Producing our own parts and accessories is an indispensable part of our quest to design, develop and deliver the best bicycles in the world. It's possible to spec off-the-shelf parts and build a great bike, but our goal was never limited to just great - we want to produce the best.

We realized early on that producing our own parts and accessories to complement our bicycles was absolutely necessary. Only then would we have sufficient control over each critical dimension of a part to make sure it would meet our standards for strength, fit, weight, performance and value. Sacrifice any one of those and a bike simply isn't as good as it can be.

Our selection of parts has grown each year based on the needs of our bikes. Today we offer everything from forks to fenders. It's a reflection of our broad line of bicycles. Not many companies have the in-house expertise to offer world-record-setting track bikes, high-end road bikes, hard tail and full-suspension mountain bikes, legendary triathlon bikes, all manner of BMX bikes, city commuters and stylish cruisers. We offer so many choices for one reason: Cycling is an experience unique and personal to each rider. We want to make every ride you take a valuable part of your life.

We use these parts on our bikes. They made our bikes better; they'll make your bike better, too.

FELT DEVOX

***COMPONENTS WORTHY OF THE
BEST BICYCLES IN THE WORLD. PERIOD***

Despite producing high-quality parts and accessories for years, we recognized an opportunity to bring our first-class engineering to top quality road and mountain parts. Each of these parts was designed by the same team of engineers responsible for our signature designs, from the DA to the Equilink suspension, which have been winning races and setting records year in and year out.

From carbon fiber handlebars, forks and seatposts to saddles and even tires, the Felt Devox designation is reserved for the best of the best. Armed with a no-limits approach to engineering and materials, our team re-imagined them with the best technology out there.

Advanced materials are the name of the game with Felt Devox. Not only do we use the best available, but we also match the material to the specific requirement or the component. We use the best quality carbon fiber for our handlebars, saddles and forks. Lightweight road stems use 7000-series aluminum with titanium hardware. Ready-for-battle off-road stems use hardened cr-mo bolts for the ultimate in strength.

When we decided to offer an aero bar for time trialists and triathletes we decided to make the best bar out there. That meant it needed high strength, low weight, adjustability and aerodynamics. Our carbon fiber base bar and extensions use monocoque construction (the same technology that allows us to produce an unbelievably light 185-gram road handlebar) and wind tunnel-proven aerodynamics. Simply put, there's not a faster bar out there.

Our engineering expertise, material selection and testing allow us to create parts that help you ride farther, faster and with greater control. What it adds up to is a more enjoyable riding experience every time you roll out.

Add Felt Devox. Add the best.

FELT
DEVOK

ROAD

FELT DEVOX CARBON TRI BAR

The Felt Devox Carbon Aero Bar was designed to cut your time against the clock by cutting frontal area and decreasing weight. The carbon base bar offers both rise and drop positions while the carbon *f* bend extensions give three positions for maximum comfort and versatility. No other aero bar is as aerodynamic and light while offering as many fit options.

- Ultra-fast wind tunnel-perfected design
- Ultra Hybrid Carbon (UHC) + Nano
- Two positions offering 2cm of base bar hand position
- Three-position set-up for extensions
- Internal brake cable routing
- 26.0mm diameter • 595g

FELT DEVOX CARBON ROAD HANDLEBAR

By using monocoque construction methods and Ultra Hybrid Carbon (UHC) + Nano carbon fiber we are able to produce a carbon fiber bar with unrivaled stiffness and strength. It combines the comfort offered by its ergonomic shape with the vibration damping that only comes with carbon fiber.

- Ultra Hybrid Carbon (UHC) + Nano
- Monocoque construction
- Ergonomic bend
- 31.8mm diameter
- 3 sizes: 40, 42 & 44cm
- 2 styles: Regular or Clip-on compatible
- 185g (regular), 205g (clip-on)

FELT 1.1 ROAD HANDLEBAR

Thanks to its incredibly strong monocoque construction, this ultra-light carbon fiber bar will add comfort and reduce the weight of any bike.

