DIAMONDBACK
TWO THOUSAND SIX FULL LINE BICYCLE CATALOG

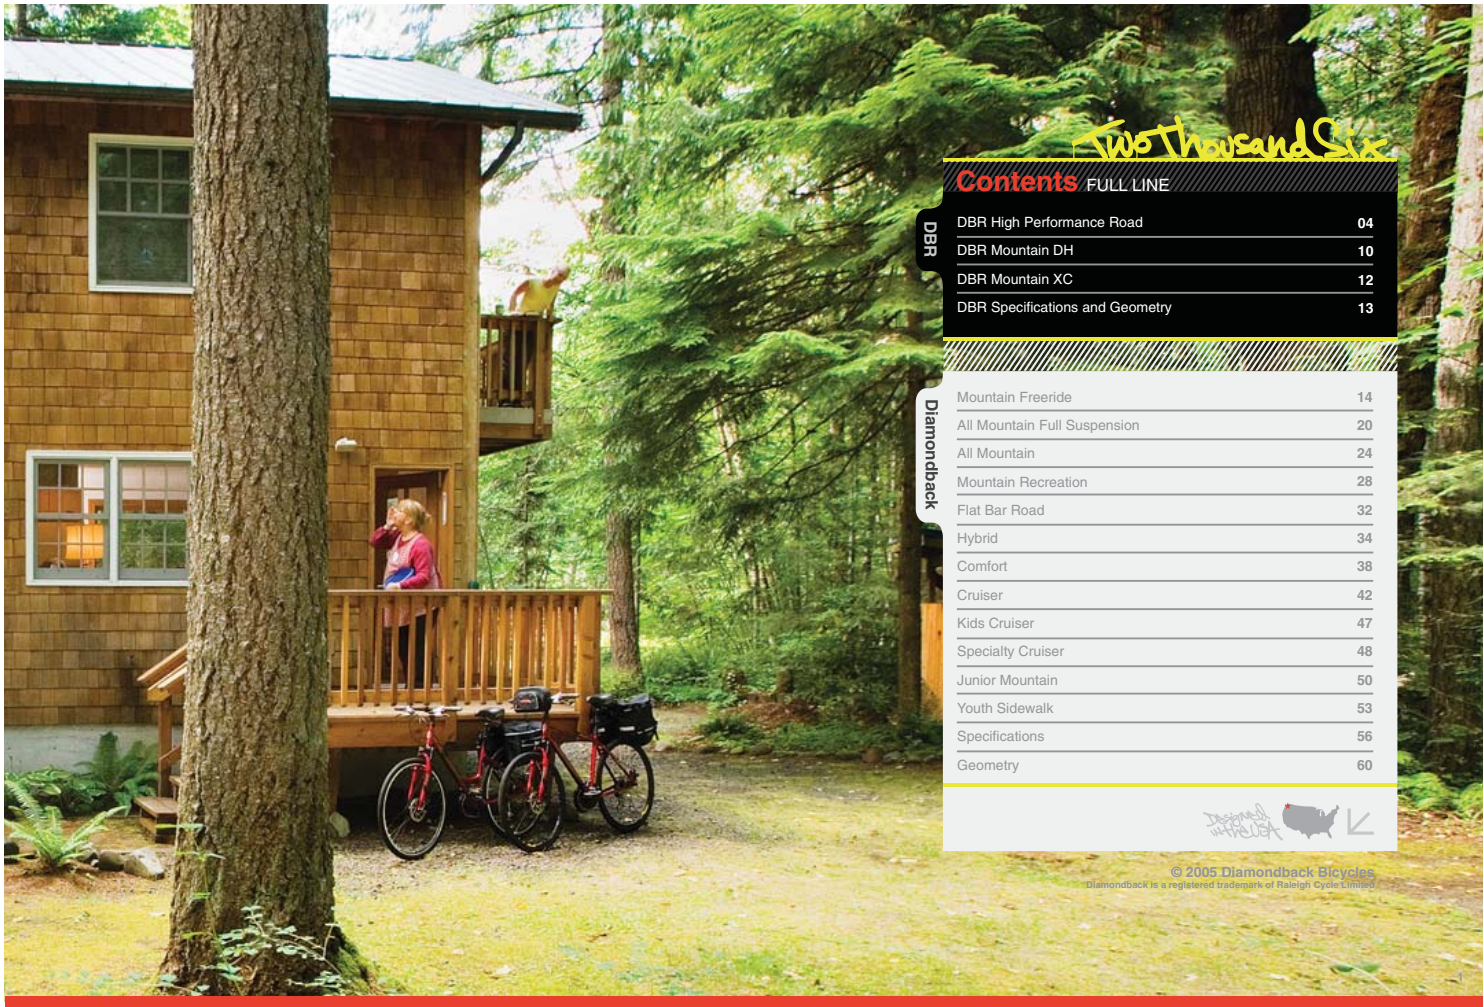

Introducing the 2006 line of Diamondback / DBR bicycles.

