TODAY'S BIKE PARTS

LIVE TO RIDE! RIDE TO LIVE!

For us a bike provides more than just cheap transportation. Cycling goes way beyond leisure and necessity. Cycling is part of our existence, a necessity of life. It's living life to the fullest. It's also our motive to develop products that make cycling even more fun, comfortable, exciting and safe for all different types of cyclists. Our bike is the ultimate billboard through which we express our passion. Therefore we named our products "BillBoard Bikeparts", in brief BBB!

Everybody has his own way of fulfilling his cycling needs. For some people an extreme downhill provides the ultimate thrill while others prefer the excitements of road racing or enjoy a pleasure cycling tour on a beautiful sunny day.

Whichever direction your passion for cycling leads you, let us take you there. BBB products are made by cyclists for cyclists! Over here at BBB Bike Parts, we are all life-long cycling enthusiasts. We are continuously exchanging ideas on how to improve the aspects of bicycle products and provide the best accessories for mountain bikers, road racers and tour cyclists.

Developing the right products isn't our only challenge, we also strive to offer them at affordable prices. The fact that BBB products are being enjoyed in over 29 countries world-wide proves that we are moving in the right direction. Share our passion and visit a good bikeshop. Chances are you will find our products waiting for you!

This year, we've made an outstanding product line even better with new and vastly improved products that will take your cycling experience to new heights:

- We added a couple of high-tech sportsglasses to the line.
- Completely re-engineered minipumps and shock pumps.
- New summergloves, improved wintergloves and shoecovers.
- Additional bike tools, including a bike stand.
- Revolutionary carbon fiber bottlecage.
- Aesthetically stunning handlebar stems.
- A wider selection of saddles and brakes shoes.
- A new line of bomb-proof cassettes.
- Much, much more....

So what are you waiting for? Turn the pages, visit your authorized BBB Bike Parts dealer and get ready for a dose of real cycling excitement! Have fun!

Can Your Sunglasses Handle Changes?

Your sunglasses may seem perfect as you head outdoors on a sunny day. But what if it suddenly becomes cloudy and dark? With BBB sports-glasses, your eyes are protected under any weather condition. That's because BBB sports-glasses come with **3 interchangeable and shatter-proof polycarbonate (PC) lenses**. Changing weather? Simply take off your lenses and snap on an appropriate one. It's fast, easy, gives 100% protection from harmful UV rays and protects your eyes from debris!

INTERCHANGEABLE POLYCARBONATE LENSES

Clear lenses: (Evenings and bad weather) Gives complete, unaltered visibility. Protects your eyes from wind, sand, bugs, dirt and other flying debris.

Smoke lenses: (Sunny days) Reduces harsh glare from sunlight and lights reflected from snow and other shiny objects or surfaces.

Coloured lenses: (Overcast days) Improves optical contrast for crystal clear vision in reduced daylight lighting environments.

INTERCHANGEABLE LENSES WITH OPTICAL LENSES FEATURE. BBB PowerView features an easy snap-on / snap-off lens interface. No extra tools or parts needed to change the polycarbonate lenses or install the optical lenses.

Durable GRILAMID optical frame material.

NYLON FRAME material withstands rugged use.

BSG-20 POWERVIEW

Comes with 3 sets of interchangeable polycarbonate lenses: Smoke, coloured and Clear lenses.

Shatterproof PC lenses with wrap-around design gives total protection from harmful ultraviolet (UV) rays.

Flexible temples with high-grade anti-slip rubber inserts and a rubber nose-piece gives a no-slip fit under extreme conditions.

Matte black

Includes a high-quality carrying case.

Glossy aluminum, dark gray

Matte silver

INTERCHANGEABLE POLYCARBONATE LENSES

Smoke Clear Colored

Glossy crystal brown, titanium / red mirror lenses. Spare lenses: Smoke / clear.

Metal logo.

GRILAMID NYLON FRAME.

BSG-22 OUTDOOR

Open frame prevents fog build-up.

Amazingly lightweight at only 20 grams.

Flexible temples equipped with high-grade rubber piece for a secure yet comfortable fit for any head shape.

High-quality scratch-free bag that doubles as lens wipe.

INTERCHANGEABLE POLYCARBONATE LENSES

Smoke Clear Colored

Glossy crystal gray, black / smoke lenses. Spare lenses: blue mirror / clear.

Glossy crystal silver, navy / blue mirror lenses. Spare lenses: Smoke / clear.

Glossy crystal navy, silver / red mirror lenses. Spare lenses: Smoke / clear.

Glossy crystal gray, silver / red mirror lenses. Spare lenses: Smoke / clear.

BSG-16 NAVIGATOR 2

Advanced lightweight frame. Stylish, high-tech and modern look.

Comes with a high-quality scratch-free bag that doubles as lens wipe.

Flexible temples equipped with high-grade rubber piece for a secure and comfortable fit for any head shape.

Metal logo.

Extra lenses: Pearl blue / smoke lenses Blue Clear

Shatterproof 100% UV protection coated one-piece polycarbonate lenses (DOWNSWEEP) for ultimate eye safety.

BSG-11 CHALLENGE

Flexible temples equipped with high-grade rubber piece for a secure and comfortable fit for any head shape.
Shatterproof 100% UV protection coated one-piece polycarbonate lenses for ultimate eye safety.
Comes with a high-quality scratch-free bag that doubles as lens wipe.

Foggy Lenses? That's Why We Designed the BBB Ventilator Sportsglasses!

OPEN FRAME WITH DUAL VENTS.
Provides optimum air-cooling.
Prevents fog build-up.

Ordinary sportsglasses.

BSG-08 VENTILATOR

Advanced lightweight frame. Flexible temples equipped with high-grade rubber piece for a secure and comfortable fit for any head shape.
Shatterproof 100% UV protection coated polycarbonate lenses.
Comes with a high-quality scratch-free bag that doubles as lens wipe.

BSG-09 PERFORMANCE

Flexible temples equipped with high-grade rubber piece for a secure yet comfortable fit for any head shape.
Shatterproof, weather-specific polycarbonate lenses.
High-quality scratch-free bag that doubles as lens wipe.

Open frame provides optimum air-cooling and prevents fog build-up.

Advanced lightweight frame. Stylish shape that gives an easy-going casual look.

BSG-21 CRUISER

Flexible temples equipped with high-grade rubber piece for a secure and comfortable fit for any head shape.
Shatterproof 100% UV protection coated polycarbonate lenses for eye safety.
Comes with a high-quality scratch-free bag that doubles as lens wipe.

Falling Down Doesn't Have to Mean Shredded Hands!

If you're a cyclist, crashing is a part of life, no matter how careful you are. Typically when you are falling the arm is extended with the palm wide open to try to break the fall. You can imagine the damage this will do to your palms. Even minor crashes may involve painful skid burns. Why suffer? With BBB summergloves, your hands are wrapped in the security of the most advanced cycling glove technology. Made

especially for the roughest tumbles. Amara and Supergrip palm material protect the palm and gives excellent traction even in wet conditions. Extra rubber pads on each finger for added impact protection. MicroMesh and durable stretch neoprene combination for optimum air circulation, comfort and fit. Reinforced patches resist wear and tear in high-stress areas. And for a secure fit, high-grade wrist strap with velcro closure keeps them securely in place. Available in S, M, L and XL.

Supergrip palm material for added grip traction under any weather condition.

BBW-05 COOLDOWN

YELLOW

High-grade wrist strap with tough velcro closure.

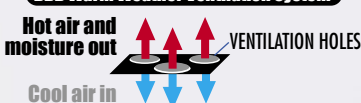

RED

BLUE

BLACK

BBB Warm Weather Ventilation System

Durable Italian Lycra with ventilation holes for optimum air circulation and maximum comfort especially in warm weather conditions.

