ratio
- ::: Shot peened and anodized finish increases fatigue strength and durability
- ::: Wide variety of sizes for the best possible fit

DOWNHILL/FREERIDE
EPIC XC/ALL-MT.
XC RACE/MARATHON

### HELLBENT ::: Handlebar specs

MATERIAL	RISE	WIDTH	CLAMP	BACK-SWEEP	UP-SWEEP
CARBON	1.5"/2"	660mm/690	31.8mm	9°	5°
ALUMINUM	1.5"/2"	660mm/670	25.4/31.8mm	8°(25.4) 9°(31.8)	4°(25.4) 5°(31.8)
H-Bar (AL)	1.5"	660mm/670	25.4mm	26°	4°

Designed by jeff jones, these unconventional looking bars can provide better handling and more comfort than traditional bars. The shape of the bar brings your hands closer to your sides for more climbing power and side-to-side control. Unique shape allows for a variety of hand positions.

### H-BAR