- Ultra Hybrid Carbon (UHC)
- Monocoque construction
- Ergonomic bend
- 31.8mm diameter
- 3 sizes: 40, 42 & 44cm
- 2 styles: Regular or Clip-on compatible
- 190g (regular), 210g (clip-on)

FELT GEL ROAD HANDLEBAR TAPE

Enhanced comfort will make any ride more enjoyable. Your hands (and arms and shoulders) will thank you for this extra-padded gel handlebar tape at the end of any long ride.

- Gel-enhanced ribbon tape
- Embossed Felt logo
- Secure Felt plastic end plugs
- Black, Grey or White

FELT DEVOX ALLOY ROAD STEM

Weighing in at 98g (100mm length), our lightweight 7050 alloy stem is 3D forged for maximum strength and minimum weight. To dial your fit it can be mounted for either +/- 6 degrees of rise and comes in five lengths.

- 3D forged 7050 alloy construction
- +/- 6 degrees of rise
- 1-1/8" bore
- 31.8mm clamp diameter
- 4-bolt split clamp
- 5 sizes: 90, 100, 110, 120 & 130mm
- 98g

FELT 1.1 ALLOY STEM

Our super-light alloy road and mountain stem comes in four lengths, each with two choices in height for ideal fit. Carbon fiber friendly four-bolt clamp.

- 3D forged 6061 alloy construction
- 5 degree rise
- 1-1/8" bore
- 31.8mm clamp diameter
- 4-bolt clamp
- 4 sizes: 90, 100, 110, 120mm
- 140g

FELT 2.1 ALLOY ADJUSTABLE STEM

Our lightweight adjustable stem offers four choices of height in five lengths for perfect fit on your road or mountain bike. Carbon fiber friendly four-bolt clamp.

- 3D forged 6061 alloy construction
- Adjustable shim providing +/-8 and +/-16 degree rise
- 1-1/8" bore
- 31.8mm clamp diameter
- 5 sizes: 80, 90, 100, 110 or 120mm
- 164g

FELT DEVOX ROAD SADDLE

The new Felt Devox saddle features a lightweight carbon fiber base for strength and comfort and carbon fiber rails for lightweight, strength and improved adjustability.

- Carbon fiber base
- UHC carbon fiber rails
- Light weight hi-tech durable cover
- Black or White
- 160g

FELT 3.1 TRI SADDLE

Thanks to its waterproof cover this Tri-specific saddle won't absorb water following your swim and features extra gel padding in the nose to keep you comfortable during the bike leg.

- Waterproof synthetic cover w/superlite foam & gel nose
- Carbon fiber injected double density base
- Extended Cr/N/Ti rails w/100mm adjustability
- 226g

FELT 3.3 TRI SADDLE

With extra padding in the nose and extended rails to increase adjustability, this Tri-specific saddle will keep you comfortable and help you achieve the ideal fit on your bike.

- Carbon fiber injected double-density base
- Increased gel padding in the nose
- Extended cr-mo rails
- Increased fore-aft adjustability
- Waterproof synthetic cover w/superlite foam
- 262g

FELT FIT WOMAN™ SADDLE

This specially contoured women's saddle features increased width for a woman's wider sit bones plus a central relief zone to decrease pressure on sensitive tissue.

- Hi-tech synthetic cover w/superlite foam
- Center relief zone for extra comfort
- d² double density base
- Cr/N/Ti rails

FELT 1.1 ROAD FORK

Light weight and stiff, the 1.1 fork is the perfect compliment to any road frame.

- UHC carbon monocoque construction
- Carbon dropouts
- 1-1/8"
- 43mm offset
- 300g

FELT 1.2 ROAD FORK

This lightweight carbon fiber fork offers a superb ride. Available in two offsets to accommodate varying frame geometries.