Reinforced thumb / forefinger for extra durability against wear and tear in high-stress areas.

Durable Italian stretch Lycra and Italian Lycra with ventilation holes for optimum air circulation and maximum comfort.

Reinforced thumb and forefinger resists wear and tear in high-stress areas (repeated shifting and braking).

BBW-06 HARDLINER

Supergrip palm material for added grip traction under any weather condition.

High-grade wrist strap with velcro closure.

Terry towel thumb area to wipe sweat off your face.

BLUE

YELLOW

RED

BLACK

Combination of Micro-Mesh and stretch Lycra on the knuckle area for optimum air circulation and sweat evaporation. Also gives a great fit.

Reinforced thumb and forefinger resists wear and tear in high-stress areas (repeated shifting and braking).

BBW-07 SPEEDLINER

Amara palm material for superb gripping traction in any weather.

Neoprene wrist strap with velcro closure.

Terry towel thumb area can be used to wipe sweat.

BLACK

RED

BLUE

YELLOW

Reinforced thumb and forefinger for extra durability against wear and tear in high-stress areas - (repeated shifting and braking).

Spandex knuckle area: excellent breathability, comfort and freedom of movement

BLUE

High-grade neoprene wrist strap with velcro closure.

BBW-16 GELLINER

Suited for the demands of road and mountain biking. Technical glove with gel padding insert in the palm and AIRMESH - Air ventilated, breathable material.

BLACK

RED

Terry towel thumb area can be used to wipe sweat off your face.

BBW-19 HIGHLINER

Terry towel thumb area can be used to wipe sweat off your face.

Extra rubber padding on Spandex base material along the length of each finger for added protection against falls.

Made especially for the downhill. Combination of Micro-Mesh, and stretch neoprene on the knuckle area gives optimum air circulation and sweat evaporation for maximum comfort.

RED

BLACK

BLUE

Micro-Mesh sides for breathability, comfort and ease of movement.

High-grade neoprene wrist strap with velcro closure.

Rubbertec palm material for superb grip in any weather. Latex padding base cushions your palms.

Comfortably snug elasticity.

Coolmax® four channel fibers for rapid drying, thermoregulation and shrink resistance.

Sizes: S(35-38), M(39-42), L(43-46), XL(47-49).

Reinforced toe area.

Reinforced heel area for increased durability in high-stress areas.

Web-knitting construction gives superior breathability for healthier and odorless feet.

BBW-11 COOLFEET MTB

MTB socks in darker colors made especially for repeated heavy washing after muddy rides.

BBW-10 COOLFEET ROAD

Clean elegant short race socks matches perfectly with your outfit.

Freezing Cold Froze Your Cycling Plans?

Not if you're wearing a pair BBB wintergloves! With an impressive arsenal of high-tech fabrics that keeps the heat in and cold out, you'll be hard-pressed for an excuse not to go out cycling even in deep winter. Stylish too! Comes in 5 sizes: S, M, L, XL and XXL.

Extra long 40mm thermostat cuff.

photo: Cor Vos

Inner layer with prestitched glove liner for a comfortable fit and maximum isolation.

A. Amara-reinforced forefinger and thumb area.

Modern anatomic design of the palm and upper part.

Lightweight, all-weather.

BWG-03 AQUASHIELD

VITECH palm with RUBBERTEC reinforcement material allows direct contact and the best grip. High-end gel insert on the palm area protects the sensitive parts of your hands.

EUROTUX layer made of tough polyurethane stops cold air and water. Microdots allow moisture to escape, helping your hands stay warm and dry.

Amara palm gives a direct feel to your handlebar grips.

Upside-down Velcro closure strap offers higher comfort.

Supergrip palm for secure gripping and comfort.

B. Amara-reinforced forefinger and thumb area.

Modern anatomic design of the palm and upper part.

BWG-06 WINTERLIGHT

Light to wear, designed for normal winter conditions.

THERMOLITE thermic isolation layer. MICROMESH material on the front combined with Terry fabric to wipe away sweat. High-grade neoprene insert for better comfort.

Extra-long 40mm knitted cuff.

Sharkskin palm base material gives extra comfort.

Full inner glove lining gives high comfort and maximum isolation.

C. Spike-grip reinforcement patches prevent wear and tear from repeated shifting and braking

Amara reinforced forefinger and thumb area.

New Anatomic design of the palm and upper part.

D. Supergrip palm for outstanding gripping traction.

BWG-04 WINTERSTOP

Advanced WINDSTER material with heat-retaining fleece keep wind out and heat in for the ultimate insulation.

BWG-03 THINSULATOR

THINSULATOR thermic isolation layer. Micromesh front with Terry fabric for extra warmth and to wipe away your sweat.

In 5 sizes: 39/40, 41/42, 43/44, 45/46, 47/48.

Mesh design rubber front cap gives high-strength and water-resistance.

Open Sole Design (O.S.S.) avoids sole damage. Perfect for MTB and road use.

38mm wide velcro strap allows you to use these shoe covers for (in-line) skates.

Anatomic design for maximum comfort.

BWS-05 ISOLATOR

Advanced RUBBER FOXING MOLDING TECHNOLOGY for extremely high strength. Extra tough 3mm SHARKSKIN NEOPRENE. High-end material has double-stretch for perfect fit and water-resistance.

Velcro reflective strap for a secure and slip-free fit, enhances safety when riding in dim light.

Reflective jam-proof industrial-strength YKK® nylon zipper.

High quality molded BBB logo won't come off.

Shoecover bottom reinforced with two-piece kevlar materials.

A. Velcro reflective strap for a secure fit, enhances night safety.

B. High quality BBB logo graphics.

C. All seams are covered by a highly-flexible nylon piping.

Open Sole Design (O.S.S.).

Anatomic design for maximum comfort.

Open Sole Design (O.S.S.).

Kevlar reinforcement between sole and reflective jam-proof industrial-strength YKK® zipper.

BWS-04 HARDWEAR

NEOSKIN: HARDWEAR material with 3mm neoprene base. High-end double-stretch material for perfect fit and water-resistance.

A. Jam-proof industrial-strength YKK® nylon zipper.

B

C

Extra 3M® reflective reinforcement between sole and zipper.

BWS-02 HEAVYDUTY

3mm MULTI-STRETCH NEOPRENE with nylon reinforcements on both sides.

Nose reinforced with Kevlar.

Velcro reflective strap for a secure and slip-free fit, enhances night safety.

Open Sole Design (O.S.S.).

High quality BBB logo graphics.

D. All seams are covered by a highly-flexible nylon piping.

Open Sole Design (O.S.S.).

Velcro strap allows you to use these for (in-line) skates.

Anatomic design for maximum comfort.

Kevlar reinforcement between sole and reflective jam-proof industrial-strength YKK® zipper.

BWS-03 WATERFLEX

Advanced 2mm WATERFLEX material, outer POLYURETHANE (PU) RUBBER with inner MICROFLEECE give the highest level of water-resistance, flexibility and durability.

Anatomic design gives a comfortable fit. Zipper-free.

Lycra fleece back part is soft and comfortable to wear

BWS-01 RACEPROOF

Windster high-quality WINDBREAKER material gives maximum protection against the cold.

Your Headlight Quits Before You Do?

Riding in the dark is not only dangerous. It also isn't much fun. So why use headlights that quit before you do? With a BBB rechargeable headlight, you'll never have to rely on moonlight again.

You see, each DuoCharger is equipped with advanced Nickel Metal Hydride (NiMHd) batteries providing 60% - 100% more power storage than Nickel Cadmium (NiCad) equipped light sets.

RECHARGEABLE

- RECHARGE POWER KIT INCLUDED.
1. Nickel Metal Hydride batteries.
 2. High-quality power adapter.