Since 1978, whether racing BMX, riding single track or cruising the beach or cul de sac, Diamondback has been there with bicycles that make those rides memorable. We know why you ride, and we design our bicycles to be an extension of your desire and effort.

In 1993 we introduced DBR (Diamondback Racing) – a line of racing bicycles designed and built to meet the exacting demands of enthusiasts and racers who need performance and speed to win races. For 2006 the DBR family includes the Strike DH and Axis XC hardtail, as well as a new line of road bicycles – the Podium Series – combining the latest in material and manufacturing technologies with some of the best components available. DBR performance bicycles are designed and built for racing, whether the race is for a medal or just to decide who buys the coffee.

Because a race without an entry fee is still a race.

Introducing the full line of '06 DBR Podium road racing bicycles. From the custom butted Podium 1 to the full carbon 4 and 5, each Podium was designed and developed to win races. Whether you're racing for a finish line on the pro tour, or the coffee shop, a race is a race. The best way to increase your odds of finishing each race atop the podium is to start on one.

DIAMONDBACK DBR

Compact Diamond Geometry

What is Compact Geometry?

Compact Geometry is a term used to describe frame designs that incorporate a sloping top tube downward toward the rear of the bike. DIAMONDBACK DBR Compact Diamond Geometry includes a sloping top tube as part of an overall design that is based on our experience that a bicycle correctly fit to the rider will provide maximum comfort and performance.

Why Compact Diamond Geometry? Compact Diamond Geometry provides two important advantages:

1. Compact frames are stiffer, lighter and have a lower center of gravity – providing improved acceleration and handling.
2. Compact frames as a result of their increased stand over clearance allow for fitting frames based on a wider set of criteria. Instead of simply ensuring that the rider has enough clearance over the top tube, you and your DIAMONDBACK DBR dealer can fit the bicycle to accommodate the combination of your leg length, pelvis height and tilt, torso length, arm length, flexibility and fitness.

The chart below can be used as a starting point in selecting the appropriate frame size for your height. Every rider has unique fitting requirements. Your authorized DIAMONDBACK DBR dealer can assist in ensuring your bicycle is the correct fit for you.

Compact Sizing

Rider Height	DBR Compact Frame Size	Seat Tube Length	Effective* Top Tube Length
4' 11" - 5' 2"	Extra Small	42cm/ 43cm**	52cm/ 52.9cm**
5' 2" - 5' 6"	Small	44cm/ 46cm**	53.5cm/ 54.6cm**
5' 6" - 5' 11"	Medium	50cm/ 50cm**	55.5cm/ 55.7cm**
5' 11" - 6' 3"	Large	55cm/ 56cm**	58.5cm/ 58.7cm**
6' 3" - 6' 6"	Extra Large	58cm/ 58cm**	61cm/ 61cm**

**For those who believe that
'path' is by far the worst of all
four letter words.**

We offer you the DBR Strike DH. The Strike is a proven, no nonsense downhill racer and a pioneer of many of the lines and trails less traveled. Try one out yourself and see why there's only one downhill bike worthy to be called a DBR.

Strike DH MOUNTAIN DOWNHILL

Features

- Strike DH Frame w/ 8.7" of Travel, Sealed Bearing Pivots & ISCG Mount
- Fox DHX 5.0 Rear Shock
- RockShox Boxxer Team Triple Crown Fork with 8" of Travel

All day and all of the night.

Are you not content just riding *parts* of the mountain? At Diamondback, "all mountain" means all mountain. It means having one bike that can be used to ride and enjoy the whole mountain. If you're after one bike that climbs as well as it descends (and vice versa), one of our all mountain XSL's is the bike for you.

20

XSL Trail ALL MOUNTAIN FS

Because one ride can mean the difference between an “alright” weekend and a great one.

What did you do last weekend? Did you make it through your “to do” list? Did you have any fun? Do you even remember? If you don’t, you probably didn’t take a ride on one of our completely redesigned Responses. The frames were designed to be durable and to guarantee years of enjoyment, and each is well equipped with components you can count on. Take a new Response for a ride this weekend (or sooner). It’s guaranteed to help put your worries behind you and a smile on your face.

Because it means hitting the snooze two more times and still making it to class on time.

