M5

5 adjustments:

head tube angle/head tube height/chainstay lenght
bottom bracket position and width.

To be used for free-ride or DH just by changing settings
or absorber.

Full strip down ...can be placed, disassembled, in a small suitcase.

No weldings, built with aerospace materials: ergal, carbon and
titanium, which allow very high endurance to strain, with a limited weight.

K2

Race XC highly rigid and reactive,
totally handmade in Italy
can be custom made to measure.

K3

Purpose: 4X
Light and reactive, allows
fast accelerations
and unbeaten ridability.

All Mountain totally handmade,
with some CNC parts.
High pedability
and unprecedented ridability.

K4