Additionally NiMHd batteries always recharge to full capacity unlike NiCad which lose capacity every time they are recharged. NiMHd can be recharged twice as many times as NiCad. What's more, they are environmentally friendlier too.

BLS-06 DUOCHARGER

Triple advanced digital IC-controlled power modes:

- High Power Mode: Low to zero lighting conditions.
- Standard Mode: Overcast to dim lighting conditions.
- LED Mode: Added rider visibility when batteries are running low and power conservation is required.

Accurate low battery indicator.

RECHARGEABLE
NiMHd batteries and power adapter included.

DUAL FRONT LED BULBS.
Extra visibility for greater safety when batteries are low.

Shatter-resistant polycarbonate lens.

HANDLEBAR LOCK-UP MOUNT
Securely fastens your light set on your handlebar

OFFICIAL SUPPLIER
ALESSIO
ALLOY WHEELS
CYCLING TEAM 2004

BLS-05 NITECHARGER

High-intensity Krypton bulb.

Sturdy, water-resistant and elegant hard casing protects your headlight's innards against the bump and grind of rough cycling in any weather condition.

RECHARGEABLE
NiMHd batteries and power adapter included.

Soft push on-off button activates quickly.

Shatter-resistant polycarbonate lens.

EASY MOUNTING BRACKET.
Quick installation and hassle-free adjustment.
Fits most handlebar diameters.

BLS-11 NIGHTVIEW

Efficient and powerful Xenon bulb provides excellent illumination any time of the day or night in any kind of weather. Engineered to give maximum visibility for increased safety.

Sturdy, water-resistant body casing protects your headlight even from daily rugged use.

Easy mounting bracket for quick installation and hassle-free adjustment. Fits most handlebar diameters.

Uses 4 "AA" type batteries (not included).

Easy mounting bracket.

Shatter-resistant polycarbonate lens.

Soft push on-off button activates quickly.

photo Car Vos

Extra bright 4 white LED bulbs provide excellent illumination every time in any kind of weather. Engineered to give maximum visibility with minimum energy consumption for long distance cycling. 2 modes:

- Continuous MODE.
- Flashing mode.

BLS-14 NIGHTLED

Extra bright 4 white LED bulbs.

Sturdy, water-resistant body casing protects your headlight from daily rugged use.

Easy mounting bracket for quick installation and hassle-free adjustment. Fits most handlebar diameters.

Uses 4 "AA" type batteries (not included).

Uses 5 super-bright digital IC-controlled red micro-LED bulbs. Economical power consumption for longer lasting battery life while giving optimum visibility. Your choice of 4 modes:

- Continuous.
- 3 various flash modes.

BLS-15 FIVELASER

Sturdy and water-resistant body casing protects your rear light from impacts and the weather.

Uses 2 "AAA" type batteries (included).

BLS-03 NITELASER

Front and rear LED light set.

3-LED light set. 2 modes:

- Blinking.
- Constant beam.

Water-resistant housing.

Uses 2 "AAA" type batteries (included).

BLS-02 NITELASER

Rear LED light.

BLS-12 COMBO

Unique combination of:

- Xenon headlight (NightView).
- 3-LED rearlight (NiteLaser).

Includes easy mounting clamp that is removable when necessary.

Easy mounting bracket (NightView) for quick install and hassle-free adjustment. Fits most handlebar diameters.

NightView uses 4 "AA" type batteries. NiteLaser uses 2 "AAA" type batteries. (not included).

Why are BBB Pumps the Best Value-for-Money?

DUALHEAD PUMP HEAD

Most BBB minipumps come with Dualheads that are compatible with Schrader, Presta and Dunlop valves.

THUMBLOCK LEVER

Locks on to your tire valve for the fastest, leak-free air flow. No slip-offs, no hassle!

T-TYPE HANDLE

Pump fast with more power without losing your grip in any condition, wet or dry!

More Features,
Great Prices!

photo Cor Vos

Tired of Playing the Guessing Game?

With these BBB minipumps, you'll always get precise tire air pressure reading with its built-in, easy-to-read in-line air pressure gauge in bar and PSI. Accurate and convenient to use.

IN-LINE PRESSURE GAUGE
Ultra-accurate pencil-type.

Tired of Losing Your Minipump?

The bumpy road of cycling claims another minipump, perhaps yours? Not when you're using BBB minipumps. With a revolutionary clamp equipped with a high-quality rubber strap, your minipump stays safe and secure with you wherever you go. As a bonus, installing and adjusting is a breeze!

BMP-18 WINDGUN

280mm.

BMP-17 WINDGUN

230mm.

BMP-16 WINDRUSH

280mm.

BMP-15 WINDRUSH

230mm.

BMP-14 WINDWAVE

230mm.

Pumps up to 100+ PSI / 7+ bar.
Bolts, clamp and straps included for secure mounting.

Pumps up to 100+ PSI / 7+ bar.
Bolts, clamp and straps included for secure mounting.

Pumps up to 100+ PSI / 7+ bar.
Bolts, clamp and straps included for secure mounting.

THUMBLOCK LEVER

MODERN AERO DESIGN.
One of the smallest and lightest
in the market. Especially suited
to the needs of road racers.

RUBBER CLAMP SYSTEM.
Simple, secure and
easy to adjust.

Rust-resistant 6063 T6 alloy barrel.

BMP-21 WINDLITE

Unique easy-to-use thumb-lock inter-
changeable head for Schrader and
Presta valves.

Pumps up to 100+ PSI / 7+ bar.

T-TYPE
HANDLE

T-type handle

Valve cover helps to keep your valves clean.

SWIVEL HEAD
For easy valve engagement from any direction.

Lightweight, rust-proof composite barrel
with durable metal piston shaft.

BMP-03 WINDMILL

Unique easy-to-use thumb-lock inter-
changeable head for Schrader and
Presta valves.

Pumps up to 100+ PSI / 7+ bar.

Bolts and clamps included
for secure mounting.

Inflate your deflated tire in a few seconds easily. BBB
AirSpray CO2 pumps are so small they fit in your
saddlebag and pocket, yet a single cartridge delivers
enough air to fill a bike tire up to the proper
air pressure. Fast, easy, powerful!

BMP-35 AIRTANKS

Replacement cartridges
(threaded) for BBB AirSpray.

Huge volume capacity of 16g.

A single cartridge fills 1 MTB
tire up to 40 PSI / 2.8 bar
and a road tire up to 125
PSI / 8.2 bar.

Comes in two pieces
per pack.

Blue regulator enables
controlled airflow.

BMP-30 AIRSPRAY

Fits Presta and Schrader valves
with no need for adapters.

Two 16 gram CO2 cartridges
included.

Neoprene insulator prevents
frozen hands.

Precision 1.5": analog gauge encased with housing for better protection

External swivel hose for easy engagement

Lightweight, corrosion-resistant aluminum
alloy barrel with nickel-plated brass parts.

Slip-free ergonomic handle.

BMP-19 AIRSHOCK

Fine-tuning pressure bleeder valve for precise delivery.

Specially designed for 400 PSI / 30 bar suspension shock. Maximum pressure: 400 PSI / 30 bar.

2-stage non-leakage valve release system.

DUALHEAD PUMPHEAD

SCHRADER PRESTA DUNLOP

BBB Dualhead Pumps Fit All Kinds of Tire Valves. No Compatibility Problems!

Nothing deflates a great cycling day more than finding out your
single-headed pump doesn't match with your tire's valve. With
BBB floorpumps, you'll never have to worry about mismatched
tire valves and pumpheads again. That's because all BBB floor-
pumps come with dualheads for Schrader, Presta and Dunlop.

ACCURATE PRESSURE GAUGE. In bar and PSI.
Top-mounted for easy pressure reading.

Titanium

57cm STEEL BARREL.
Extra long for huge
pumping capacity.