- UHC carbon monocoque construction
- 1-1/8"
- 43mm or 50mm offset
- 320g

FELT 3.1 AERO ROAD FORK

This fork is an aerodynamic alternative for bikes designed around 1" steerer tubes.

- UHM Carbon Monocoque Construction
- Carbon dropouts
- 1" x 700c and 650c threadless
- 40mm offset
- 395g

FELT DEVOX ROAD FORK

The only way to make a lightweight fork strong enough to withstand the rigors of pro racing is to utilize monocoque construction. Our Ultra Hybrid Carbon (UHC) + Nano fork uses full carbon fiber dropouts along with our top-of-the-line material to produce a 300g fork. This is our lightest, strongest carbon fiber fork and is the same model used on the F1 SL.

- Ultra Hybrid Carbon (UHC) + Nano monocoque construction
- Carbon dropouts w/ stainless inserts
- 1-1/8"
- 43mm offset
- 300g

FELT ROAD DERAILLEUR HANGER

Fits any Felt road frame. Choose between a standard forged replacement or CNC-machined version for the ultimate in crisp shifting and strength.

- Forged aluminum with steel hardware
- CNC-machined 7075 with alloy hardware

FELT 1.1 ROAD SEATPOST

Used on our top road models, our super-lightweight carbon fiber seatpost works with all Felt road bikes.

- Alloy micro-adjust saddle clamp
- Fits F and Z-series frames
- Clear gloss finish
- 300mm
- 210g

FELT 3.1 AERO SEATPOST

Achieve perfect positioning on your Felt TT/Tri bike with this carbon fiber seatpost with micro-adjust saddle clamp.

- Carbon monocoque aero construction
- Multi position head for Tri or TT positioning
- CNC aluminum head with micro-adjust saddle clamp
- Fits Felt alloy/carbon aero frames
- 310mm
- 295g

A.

B.

C.

A. FELT TTR 2 AERO WHEELSET

Featuring a deep-section rim for a wind-cheating aerodynamic advantage, these deep section wheels roll on special low-drag sealed bearings.

- 40mm deep section alloy rim
- 4 sealed bearing hubs w/7075 alloy axle
- DT bladed spokes 20H front/24H rear
- Available in 700 or 650c
- Available in Black/Gold or Black/Red
- 1875g (700c), 1735g (650c)

B. FELT AERO ROAD 2 WHEELSET

Featuring an aero section rim for a wind-cheating aerodynamic advantage, these lightweight wheels roll on special low-drag sealed bearings.

- 28mm deep section alloy rim
- 4 sealed bearing hubs w/7075 alloy axles
- DT bladed straight pull spokes 20H front/24H rear
- Available in 700c
- Available in Black/Red
- 1475g (700c)

C. FELT AERO ROAD 3 WHEELSET

Featuring an aero section rim for a wind-cheating aerodynamic advantage, these lightweight wheels roll on special low-drag sealed bearings.

- 27mm deep section alloy rim
- 4 sealed bearing hubs w/7075 alloy axles
- DT bladed spokes 20H front/24H rear
- Available in 700c
- Available in Black/Grey/Silver
- 1650g (700c)

TEAM

FELT DEVOX XAM MTB CARBON RISER BAR

The XAM Carbon handlebar pairs our super light and strong Ultra Hybrid Carbon (UHC) material with Carbon Nanotube Technology. At just 80% of the weight, this bar shares the same shape as our XAM alloy bar while offering increased stiffness and strength.

- Ultra Hybrid Carbon (UHC) w/Nano technology
- 31.8mm diameter
- 35mm rise
- 4-degree up-sweep
- 8-degree bend
- 680mm width
- 220g

FELT DEVOX RXC CARBON RISER BAR

For the riders seeking the ultimate in lightweight cross-country performance, we created the RXC carbon fiber riser bar. Using the same monocoque manufacturing process found in our top-of-the-line carbon fiber frames, we are able to maximize strength while achieving a super-low weight.

