

**ROCK
MACHINE**

COLLECTOR'S EDITION

This is how it's already been for years with the Rock Machine bikes: once you see them, your entire body starts shaking, shivering and suffering – until you get one. Expecting an unusual performance and waiting for a piece of action, everyone should experience it sooner than later. Remember, you don't have to handle anything with care. Rather try even harder enjoying abilities of every single machine out of our range. They're technologically advanced, precisely handling and focused on excitement. Designed to amuse, created to fulfil your demands and finished to last at least forever.

**ROCK MACHINE BICYCLES.
SOUND FASTER. LOOK HARDER.**

NO COMPROMISES

XC ELITE SERIES

With all the respect to your skills, experience and physique, these racing machines will outstay while anyone else falls down to dust a place... Thanks to the latest technology, of course. Rigid Modular Carbon Composite frames, "secret" alloys, famous Fox forks, heart-stopping Formula brakes and everything new that comes from Shimano, all that helps to survive. No time for compromises, only the winner takes it all.

AGAIN AND AGAIN

ALL MOUNTAIN & MARATHON SERIES

Ready to overrun every jump on the way up and down? Stick to the handle bars, depress the pedals, forget about hardtail! The rear suspension gets you across the steepest climbs and downhill in a manner of the hovercraft, unwrinkling the ironbound ground. Completed with state-of-the-art frames and sophisticated brand-name shock absorbers, they generate series of adventures, boosted with the precision of Shimano shifting and the entire drivetrain. We understand there is no need to slow down but still and all, you can reckon on Hayes disc brakes at the split second you decide to stop. Don't stop...

THE WAY OUT

XC PERFORMANCE SERIES

Escape from city was never as easy as riding these mid-range selection all-terrain bikes far, far away. They gained votes by promising a fantastic voyage thanks to triple butted aluminium tubes forming light and yet rigid frames, progressive Rock Shox or Marzocchi forks with lock-out, accurate shifting and responsible brakes. Hi-tech seekers have found their way out, the rest could wait a bit longer for the real off-road experience.

NATURALLY CUTE

WXC SERIES

Ask the girls what do they want. Show them our WXC line bikes. Then let them choose out of some bewitching designs and glamorous colours, which, coupled with other not so important facts like special frame geometry or shaped and cushioned seats, should make the wildcats desperate and eager. It's good to be a bad girl.

ON THE ROAD AGAIN

ROAD RACING SERIES

Despite the common belief that all roads lead to an unbound ground, there are certain places reserved just for real tarmac addicts. You simply love classic style, yet in a hi-tech package. The RaceRide line delivers smooth locomotion thanks to special ultra light carbon or carbon-aluminum frames, accurate Shimano drivetrains and Dual Control Shifting. Speed up with no compromises.

BREAKING THE RULES

CORE SERIES

Is there any place in the entire world you can't conquer? We doubt it... Take a brief look at all Core machines and everything's getting clear. The steepest downgrade seems like nothing with our all new DH/FR weapon Maelstrom, 4X missile leads you across dirt and with street bike of this class, you only perform some hot in the city tricks. Biking isn't boring anymore.

A young girl with long brown hair, wearing a pink helmet, a light pink long-sleeved shirt, and blue shorts, is riding a blue bicycle away from the camera on a wide, light-colored gravel path. The path is flanked by tall green grass and some dark, leafy bushes on the left. The background shows more greenery and a clear sky. The overall scene is bright and sunny.

KIDS WANT A ROCK

KIDS SERIES

They're gonna show you all their older sibs are capable of. The same level of speed, grip and control that is needed to overcome any obstacle on their road to manhood. Similar to XC Fun, WXC and Core series, the little bikes for big boys and girls make no compromises in terms of equipment and style. Cool start of the whole new era, isn't it?