ALLOY-PLATED BASE.
For extra durability and
corrosion-resistance.

KRATON SUPERCOMFORT
HANDLE.
Gentle on your hands.

BFP-02 AIRRAID

Pumps up to 160 PSI/11 bar.

Thumblock lever to ensure the
Dualhead is firmly fixed on the
valves to prevent air leak.

THUMBLOCK LEVER

Kraton Supercomfort handle.

Silver

Black/Blue

Also available:

Black/Gray

Easy-to-read air pressure
gauge in bar and PSI.

Kraton Supercomfort handle.

Gun-metal gray

Also available:

Silver Blue

Easy-to-read pressure
gauge in bar and PSI.

Alloy-plated base.

BFP-03 AIRSTORM

Rust-resistant 58cm alloy barrel.

Pumps up to 160 PSI/11 bar.

THUMBLOCK LEVER

BFP-00 AIRWAVE

Rust-resistant 51cm composite barrel.

Pumps up to 160 PSI/11 bar.

THUMBLOCK LEVER

BFP-01 AIRSTRIKE

Extra long 57cm steel barrel.

Pumps up to 160 PSI/11 bar.

THUMBLOCK LEVER

Mechanical Failure Means Walking? Not with BBB Bike Tools!

photo Cor Vos

BTL-02 LOBSTER 20

- 20-functions.
- Hardened steel allen key: 2, 2.5, 3, 4, 5, 6, 8mm.
- 1 flat and Phillips screwdriver.
- 14G/15G spoke and chain rivet extractor.
- Rust-proof alloy knife.
- Two tire levers.
- Spanner: 8, 9, 10, 12, 13, 15mm.

Now with T25 TORQUE!

BTL-03 SCORPION 19

- T25 torque.
- Knife and bottle opener.
- Hardened stainless steel wrench box: 8,10mm.
- Flat screwdriver, spoke wrench 14/15G.
- Hardened steel allen key: 2, 2.5, 3, 4, 5, 6, 8mm
- Hardened 6061 chain cutter.
- Phillips screwdriver.

BTL-04 SEASTAR 8

- Hardened steel allen key: 2, 2.5, 3, 4, 5, 6mm.
- Hardened steel flat and Phillips screwdriver.
- Nylon spacers between tools promotes free and smooth movement. With nylon-sealed nuts. Together they ensure SeaStar doesn't fall apart.

BTL-05 NAUTILUS

- Lightweight precision chain cutter works with any chain. Can be adjusted to the size of the chain.
- Steel wrench box: 8 and 10mm.
- Shimano Hyperglide compatible.
- With extra pin.

BTL-07 SPIDER 19

- Hardened steel Allen keys: 2, 2.5, 3, 4, 5, 6, 8mm.
- 1 flat and 1 Phillips screwdriver.
- Two tire levers.
- Spoke wrench: 0.127", 0.130", 0.136".
- Box wrench: 8, 9, 10, 12, 13, 14mm.

BTL-01 OCTOPUS 9

- Hardened steel allen key: 2, 2.5, 3, 4, 5, 6, 8mm.
- Hardened steel regular and Phillips screwdriver.
- Nylon spacers between tools promotes free and smooth movement. With nylon-sealed nuts. Together they ensure Octopus doesn't fall apart.

BTL-06 STINGRAY

- Easy-to-use tire lever.
- Large thumb rest.
- Tire pressure release
- Low profile spoke-hook with two-tone roughener.
- Easy click-on system for portability.

We have upgraded our impressive line of tools with improvements and new products like the ConeFix cone wrench, MultiHook bracket tool, 10mm Hexagon allen key, ThreeStar' hex key wrench, ParkingHook bike wall storage hanger, LeakFix tube repair kit, and EasyMount foldable bike stand. Now you have all the tools you need to fix your bike up!

BTL-25 CONEFIX

Versatile and durable cone wrench. Comes in 13, 14, 15, 16 and 17mm. Each size sold separately.

BTL-24 MULTIHOOK

High-quality bracket tool. Easily assemble the locking of bottom brackets. Fits most lockings.

BTL-10 HI-TORQUE

Install and uninstall your pedals fast and easy.

BTL-11 TURNTABLE

Efficiently holds the sprockets when removing the cassette locking. Also removes the sprockets from a freewheel.

BTL-13 HEXAGON

Quickly unscrews the allen bolts from the cranks.

- Your choice of:
- Diameter: 10mm.
 - Diameter: 8mm.

BTL-20 PULLSTAR

Bottom bracket tool for Shimano type bottom brackets.

Compatible with traditional and Octalink models.

Screw-on blocking mechanism.

BTL-12S LOCK-OUT

Removes cassette locking from Shimano-compatible cassettes.

BTL-16 FASTCUT

Extra sharp blades cut bike cables efficiently.

Industrial-strength iron-steel for flawless, long-lasting performance.

BTL-12C LOCK-OUT

Removes cassette locking from Campagnolo-compatible cassettes.

BTL-17 TOOTHBRUSH

Extra thick bristles suited for a variety of cassette cleaning jobs.

Durable nylon bristles stay stiff and do not fall off prematurely.

Washable.

BTL-26 PARKINGHOOK

Heavy-duty wall storage mount for bicycles.
Variable angles fit all bicycle sizes securely.

BTL-19 PARKINGLOT

Hang your bike on beams and walls. Save valuable floor space while storing your bike in out-of-the-way spaces to minimize clutter.

BTL-14 POWERPULL

Separates the crank from the bike's bottom bracket.

Removable Cap
2in
Dual Function

- 1 Without the cap the tool can be used on all standard spindles.
- 2 With the cap the pulley can be used on all oversized spindles.

BTL-15 TURNER

Durable and compact CrMo spoke wrench.
For spoke diameters: 3.5, 3.3 and 3.2.

BTL-28 THREESTAR

Portable hex key wrench - 4, 5 and 6mm sizes.

BTL-21 BRIGHT & FRESH

Modern chain-cleaning tool, for the best result within minutes. No chain de-assembly needed.
Smooth chainguide mechanism inside.
Made of nylon plastic with replaceable brushes.

BTL-22 EASYMOUNT

Easy to use foldable bikestand with tray.
Durable construction.
Fits oversized tubes.

BTL-30 LEAKFIX

Tube repair kit. Comes in a convenient plastic container for easy storage.
Includes: 6 patches, 1 sandpaper and 1 vulcanizing fluid.

BTL-18 TOOLS & TUBES

Keep your tools mobile yet organized.
Easily fits in your bottle cage for quick access.
Huge capacity allows you to carry all the parts you need.

1. Insert the T-buckle between the saddle rails.

2. Twist until the T-buckle sits securely between the rails.

Secure velcro strap closure fits all saddles.

Saddle rail
T-BUCKLE SYSTEM for fast and secure installation.

BSB-05 POSTPACK

BSB-04 LONGPACK

BBB Hardpack Leaves Nothing Behind!

Fully opens for easy access.

Other Brands

BBB HardPack

Unisized seatpost strap.

Medium

Small

BSB-03 HARDPACK

Water-resistant outer urethane with EVA foam core retains its shape.
Inside foam protects the contents from scratches. Internal release lever deters theft.

photo Cor Vos

TOP CAP valve is made of soft kraton.Rotate to lock.

Safe. Non-toxic.  Guaranteed.

BBC-20 HYDRATANK

Advanced polypropulene (PP) material. Unlike ordinary plastics, PP is odor-free and taste-free. FDA/EC food grade. No toxic residue that may leach into the water.

Durable construction.

Volume: 600ml.

BBC-03 FUEL TANK

Durable, rust-proof and lightweight alloy. T-shape design gives a secure bottle fit. Special dampers prevents scuff marks. Stainless steel bolts.