- Ultra Hybrid Carbon (UHC) w/Nano technology
- 31.8mm diameter
- 25mm rise
- 4-degree up-sweep
- 8-degree bend
- 640mm width
- 160g

FELT DEVOX XAM ALLOY RISER BAR

Sharing the same performance shape as our premium carbon fiber riser bars, our XAM alloy handlebar is perfect for aggressive-trail to extreme all-mountain riding.

- Butted 7050 aluminum
- 31.8mm diameter
- 35mm rise
- 4-degree up-sweep
- 8-degree bend
- 680mm width
- 260g

FELT DEVOX ALLOY XAM STEM

To balance a rider's need for durable yet lightweight all-mountain equipment, we created the Felt Devox XAM stem. With a 2-piece motorcycle-style bar clamp and a body CNC-machined from premium billet aluminum, the XAM provides unsurpassed clamping and control.

- CNC-machined 6061 alloy construction
- 1-1/8" or 1.5" bore
- Two-piece 31.8mm motorcycle-style clamp
- Stainless steel hardware
- 3 sizes: 50, 70 & 90mm with 5-degree rise
- 170g (1-1/8"), 180g (1.5")

FELT DEVOX LOCK-ON GRIP

Featuring an extra soft & sticky Kraton rubber and CNC-machined aluminum bar clamps, Felt Devox grips provide security and control.

- Lock-on design
- Extra-soft & sticky durometer
- CNC aluminum bar clamps with closed end
- 130mm long with 30mm outside diameter
- Black

FELT MTB LOCK-ON GRIP

Featuring an extra soft & sticky Kraton rubber and CNC-machined aluminum bar clamps, Felt lock-on grips provide security and control.

- Lock-on design
- Extra-soft & sticky durometer
- CNC aluminum bar clamps with closed end
- 130mm long with 30mm outside diameter
- Black

FELT MTB GRIP

Give your hands a little added comfort with these soft rubber grips.

- Dual density Kraton rubber
- Open-end design.
- Black/Grey

FELT DEVOX TIRES

Tires are so often an under-rated piece of a bike. For many, it is no more than the rotating rubber mass that connects us to the terrain and if the tread looks good, then good enough is good enough. To us, it is an integral part of the bike's working design and can make all the difference between a good ride and a truly great ride.

Starting with a detailed checklist of desired characteristics and tendencies necessary in producing the ultimate tire - and how that tire affects overall bike ride - our engineers tapped into all the premium technologies available in the industry (and some outside) to proudly produce the all-new Felt Devox tire line - the pinnacle in tire design and performance.

Whether it is the ultra-fast rolling RXC tire with its low profile, super fast, race-ripping tread design; our TAR trail tire that is designed to bite and release in even the muddiest conditions, or our XAM all-mountain tire with its two different (light and heavy duty) casing options, the Felt Devox tire line covers the whole spectrum of riding. Each is intent-specific designed and each can be expected to fully excel.

- RXC and TAR tires feature 50/60 Durometer Endurance Dual Compound 120tpi casing, and are ultra-light and ultra-fast, durable, and provide exceptional control.
- XAM tires feature 50/60 Durometer Traction Dual Compound 120tpi casing, and are light, durable, with incredible cornering grip while retaining a super low rolling resistance center tread.
- XAM HD tires feature 50 Durometer Traction Compound 60tpi 2-ply case, the ultimate grip and control rubber, with a strong and durable casing to prevent pinch flats and rim damage.

All Felt Devox MTB tires feature lightweight folding, tubeless-ready beads. This allows easy conversion to tubeless with the addition of approved tire sealant.

Rest assured that the same research and care that you have come to expect in all Felt products has made its way into the all Felt Devox tires.