Diamondback mountain recreation bikes can be used to alleviate stress in more ways than one. Take one for an evening or weekend ride, or use it to allow for a few more Z's in the morning. However you ride it, and for whatever reason, rest assured that our mountain recreation bikes are made with the same quality and attention to detail as every other Diamondback.

Sorrento MOUNTAIN RECREATION

All lanes wide open in both directions.

If your commute involves a car and a latte, you probably count on sitting in traffic. But fortunately, you can also count on a new Century flat bar road bike to be a great 'vehicle' to get you around the traffic and to your destination. The Century provides you with the speed and performance of a road bike, but with wide and comfortable handlebars. Take a Century on your next commute.

Monday can wait.

There are more than 1,300 wineries to visit in California alone. Don't let another weekend go by before you decide to pack up a camera, some food and hit the road for a while. You can make better time in a car, but if your intentions are to *have* a good time, then a better bet would be a Diamondback hybrid. Suspension forks and seatposts make them comfortable. Quality components make them reliable and big 700C wheels keep them rolling smoothly toward your destination - whether that be a winery or no particular place at all.

**Your idea of ‘taking it easy’
doesn’t involve a recliner and
a remote control.**

Sure, we have lots of reasons for sitting on couches, but there are many more (and better reasons) for why we should spend more time sitting on bicycles. For riding light trails, paths or just getting around the campground, our Wildwood comfort bikes are perfect for any casual ride. Wildwoods provide you with fun, fitness, convenience and much of the same comfort you experience on a couch.

DIAMONDBACK

Mom always told you to ride around the puddles – She obviously never rode through one.

If you had a dollar for every time you heard a parent tell their child not to ride through puddles, you could probably buy (at least) two Diamondback beach cruisers, and you'd be very glad you did. Della Cruz beach cruisers provide you with style and smiles for miles - from the sidewalk to the boardwalk to the catwalk (and many places in between).

Art In Motion®

Artwork as seen on the women's Della Cruz model.
Part of the Art In Motion® cruiser series.

*This years cruisers feature Art In Motion. This movement is a fresh spin on the traditional beach cruiser. Our beach cruisers feature hand drawn decals, hand painted decals, photography and natural elements combined with striking painted rims.

We want to be free!

If you want to be free, free to ride your machine without being hassled by the man; the Drifter is the ride for you. It has enough style for your whole posse, but is also an extremely comfortable and functional machine, and is built with a level of quality and attention to detail rarely seen on the open road.

Drifter SPECIALTY CRUISER

Features

- Heat-Treated 6061 Aluminum Frame with 1 1/8" Headtube, Double Downtubes, Double-Diamond Gussets, "Tailpipe" Seatstays, 6mm Dropouts, Built-In QR Seat Post Binder
- Triple Clamp Fork with Machined Alloy Clamps, Tapered Chrome plated / Bullet Tip Steel Legs

- Double Wide 20" X 4" Rear / 24" x 2.1" Front Color-Matched Aluminum Rims with Chrome-Plated Hubs & Spokes, 20" X 4 1/4" Rear Tire
- Tapered / Chrome-plated Steel Mid-Rise Handlebar
- Heat-Treated Aluminum 3-Piece Crank Set

There could be gold in them there hills!

Ships of different kinds have been used to make many great discoveries, but some of the most memorable explorations have been conducted on bicycles. For the next generation of great explorers, we offer up our line of Jr. mountain bikes. Whether they're searching for sasquatches, gold or just a good time, equip your little explorer with a reliable Diamondback.

Periwinkle

Because nothing says freedom like that first ride without training wheels.

Freedom is described in many ways – as a sound, a smell, even a taste. But to truly understand it, all we need to do is remember that first ride we ever took without training wheels. The ability to go whichever direction we desired and whenever we wanted to - there's really nothing like it. Introduce your child to this liberating experience on a Diamondback and let freedom ring.

DIAMONDBACK bicycles are distributed by Raleigh America, Inc.

Bicycle Limited Warranty

It is the owner's responsibility to thoroughly read and understand the owner's manual and regularly examine the product to determine the need for professional, authorized service or replacement. Please consult an authorized Raleigh America, Inc. bicycle dealership with any questions on use and maintenance. Regardless of the length of the warranty, Raleigh America, Inc. does not infer that the bicycle will last forever or cannot be broken. All Raleigh/ Diamondback framesets

and bicycles have a finite, limited useful product life cycle. The length of this useful life cycle will vary by environment, riding conditions, frame material and construction, riding style, maintenance, and the amount as well as type of use the bicycle or frame is subjected to. A worn out bicycle does not indicate it is warrantable, rather that the bicycle has outlived (exceeded) its useful product cycle.