Available in:

		
SHINY BLACK	BLUE	RED
		
MATTE BLACK	SILVER	YELLOW
		
WHITE	MATTE TITANIUM	ORANGE

CHROME

BBC-02 SUPERLIGHT

Ultra-light stainless steel.

Amazing 45 grams! Saves 25 to 45 grams compared with ordinary waterbottle cages.

Elegant, minimalist design enhances your bike's looks.

BBC-05 ALUCAGE

Made of cold-forged alloy for minimum weight and rust resistance.

Special geometry holds your water bottle securely while enabling fast and easy bottle retrieval.

Modern one-piece design with integrated bracket. No glues that may come apart later.

BBC-06 SIDECAGE

Especially suited for small- sized and suspension frames.

BBC-04 FIBERCAGE

High-grade carbon fiber with unique shape that allows easy bottle removal but maintains excellent bottle retention even on rough terrains.

Unique bonding technology binds the carbon fiber body to the composite base. Won't come off.

Rust-resistant black alloy screws.

Weight: Only 28 grams!

BBP-51 BIKESKIN

Carbon print.

BBP-50 BIKESKIN

Transparent.

Prevent damages caused by repeated contacts among the bike's parts and frame. Extra strong adhesive won't come off even under the most extreme conditions. However, it won't damage your bike's paint finish. Water and heat resistant suitable for all weather conditions. Easy installation. No extra tools needed.

BBP-30 SHOCKGUARD

Protects your rear shocks from dirt, water and flying debris ensuring an extended period of optimum shock performance.

Extra large velcro straps to securely fit a wide range of rear shocks.

Tough yet stretchable material does not restrict the normal movement of your rear shock.

BBP-10 STAYGUARD

Rugged, high-grade neoprene protects your chainstay from chain-slap dents. Extra tough and stretchable material snugly fits all kinds of chainstays.

Large velcro strap keeps your StayGuard securely fastened to your chainstay.

BBP-20 HEADGUARD

Rugged, high-grade neoprene protects your headset by keeping grease in, dirt and moisture out. Extra tough and stretchable material snugly fits all kinds of headset.

Velcro strap keeps your HeadGuard securely fastened to your headset.

BBL-10 HANDY

Extra compact and lightweight. Easily fits into pockets. Convenient.

3-combination numerical code.

Extremely tough 1200mm long cable nylon and steel cable combination.

BBL-01 LOCKSAFE

Extra thick and durable inner steel cable with elastic vinyl smoke cover.

Sturdy, jam-free mechanism.

Click-on holder compatible with frame tubes with a diameter of 22 to 35mm.

Size: 10 x 1500mm, 12 x 1800mm.

BBL-03 KEYSAFE

Durable inner steel cable with elastic vinyl smoke cover.

Click-on holder is compatible with frame tube diameter of 22mm up to 35mm.

Size: 10 x 1500mm, 12 x 1800mm.

BBL-05 DIGISAFE

4-combination numerical code. Code can be custom-set.

Click-on holder compatible with frame tubes with a diameter of 22 to 35mm.

Size: 10 x 1500mm.

BBL-06 MOUNTSAFE

Convenient - can be mounted on your seatpost.

Tough, jam-free mechanism.

Size: 8 x 1500mm, 10 x 1500mm.

BBL-04 LITESAFE

NEW 5-COMBINATION numerical code. Perfect number size in clear print. Resettable code can be cusom-set.

Size: 8 x 1500mm.

Feeling Wet and Dirty? Not when You're Totally Covered!

Most of the fenders are simply too short to protect you properly. Or they don't cover the wheel well enough. At BBB, we make sure your back gets completely covered. Starting with the length: we make sure that our fenders are extra long, so you don't get hit by flying stuff even at high speeds. More of the wheel gets covered, more of you stays clean. Then we meticulously shaped the fenders to offer you the best protection not only from the back but also from the sides. There are no gaps in the middle where things can sneak in.

One set for front and rear.

For 28" bikes with V-brake system.

For 26" bikes with V-brake system.

BFD-01 RAINWARRIORS

Specially engineered geometry provides wide area protection against splashing water. Doesn't interfere with the normal operation of the bike. Fits all regular forks and suspension forks with brace fender hole.

photo Cor Vos

BFD-05F DIRTPROTECTOR

Front fender. Quick-release system makes it fast and easy to mount and remove the fender on your front fork.

FIT-TIGHT QUICK RELEASE SYSTEM. Easily install and adjust the fender to your seatpost. Slip-free fit.

BFD-05R DIRTPROTECTOR

Rear fender.

Front and rear DIRTPROTECTOR fenders sold separately.

Durable lightweight material does not easily fracture nor crack from impacts with high-speed flying projectiles. Unique geometry provides wide area protection from mud and rocks. Doesn't interfere with the bike's normal operation. Fits seatposts and frames of all sizes.

For road bikes.

DUAL ELASTOMER STRAP. Fits any frame with a down-tube up to 76mm / 3".

BFD-04 ROADCATCHER

Durable and lightweight composite material. Special aerodynamic design for minimum wind resistance while giving ample protection from debris. Does not interfere with the bike's normal operation. Fits seatposts and frames of all sizes.

BFD-03 MUDCATCHER

Durable and lightweight composite material. Specially engineered to give you the best coverage from mud, water and debris kicked up by the front wheel. Does not interfere with the bike's normal operation. Fits frames of all sizes.

If Cycling Starts to Feel Like This, Go Get a Pair of BBB Race Ribbons!

It would've been a perfect ride except for the fact that your hands and arms feel like they're about to fall off their sockets. Spare yourself the misery by upgrading to a pair of BBB Race Ribbons. You see, unlike other brands, BBB Race Ribbons are made of the highest-grade synthesized cork with an amazing shock-absorbing surface texture giving you a comfortable, non-slip grip under any weather conditions. Sweat-proof underside adhesive makes installation a snap. Combined with incredible strength and durability so your all-powerful hands will comfortably stay where they're supposed to stay no matter how you twist, turn, stretch or pull. What's more, BBB Race Ribbons come in a wide variety of head-turning colors and oh-so-stylish designs. Who says you have to be a masochist to enjoy cycling?

BHT-01 RACE RIBBONS

Special synthetic cork gives you a firm no-slip shock absorbing grip. Unlike natural cork, synthetic cork has a consistent quality throughout. There are no weak points that may break during high-intensity usage.

Each ribbon can cover a king-size handlebar. Sweat-proof adhesive. Super-strong stretchable material, with included tape and plugs make it easy to wrap around the handlebar.

Whether You're a Mountain Biker or a Roadie,
We Have the Handlebar that's Perfect For You!

BHB-03 FASTBAR

Lightweight at an amazing 287 grams!
Available in 40, 42 and 44cm. (center-to-center).
Bar center diameter: 26.0mm.

BHB-03 FASTBAR OS

Available in 40, 42 and 44cm. (center-to-center).
Bar center diameter: 31.8mm (OVERSIZED).

DOUBLE-BUTTED ALLOY TUBES.
Using computer-aided calculations, we refined the strength and weight characteristics of this handlebar by shaving off material where it's not needed and reinforcing the areas where stress occurs. The result: Superior strength and durability with less weight. The perfect balance!

Ergonomically engineered configuration for super-comfortable upper and lower hand positions. Minimizes stress and fatigue so you can ride better and longer.
Sand-blasted black.

BHB-02 SPEEDBAR

Advanced 6061 T6 plain-gauge alloy.
Ergonomically engineered configuration for super-comfortable upper and lower hand positions. Minimizes stress and fatigue so you can ride better and longer.
Sand-blasted black.
Lightweight at 340 grams!
Available in 40, 42 and 44cm. (center to center).
Bar center diameter: 26.0mm.

NEW ALLOY INSERTS.