FELT DEVOX RXC TIRE

This cross-country racing tire is designed with an ultra-low-profile tread for lightweight efficiency, optimized for cross-country racing. With an open tread design that prevents pack-up in muddy conditions, the RXC tire is equally at home on hard-packed trails.

- Ultra-low-profile tread design
- XXX endurance dual compound
- 120 tpi case with folding tubeless-ready bead
- 26" x 2.0"

FELT DEVOX TAR TIRE

This multi-trail design is our most versatile tire. A high-void, well-spaced tread design, combined with ramped & angled knobs, produces a tire with incredible traction while still providing smooth rolling.

- Aggressive multi-trail, high-void tread design
- XXX endurance dual compound
- 120 tpi case with folding tubeless-ready bead
- 26" x 2.1"

FELT DEVOX XAM TIRE

This super-aggressive all-mountain tire is designed with a high-void tread and oversized knobs, delivering the ultimate traction in extreme mountain conditions. The XAM bites the ground hungrily.

- Aggressive all-mountain, high-void tread design
- Folding tubeless-ready bead
- 120 tpi lightweight casing with XXX traction dual compound
- 60 tpi 2-ply HD casing with XXX traction compound
- 26" x 2.3"

MTB DERAILLEUR HANGER

This cold forged aluminum hanger is a replacement for most Felt mountain bikes.

- Forged Aluminum
- Fits all Felt MTB frames (except RXC V-brake frames)

FELT DEVOX XAM SADDLE

Our XAM saddle meets your long-travel needs thanks to its comfortable multi-sitting-position design. The traditional rear power position is great for in-the-saddle trail riding, while the forward position enables riders to spin more easily while climbing.

- Multi-position design—wide nose w/ flat rear
- Soft tissue relief channel
- Featuring "jewel-safe" technology
- Stitch-free top
- Kevlar-protected edges

FELT SUSPENSION BEARING/HARDWARE REBUILD KIT

This rebuild kit allows you to completely refurbish your Equilink™ suspension frame, returning it to the smooth feel of factory-fresh bearings.

- Includes all bearings, replacement bolts & washers, and instructions
- Available for Virtue, Compulsion or Redemption

FELT SUSPENSION BEARING REPLACEMENT KIT

If you want to give your Equilink™ suspension the smooth operation of new bearings and your hardware is in good shape, use this bearing kit to do a partial rebuild.

- Includes all bearings and instructions
- Available for Virtue, Compulsion or Redemption

FELT SUSPENSION BEARING PRESS TOOL

Use this tool for proper installation of bearings for the Equilink™ suspension system.

- For Install & removal of suspension bearings
- Works for Virtue, Compulsion and Redemption

recreation

APE HANGER CRUISER HANDLE BAR

HIGH SWOOPY CRUISER HANDLE BAR

LOW RISE CRUISER HANDLE BAR

LOW RISE CRUISER HANDLE BAR W/CROSSBAR

Customize the look and feel of your cruiser with these four handlebar options. Choose from low-rise (with or without cross-bar), high swoopy, or chopper-style ape hangers.

- Available in Low Rise, High Swoopy or Ape Hangers in CP
- Available in Low Rise with Crossbar in Black

FELT CRUISER GRIPS

These soft rubber grips are designed exclusively to keep your hands happy on your Felt cruiser.

- Soft Kraton rubber with CP end caps
- 145mm length x 35mm diameter
- Fits standard 22.2mm handlebar
- Non-shifting or shifting (Sturmey Archer) options
- Black or Brown

CAFÉ /CRUISER GRIPS

These soft grips are designed specifically for the twist shifters found on our Café and Cruiser bikes.

- Designed for Shimano Nexus twist shifters
- Soft, Double density rubber
- Does not require end plug
- 7, 8 or 24 speed
- Black, Brown or White

FELT BAR END PLUGS

To accessorize your cruiser, add a pair of these high-polished, bullet-proof CNC-machined handlebar end plugs.

