Biemme Chamois Technology

PRO-X PAD (FOR MEN)

- Three different layers construction which absorb impact.
- Concave lower end.
- Freedom of movement and air ventilation
- No central seam. High frequency technology.
- Fine sponge anti-friction
- Antibacterial treatment.

PRO-Y PAD (FOR WOMAN)

- Three different layers construction which absorb impact.
- Concave lower end.
- Freedom of movement and air ventilation
- No central seam. High frequency technology.
- Fine sponge anti-friction
- Antibacterial treatment.

PRO-TECH PAD

- Base of the PRO-TECH® padding is made of Meryl® micro fiber. The superb elasticity of this makes the padding non-deformable and long lasting. .
- The usage of highly innovative materials allows the padding to fit the body contours perfectly, mitigating and removing troublesome undulation caused by the uneven ground
- The entire PRO-TECH® padding is non-allergenic, light and allows sweat to evaporate quickly.
- Indeformability also after several washes.
- Permanent hygienic treatment.