BHB-15 FIBERLITE

Extremely light INCA 6061 carbon fiber. RTM technology: A fusion of carbon fiber and 6061 alloy that gives the perfect blend of strength, stiffness, light weight and durability. Protects your handlebar from breaking under pressure. Extra-stiff to give unmatched responsiveness and precise steering control without weighing down your bike. Carbon matte finish. Rise: 15mm. Backsweep: 10 degrees. Width: 600mm. Bar diameter: 25.4mm. Featherlight 165 grams.

RTM TECHNOLOGY

NEW ALLOY INSERTS.

BHB-14 FIBERTOP

Extremely light INCA 2014 carbon fiber. RTM technology: A fusion of carbon fiber and 2014 alloy that gives the perfect blend of strength, stiffness, light weight and durability. Protects your handlebar from breaking under pressure. Extra-stiff to give unmatched responsiveness and precise steering control without weighing your bike down. Carbon matte finish. Rise: 0mm. Backsweep: 5 degrees. Bar diameter: 25.4mm. Width: 560mm. Featherlight 120 grams.

RTM TECHNOLOGY

BHB-06 SKYBAR

Double-buttet 6061 T6 aluminum. Maximum durability in high-stress areas. Less material in non-critical areas to save weight. Result: Optimum strength-to-weight ratio. Extremely strong, light and stiff for uncompromised responsiveness and precise steering control. Available in sand-blasted black and sand-blasted silver to match the looks of your bike. Rise: 35mm. Backsweep: 10 degrees. Bar diameter: 25.4mm. Width: 600mm. Weight: 265 grams.

BHB-05 LITEBAR

Double-buttet 6061 T6 aluminum. Maximum durability in high-stress areas. Less material in non-critical areas to save weight. Result: Optimum strength-to-weight ratio. Extremely strong, light and stiff for uncompromised responsiveness and precise steering control. Available in sand-blasted black and sand-blasted silver to match the looks of your bike. Rise: 20mm. Backsweep: 10 degrees. Bar diameter: 25.4mm. Width: 600mm. Weight: 245 grams.

BHB-04 TOPBAR

Double-buttet 2014 T6 aluminum. Maximum durability in high-stress areas. Less material in non-critical areas to save weight. Result: Optimum strength-to-weight ratio. Extremely strong, light and stiff for uncompromised responsiveness and precise steering control. Available in sand-blasted black and sand-blasted silver to match the looks of your bike. Rise: 0mm. Backsweep: 5 degrees. Bar diameter: 25.4mm. Width: 560mm. Weight: 153 grams.

photo Cor Vos

A Solution to Your Back Problems!

With the introduction of the A-head system, manufacturers still use a -10 degree stem as they were used to traditional bikes. The bad news is -10 degrees is sometimes too steep. When your position is too deep it hurts your back. You can try using spacers but these only make your bike ugly and unstable. With BBB SpeedStem, we designed our stem angle to be -5 degrees. Not too high yet not too steep. It's the perfect angle for the most comfortable ride. -5 degrees still too low? Simply turn the stem and you get a +5 degrees. Just right for the most comfortable configuration. No more weird posture. No more painful back.

BHS-10 SPEEDSTEM

Superlight 6061 T6 alloy body with 2014 T6 alloy faceplate. Cold-forged one-piece construction to provide unsurpassed strength. No welds, glues and other compromises that may come apart. Extensions: 60, 90, 100, 110, 120 and 130mm.

Standard for 1.1/8" forks. Includes shims for 1" forks. Use only handlebars with diameter of 26.0mm.

Extremely safe: 2 stainless steel screws to fix the stems on the steerer tube, 4 stainless steel screws to fix the handlebar.

Black stainless steel screws.

High-end aluminum logo on the face-plate.

Classic 10 degree angle.

Superlight 6061 T6 alloy body withstands the rough demands of fast, competitive road rides. With 6061 T6 alloy faceplate.

Cold-forged one-piece construction for unsurpassed strength. No welds, glues and other compromises that may come apart.

Extensions: 60, 90, 100, 110, 120, 130mm.

Includes shim for 1" fork steering tubes.

BHS-12 ROADFORCE

Bar bore: 26.0mm.

BHS-13 ROADFORCE OS

Bar bore: 31.8mm. For oversized handlebars.

photo O2 BIKERS

Superlight 6061 T6 alloy body withstands the pounding of extreme mountain rides.

2014 T6 alloy faceplate.

Cold-forged one-piece construction gives superb strength. No welds, glues and other compromises that may come apart.

Extremely safe: 2 stainless steel screws to fix the stems on the steerer tube, 4 stainless steel screws to fix the handlebar.

Available extensions: 60, 90, 105 and 120mm.

Standard for 1.1/8" forks. Shims for 1" forks available separately. Use only handlebars with diameter of 25.4mm.

BHS-15 LITESTEM

Competition-designed angle for the absolute minimum wind resistance. Comes with 5 degree rise - not too high, not too steep.

Stainless steel screws.

BHS-16 LITESTEM

High 35 degree - the perfect angle which gives maximum comfort for long rides. Prevents back pains and fatigue. Upright position provides easier steering for better control especially on difficult terrains.

ADJUSTABLE STEM ANGLE
+40° to -20°

High angle for riding comfort and steering control. Low angle for speed and less wind resistance.

BHS-21 HIGHFIVE

Quick angle adjustment via a hex key under the stem.

Extensions: 90, 110mm.

Superlight 6061 T6 alloy body. Cold-forged one-piece construction to provide unsurpassed strength. No welds, glues and other compromises that may come apart.

Extremely safe: 2 high-strength screws to fix the stems on the steerer tube, 2 screws to fix the handlebar.

Standard for 1.1/8" forks. Shims for 1" forks available separately. Use only handlebars with diameter of 25.4mm.

High-polished silver

BHS-20 HIGHJUMP

Sand-blasted black

40 degree rise for maximum comfort for long city and country commutes. Prevents back pains and fatigue. Optimum steering control for difficult terrains.

Extensions: 70, 90, 110mm.

BHG-05 FIX-IT

Engineered for radical mountain biking.
Industrial-strength construction withstands abuse.
Length: 130mm.

Screw-on eliminates slippage from the handlebar especially in wet conditions.

Slip-free surface. Excellent traction even when wet. Ergonomic BBB pattern for a comfortable grip.

No More Slipping and Sliding!

Aerospace-grade 6061 T6 aluminum. Superior strength and stiffness. Light weight. High-quality, rust-free screws and end-caps.

BBE-50 PLUG & PLAY

High quality replacement end plugs. Durable and lightweight. Unisized fits securely on all handlebars.

photo O2 Bikers

Made to fit the human body

COMFORTLITE GEOMETRY. Most saddles are made to support the rider's weight efficiently. We go several steps farther. Our saddles are made to meet the unique demands of different cycling activities, whether it be mountain biking, road riding, long-distance touring, or city riding. No generic designs, each virtually custom made to your specific needs. So you ride comfortably!

Soft central Gel insert supports the most sensitive part of the body minimizing the risk of injury from prolonged use.

Matte black bumpers with Kevlar inserts.

BLACK

Matte black bumpers protect the most vulnerable parts of the saddle from tearing sustained through high-speed crashes.

BSD-02 GELSEAT

Weight: 340 grams.

For road and MTB. Designed to absorb the bumps and vibrations of the roughest terrain. Nylon inserts for extra durability. High-quality stitching won't come off even after countless use. Light CrMo satin rails with adjustment indicators.

Come in silver polished
and matte black.
Set of 4 pieces: 5,
10, 15, 20mm.

36° Angular Contact Bearing.

A bike exerts 2 kinds of forces:
"Angular Contact Force" (ACF)
and "Pressing Force" (PF).
Efficient handling of these 2 forces
are crucial to your headset's
longevity and proper functioning.