Raleigh America, Inc. warrants this new Raleigh America, Inc. bicycle frame against defects in material and workmanship, subject to the following limitations, terms, and conditions:

Item	Warranty Term Length
Steel bicycle frames with wheel size less than 20"	Lifetime, for as long as the original retail purchaser owns the bicycle*
Steel bicycle frames with 20", 24", 26", or 700c wheels	Lifetime, for as long as the original retail purchaser owns the bicycle*
Alloy bicycle frames with 20", 24", 26", or 700c wheels	Lifetime, for as long as the original retail purchaser owns the bicycle*
Full Carbon Fiber or Carbon fiber/alloy bicycle frames with 20", 24", 26", or 700c wheels	Lifetime, for as long as the original retail purchaser owns the bicycle*
Full Suspension bicycle frames	Five years from the date of original retail purchase to the original purchaser*
Forks, Non-branded	Five years from the date of original retail purchase
Forks, Branded	Covered under the fork manufacturer's warranty. Consult dealer for details.
Components, Non-branded	One year from the date of original retail purchase
Components, Branded	Covered under the component manufacturer's warranty. Consult dealer for details.
Finish and decals	One year from the date of original retail purchase
Suspension parts including but not limited to bushings, pivot bearing, link plates, bolts, fasteners, chain stays, seat stays, and shock units	One year from the date of original retail purchase under the condition that the bicycle is regularly maintained as well as operated under normal riding conditions
Labor, frame replacement	One year from the date of original retail purchase
Labor, parts replacement	Thirty days from the date of original retail purchase

1. This warranty only applies to the original retail purchaser and is not transferable.
2. Specific model exceptions to this warranty are noted with the bicycle documentation.
3. Raleigh America, Inc.'s sole obligation during the acceptable duration of this warranty is AT RALEIGH AMERICA, INC.'S OPTION to repair or replace the product with a current item that is equivalent in construction, design, or value.
4. Raleigh America, Inc.'s liability under this limited warranty shall never exceed the amount of the original purchase.

To obtain service under this warranty, you must:

1. Return your fully assembled Raleigh America, Inc. bicycle to an authorized Raleigh America, Inc. bicycle dealer within the United States of America. A bicycle that has had the components removed cannot be evaluated or warranted.
2. Provide proof of purchase, including but not limited to the retail bill of sale, your credit or debit card receipt, or other satisfactory proof of the date of purchase.
3. The proof of purchase must indicate the bicycle was sold fully assembled and adjusted by an authorized Raleigh America, Inc. dealer within the United States of America. Sales where the bicycle was delivered in a carton to the end user (e.g. mail order or Internet sales) void the warranty.

This warranty does not apply to damage or failure due to:

1. Accidents, alteration, abuse, neglect.
2. Materials fatigue, normal wear and tear.
3. Improper assembly, maintenance, or installation of parts or accessories not originally intended to be compatible with the bicycle as sold, including but not limited to power assist accessories, forks, brakes, or fies different from original specification.

This warranty also excludes:

1. Commercial use, racing or competition, stunt, jumping, trick riding, ramp riding, aggressive riding, riding with excessive loads, lack of technical skill, competence, or experience of the user.
2. Bicycle frames, which have been repaired (e.g. welded or bonded), repainted, or had the original decals removed.
3. Frames, forks, wheels, axles, handlebars, and stems, which are bent from just riding along, can be a sign of misuse or abuse and are not covered under this warranty.
4. Personal transportation costs or product freight costs to or from an authorized Raleigh America, Inc. bicycle dealer.
5. Any additional costs associated with the incompatibility of existing parts and the replacement frame or fork.

Warranty replacement frames must be fully assembled by an authorized dealer to maintain the warranty coverage. The warranty for the replacement frame shall be the warranty offered for the equivalent bicycle's frame of that model year. If not assembled by the dealer, replacement frames are considered aftermarket frames. After market frames are only warranted for one year from the date of purchase for the original purchaser. This one-year warranty excludes any issues that can be traced to assembly or component incompatibility.

This warranty is expressly in lieu of all other warranties, and any implied warranties of merchantability or fitness for a particular purpose created hereby, are limited to the same duration as the express warranty herein. Raleigh America, Inc. shall not be liable for any incidental or consequential damages. Some states do not allow the exclusion or limitations of implied warranties, incidental or consequential, so the above limitations and exclusions may not apply to you. Retailers and wholesale outlets for Raleigh America, Inc. products are not authorized to modify this warranty in any way. This warranty gives the original owner specific legal rights. Other additional rights may vary from state to state.
