# LEGENDARY PERFORMANCE

- 6 Time World Champion
- 4 Time NORBA World Champion
- 1 European World Title
- 1 UCI World Title
- 10 Time National Champion
- 5 NORBA National Titles (3 DH, 2 XC)
- 2 National Road Race Titles
- 1 BMX National Title
- 1 World Cup Championship
- 3 World Cup Final Event Wins
- 8 World Cup Event Wins
- 14 NORBA National Event Wins
- 1 Amateur National Motocross Championship

John Tomac on the Carbide XC in the hills of Monterey, CA

The most respected person to ever throw a leg over a mountain bike, John Tomac was just a youngster when he began winning bike races. The Owosso, Michigan native won his first major event at the age of 16, becoming the National BMX Cruiser Class Champion in 1984. He won an XC World Championship in 1991 and is a ten time National Champion. From BMX, to road, to DH and XC mountain bike racing, Tomac is the most versatile cyclist to ever ride a bicycle. With his Kamikaze win in 2005, his cycling career has spanned 20 years.

# CARBIDE XC

## CARBIDE XC

The Carbide XC is all of your cross-country riding dreams come true: A lightweight, stiff and highly efficient XC bike that will leave you wanting more from the first ride. Built with aircraft grade high-modulus carbon fiber, the Carbide has been designed to provide limitless lateral stiffness, excellent pedaling stiffness and bump absorption in a lightweight 5.4lb (2450g) frame and rear shock package. The Carbide is ready to launch.

### Features

- 90mm rear travel, designed for 80 or 100mm travel fork and custom tuned Fox RP23 rear shock
- 5.4 pound (2450g) frame weight with Fox RP23 shock (large size)
- Carbon tubes designed to promote overall stiffness, specific carbon lay ups for each size bike
- Optimized wheel path to provide minimal chain growth and linear action
- Low stand over height with plenty of seat post adjustability
- Three sets of bearings for frame means easy service
- Dual water bottle mounts on all but small size
- Available in small, medium, large and extra large

The **Carbide XC** frameset is equipped with the Fox RP23 shock and is low gloss carbon/anodized black only.

# SNYPER 140

## SNYPER 140

When we set out to design the all-new Sniper 140, we knew we wanted to accomplish three major things: 1) Provide a high degree of lateral stiffness for precise steering 2) create a suspension system that would allow for both excellent pedaling efficiency and bump absorption, and 3) have the bike be light enough to be capable on ascents and flickable on descents. The Sniper 140 is all of these things combined: a do-it-all bike that is stiff, light and breathes high performance.

### Features

- 140mm rear travel, designed for 140mm travel fork and custom tuned Fox RP23 rear shock
- 6.8 pound (3084g) frame weight with Fox RP23 shock, medium size
- 6061 T6 aluminum front triangle and rear end with forged aluminum links and dropouts
- Optimized wheel path to provide minimal chain growth and linear action
- Low stand over height with plenty of seat post adjustability
- Three sets of bearings for frame means easy service
- Single under-down-tube water bottle mounts
- Available in small, medium, large and extra large

The **Sniper 140** frameset is equipped with the Fox RP23 shock and is anodized black only.

# PRIMER 220

## PRIMER 220

The Tomac DH legacy continues with the Primer 220, a full blown DH bike designed to make mincemeat of the competition. The Primer 220 is the work of Mountain Bike Hall of Famer and Manitou-suspension fork founder Doug Bradbury, whose experience during Johnny T's pro racing days led him to design another bike of World Cup heritage. Featuring 220mm of travel, the Primer has enough CNC-machined aircraft-grade 7050 aluminum to launch a space program.

### Features

- 220mm rear travel, designed for 203mm travel fork
- 10 pound (4535g) frame weight for medium size bike
- 7050 aluminum front triangle and rear end with CNC aluminum links and dropouts
- Single pivot linkage design with oversize 83mm bottom bracket shell
- Custom hex rear axle (included with bike)
- Low leverage 9.5 x 3 inch stroke rear shock
- Oversize bearings
- Low stand over height
- Available in medium and large

Primer 220 frame comes equipped with the Fox DHX 5.0 shock.

Shown in standard white paint.

Optional colors may be available.

Sold as frame only.

# NEW TOMAC MODELS

## TOMAC TYPE X

The Type X carbon hardtail isn't just your run of the mill carbon race bike. It has been specifically designed to be ultra-light yet provide a high degree of lateral rigidity and vertical compliance. Frame weight is a low 1.1kg (medium size).

## FEATURES

- Designed for 80 or 100mm travel fork
- 2.4 lbs/1100gram frame weight, medium size
- High modulus carbon fiber tubes
- CNC aluminum dropouts and brake bridge
- Short chain stays and longer front end
- Accepts dual water bottles on all size frames
- Available in small, medium, large and extra large

### TYPE X 1 SPECIFICATIONS

# CORTEZ

## TOMAC CORTEZ

Return of the legend...the Tomac Cortez hardtail is based off the original Manitou hardtail and Tomac Buckshot with some updates to tube specifications. The Tomac aluminum hardtail mimics the original bikes that brought John Tomac the rainbow jersey.

## FEATURES

- Designed for 80 or 100mm travel fork
- 3.4lbs/1542gram frame weight, medium size
- Custom butted AN-6 aluminum
- CNC yokes and aluminum dropouts
- Short chain stays and longer front end
- Accepts dual water bottles on all size frames
- Available in small, medium, large and extra large

# AUTOMATIC

## TOMAC AUTOMATIC 100

The Automatic is based off the Carbide and Snyder look and design. The focus is on keeping the weight to a minimum while still maintaining lateral stiffness. Pedaling efficiency and bump absorption is optimized through a design that provides minimal chain growth and a linear shock action.

## FEATURES

- 100mm rear travel, designed for use with 100mm fork and custom tuned Fox RP23 rear shock
- 5.8 pound/2600 gram frame weight with Fox RP23 shock (large size)
- 6069 aluminum tubes designed for a high degree of overall stiffness
- Optimized wheel path to provide minimal chain growth and linear action
- Low stand over height with plenty of seat post adjustability
- Three sets of bearings for frame means easy service
- Single water bottle mount on all size frames
- Available in small, medium, large and extra large

# TECHNOLOGY

**CARBIDE XC ONLY**

**SNYPER 140 ONLY**

Tomac Bikes is intensely focused on riding mountain bikes and making the best mountain bike you will ever own.

OUR MISSION IS TO:

Build the best mountain bikes possible.

Exceed our customer's expectations.

Act with respect, honesty and integrity.

Believe in the Tomac brand.

At Tomac, we live, breathe and ride mountain bikes. We live for high performance, innovation, and creating superior products. Our passion for mountain biking and the brand isn't just marketing hype either. We want to make products that would make Johnny T proud.