BBB headsets use:
1. Angular Contact Bearings -
Especially made to deal with ACF.
Other headsets use standard
bearings which can not handle
ACF efficiently.
2. 36° chamfers - Designed and
proven to be the optimum angle
at handling PF. Other headsets use
a 45-degree outer chamfer which
can't handle PF properly.

BSP-80 THESTRANGLER

Easy to use screw-on seatpost clamp.

Lightweight 6061 T-6 alloy for extra stiffness and durability. One-piece cold-forged construction. Virtually indestructible. Slim design suitable for road and mountain bikes. Gives a secure, no-slip clamping action even in wet weather conditions. Diameters: 28.6, 31.8, 34.9mm.

BSP-81 THELEVER

Quick-lift quick-release lever makes saddle height adjustment a snap. Super-smooth, rounded lever does not hurt your fingers.

BSP-30 FIBERPOST

Length: 250mm.

BSP-31 FIBERPOST

Length: 350mm.

Featherlight BBB INCA carbon fiber. Minimum weight while maintaining strength and durability.

Easy to adjust single-screw head. Resists rust and corrosion.

Comes with a 95mm black shim that promotes safe installation and use of the BBB FiberPost on your bike.

Diameter: 27.2mm.

Cold-forged 6061 T-6 alloy for the perfect mix of strength and light weight. Comes with 2-SCREW MICRO-ADJUST SYSTEM. Fine-tune the angle of your saddle up to 100% accuracy. You can also fix your saddle tighter than others with regular 1-screw system.

BSP-01 SPEEDPOST

For road bikes.

Diameters: 26.8, 27.0, 27.2mm.

Length: 250mm.

BSP-20 SKYSCRAPER

For mountain bikes.

Available in almost all seatpost diameters.

Length: 400mm.

BSP-10 LITEPOST

For mountain bikes.

Diameters: 27.2, 29.4, 30.0, 30.4, 31.6, 31.8mm.

Length: 400mm.

Thinner but stronger 2014 T-6 headcap.

SAND-BLASTED BLACK / SILVER CAP

HIGH-POLISHED SILVER

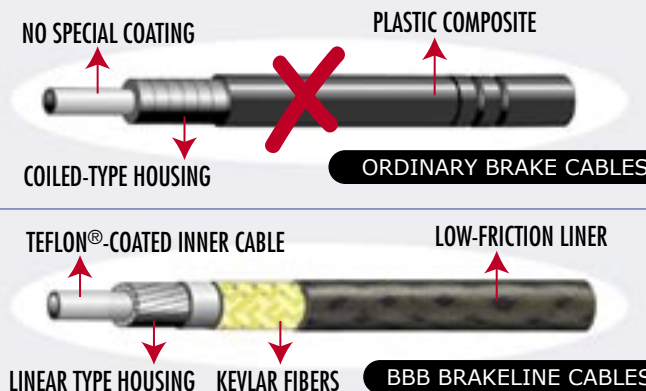

Do Your Brakes Feel Spongy? Not with BBB Brake Cables!

Your outer cable housing bends with your inner cable every time you brake. Ordinary coiled-type housing cannot withstand the compression force from braking. Result: You lose braking responsiveness and precision. Not with BBB BrakeLine brake cables!

Consider these high-tech features:

1. Linear-type housing: Standard coiled-type housing has spaces between each coil creating compression. BBB BrakeLine's linear-type housing has no spaces so there is no cable compression.
2. Kevlar fibers: Reinforces the compressionless properties of the linear-type housing. Provides extra power and precise performance even under heavy use.
3. Teflon®-coated inner cable: Friction-free, low-maintenance and ultra-smooth.

BCB-01 SPEEDLINE

Shift cable set.

Slick-Shift System for superb shifting.

1500mm x 2000mm.

Kevlar-reinforced cable housing. High-quality pre-stretched Teflon®-coated inner cables. Sealed-in for problem-free all-weather performance.

BCB-02 BRAKELINE

Brake cable set.

Slick-Brake System for unmatched braking.

1350mm x 2350mm.

BCB-03 SHIFTLINE

Shift cable set.

Provides superb shifting precision.

1500mm x 2000mm.

Liner is pre-coated with a special polymer compound for less friction. Pre-stretched Slick-Stainless inner cables with low-friction surface for excellent responsiveness. Corrosion-resistant.

BCB-04 STOPLINE

Brake cable set.

Provides unmatched braking performance.

1350mm x 2350mm.

TEC
Teflon®-coated

Teflon®-coated (TEC): Unique no-stick coating provides smooth and maintenance-free operation. Resists dust, dirt & moisture.

STS
Slick-Stainless

Slick-Stainless (STS): Minimum amount of friction. Corrosion-resistant stainless steel. Sealed housing and greasing recommended.

BCB-10 SPEEDWIRE

Innovative construction for precise shifting. Length: 1.2mm x 2000mm.

BCB-20 BRAKEWIRE

Innovative construction for precise braking. Length: 1.6mm x 2350mm.

BCB-11 SPEEDWIRE BCB-12C SPEEDWIRE

Provides precision shifting. Length: 1.2mm x 2000mm.

For Campagnolo derailleur systems. Length: 1.2mm x 2000mm.

BCB-21 BRAKEWIRE BCB-22C BRAKEWIRE

Designed for responsive braking. Length: 1.6mm x 2350mm.

For Campagnolo brake systems. Length: 1.6mm x 2000mm.

Lost Control? Get Total Control!

As if life isn't short enough, why take chances with low-quality brake shoes? The way we see it, braking isn't just about stopping, it's about having absolute speed control. Get unparalleled braking performance and safety with BBB Brake System, whether it's a high-speed slow-down or full-stop. Each BBB brake shoe is made of durable, specially formulated rubber compound, with computer-designed aerodynamic contour for optimum rim gripping power and braking precision even in the harshest weather conditions. With a full line of road, mountain and hybrid bike brake shoes field-tested to ensure full compliance with the world's toughest safety and quality standards.

BBS-02 ROADSTOP

For road bikes. Cartridge-type. Medium compound. 2 pairs per set.

BBS-01 ROADSTOP

For road bikes. Medium compound. 2 pairs per set.

BBS-03A ROADSTOP

Replacement pads for cartridge. Compatible with:
• BBB BBS-02 RoadStop cartridge.
• Campagnolo Record and Chorus model 2000.
• Shimano 105SC, Ultegra and Dura-Ace up to 2003.

BBS-03B ROADSTOP

Replacement pads for cartridge. Compatible with:
• Campagnolo Record, Chorus and Athena, up to 1999
• Campagnolo Daytona model 2000.

BBS-03C ROADSTOP

Replacement pads for cartridge. Compatible with:
• Campagnolo Record, Chorus, Centaur and Veloce up to 2003.

BBS-03AC ROADSTOP

Replacement pads for cartridge. Made specifically for carbon fiber rims. Compatible with:
• BBB BBS-02 Roadstop cartridge.
• Campagnolo Record and Chorus model 2000.
• Shimano 105SC, Ultegra and Dura Ace up to 2003.

BBS-83 **POWERSTOP**

180mm.

Industrial-grade stainless steel. Excellent heat dissipation. Rapid air circulation keeps heat down to prevent brake fade. Compatible with Magura, Shimano and most disc brake systems.

Bigger brake contact patch for maximum braking power.

BCA-01 **POSTRACK**

Lightweight, super-strong composite material. Loads of up to 20 lbs / 9kgs.

Bungee cords help keep your cargo in place.

Innovative, easy to adjust metal seatpost clamp with safety locking knob. Fits seatpost diameter of 25 - 32mm.

Platform Size: 11.5" x 5.15" x 1.25".

Weight: 17.8 oz / 500 grams.

BUILT-IN FENDER SLIDE. Underneath the rack. Protection from water, mud and flying debris.

BQR-01 **WHEELBLOCK**

Durable and lightweight aluminum with heavy-duty axles easily take the punishments of hardcore mountain biking.

Finely sculpted levers provide easy handling and maximum leverage.

Jam-free mechanism. Provides the safest ride. Levers are shaped to avoid being snagged and opened by roots, plants and debris.

Corrosion-resistant springs.

Laser-etched BBB logo.

BBB-11
LOUD & CLEAR

Unique spring system makes the bell especially loud.

Durable and lightweight construction.

Regular clamping mechanism.

BBB-10
BIKEALERT QR

Powerful audible bicycle bell. Durable construction.

QR system makes it possible to fit not only on all handlebars, but also on stem, frame, pump, seatpost or any other position of your choice.

Special quick-release system enables you to easily and rapidly remove, install and adjust to your most suitable position.

**ADJUSTABLE
RETENTION**
Comfort + Safety

Comes with floating cleats! Less stressful to the knees when the feet's position are not fixed. The rider's foot will seek out a natural position on the pedals resulting in better pedaling motion thereby minimizing possible knee injury.

BPD-05 ROAD DYNAMIC

Durable and lightweight composite clip mechanism. Jam-free. High-end cartridge-type CrMo axle gives a smooth and long-lasting operation even after thousands of miles. Unique geometry is specially designed to facilitate cornering. Adjustable retention enables you to custom-fit your pedals to your specific comfort zone. Comes with a pair of red floating cleats.

BPD-02F ROADCLIP

Fixed cleats.
Compatible with LOOK pedals.

BPD-02A ROADCLIP

9 degrees floating cleats.
Compatible with LOOK pedals.

Anti-slip rubber top and bottom anchors your shoes. Excellent traction in wet and slippery conditions.

BPD-25 EASYRIDERS

High-strength one-piece alloy pedal for durability. High-quality CrMo spindle (9/16). Dual built-in reflectors for added visibility.

High-quality CrMo spindle.

BPD-26 EASYTREK

High-strength one-piece composite pedal for durability and light weight. Come with dual built-in reflectors for optimum visibility and safety.

BPD-27 COMFORTLIGHT

High-strength cold-forged alloy body with strong composite cage trekking pedal for durability and light weight. Come with dual built-in reflectors for optimum safety. Anti-slip rubber top and bottom anchors your shoes. Excellent traction in wet and slippery conditions. High-quality CrMo spindle.

Get Rid of Your Old Pedals. BBB DualChoice Works Perfectly with Clipless and Ordinary Shoes!

ORDINARY
SHOES

FOUR-TRAC SYSTEM
Maximum traction even when muddy and wet.

CLIPLESS
SHOES

BPD-20 DUALCHOICE

4 degrees float saves your knees. Easy clip-in / out mechanism. No jamming in wet and muddy conditions. Use with cleats or regular footwear. High-strength CrMo spindle. Sealed bearings for absolute water-proofing. Maintenance-free. With SPD-compatible BBB Click&Go cleats!

BPD-01 CLICK & GO

Compatible with all SPD shoes and pedals. Tough and light CrMo for long-lasting durability. Float: 4 degrees. No jamming. Easy click in and out. Easy to install with hardened steel bolts.

**ADJUSTABLE
RETENTION**
Comfort + Safety

**ADJUSTABLE
RETENTION**
Comfort + Safety

BPD-10 CLICK & GO

Compatible with all SPD shoes and pedals. You decide how fixed you want to be: 4 degrees float. Saves your knees too! Made for hardcore MTB riding. Fast clip-in / clip-out mechanism. CNC-machined axle (9/16). Sealed bearings. Maintenance-free. With SPD-compatible BBB Click&Go cleats!

High-quality CrMo spindle.

BPD-15 MOUNT & GO

High-strength cold-forged alloy body and cage for extra durability with minimum weight. Serrated pattern top and bottom anchors your shoes firmly. Excellent foot retention even in wet conditions. Dual reflectors per pedal for increased safety.

BPD-16 BIGFEET

High-strength cold-forged alloy body and C3 cage for extra durability with minimum weight. Serrated pattern top and bottom anchors your shoes firmly. Excellent foot retention even in wet conditions. Dual reflectors per pedal for increased visibility in dim or low-light conditions.

BPD-30 BIKE & TIGHT

Industrial-strength nylon straps. Extra-durable. Made to withstand frequent use and abuse. Stays strong even when exposed to hot, cold and wet weather conditions. Heavy-duty high-grade buckle. Secure lock-on mechanism prevents slippage.

Check Your Pulleys. Does It Have Any Bearings Inside?

Composite material provided by EMS Swiss, with 40% glass-fiber mixture giving unmatched stiffness and precise shifting.
Includes all bushings for different shifting systems.

What's inside your derailleur pulley? Chances are you'll see - Nothing! Not a single bearing! That's why your bike feels sluggish. Trail a bit muddy? Then you're really in trouble. But not if your bike is equipped with BBB RollerBoys derailleur pulleys. Inside all BBB RollerBoys derailleur pulleys are industrial ABEC-3 rated bearings for rotation so smooth you'll notice a substantial increase in ride performance even in muddy conditions. No jamming or misfirings. Outside, we utilize a durable EMS Swiss fiberglass (40%) / composite casing for ultimate stiffness, durability and corrosion resistance. In addition, the upper pulley provides the right amount of play for a flawlessly super-smooth shifting performance.

BDP-02 ROLLERBOYS

11T. Compatible with Shimano 9 speed / Mega Range.

BDP-01 ROLLERBOYS

10T. Compatible with Shimano 7 and 8 speed ; Campagnolo 8, 9 & 10 speed ; Sram-ESP up to 2000.

Are Your Chainrings Wearing Holes in Your Pockets?

Before you give up cycling for a less expensive hobby like "chess", put on some BBB chainrings. With BBB chainrings frequent chainring replacements are things of the past. All BBB RoundAbouts are features loaded with:

Precision-crafted CNC-machined backside rails are uniquely designed to give an amazing trouble-free shifting under any condition. Durable 7075 T6 alloy makes these chainrings one of the lightest on the planet. Smartly engineered configuration guarantees excellent stiffness with minimum weight. Compatible with Shimano 5-arm (RoundAbout 5), 4-arm (RoundAbout 4) MTB cranksets, Shimano and Campagnolo 5-arm (RoadGear) road cranksets. Come in high-tech matte black finish.

BCR-01
ROUNDABOUT 5
5-arm. 42T / 44T / 46T (94).
Weight: 89 grams.

BCR-02
ROUNDABOUT 5
5-arm. 32T / 34T / 36T (94).
Weight: 46 grams.

BCR-03
ROUNDABOUT 5
5-arm. 22T / 24T / 26T (58).
Weight: 28 grams.

UNIQUE SMALL CHAINRING. CNC-machined 7075 T6 alloy unlike ordinary small chainrings giving all the advantages of steel while saving a huge amount of weight! Try it and see the big difference!

BCR-04
ROUNDABOUT 4
4-arm. 42T / 44T / 46T (104).
Weight: 79 grams.

BCR-05
ROUNDABOUT 4
4-arm. 32T / 34T / 36T (104).
Weight: 43 grams.

BCR-06
ROUNDABOUT 4
4-arm. 22T / 24T / 26T (64).
Weight: 20 grams.

UNIQUE SMALL CHAINRING. CNC-machined 7075 T6 alloy unlike ordinary small chainrings giving all the advantages of steel while saving a huge amount of weight! Try it and see the big difference!

BCR-50 FIVESTARS

Featherlight 6061 T-6 alloy. Rust and corrosion-resistant. Do not freeze and get stuck to your crank even after years of continuous use. Long-lasting. Quality construction resists wear and tear. Only 10 grams per set of 5 pieces.

BCR-115 ROADGEAR 5-arm. Shimano-compatible. 130 BCD.