- CNC Machined Aluminum
- Internal wedge design
- Small for Sturmey Archer 3-SPD shifter grips (silver)
- Large for Shimano 3-SPD shifter grips (silver or black)

FELT FB CRUISER SEAT

With its handbag-style embossed with the Felt "FB" logo, this black or brown saddle will add flair to any cruiser.

- Handbag embossing
- Used on "FB" model
- Brown or Black

FELT 1903 CRUISER SEAT

Old-school is the statement this cruiser saddle makes. Available in black or brown this nose-spring saddle adds cushion and style.

- Nose spring
- Used on "1903" model
- Brown or Black

FELT CRUISER CRANK SET

There is no bolder way to outfit your cruiser than to add this custom-designed polished aluminum 3-piece crank set.

- Cold Forged 170mm Aluminum Arms
- Aluminum 46T Chainwheel
- Includes USA/Euro BB Converter
- Includes Euro Sealed Cartridge BB
- Retro fits most Felt cruisers

FELT JERRY SPRINGER CRUISER FORK

Add some cushion to your cruiser with this classic springer-style fork.

- Black with chrome plated spring

FELT 26" CRUISER WHEEL

Spice up your cruiser with this wide-rimmed wheel, ready to accept our Quick Brick and Thick Brick tires. Built up with ultra-heavy-duty spokes and double 5-Star hub for style and strength.

- 50mm wide rim & stainless 12G spokes
- Front double 5 star high polished hub (100mm)
- Rear 1-spd Shimano coaster brake hub (124mm)
- Black, Hi-polished silver or Red

FELT CRUISER 3-SPD UPGRADE

Make the roads just a little easier to pedal on your cruiser with this all-inclusive 3-speed upgrade kit.

- 26" rim
- 3-spd Shimano Nexus hub
- Twist shifter with cable and hardware
- Black 26", Hi-polished silver 26" & 24"

FELT VALVE CAPS

Style is all about the right touch. Personalize your ride with pair of these valve caps.

- Piston, Skulls or Bowling Pins
- Fits Schrader valves

FENDER SET FULL-LENGTH

Classic full-length fenders available in either chrome or black.

- Full coverage
- Front and rear
- Includes struts and button head cap screws
- Chrome or Black

FENDER SET SHORTY

Give your cruiser some extra style with this set of shorty fenders in either black or chrome.

- Front and rear
- Includes button head cap screws
- Chrome or Black

A. FELT QUICK BRICK TIRES

The Quick Brick is our old-school balloon tire built with today's technology to give you a classic look and easy-rolling ride.

- 26x2.125 Balloon Tire
- Available in All Black, All Brown, All Cream, Black w/ White Walls, Brown w/ White Walls, or Troy Lee Design

B. FELT THICK BRICK TIRES

Sharing the same tread design as its sibling, the Thick Brick is a Quick Brick on steroids. Extra wide with increased air volume, the inflated diameter nearly matches its 26" brother.

- 24" X 3" Super balloon tires
- Available in All Black, All Cream, Black w/ White Walls, Troy Lee Design

C. FELT BERM MASTER TIRES

The Berm Master tread pattern was inspired by classic motocross machines of the 1970's. The tire of choice on our Vintage-Iron MX cruisers, these knobby tires do double-duty on or off road.

- Available in 26" X 2.125" or 24" x 3.0" sizes
- Black w/ black sidewall

BMX

CRANMER BARS

The Cranmer bar is X-Games medalist Scotty Cranmer's signature bar offered in 3 sizes: JR, SR and the brand new SR-XL. Offered in Black or White.

CRANMER BAR JR - 13 butted tubing

- 7.25" high, 25.25 wide
- 8 degree sweep, 0 upsweep
- 670g or 23.6oz

CRANMER BAR SR - 13 butted tubing

- 7.8" high, 27" wide
- 10 degree sweep, 2 upsweep
- 690g or 24.3oz.

CRANMER BAR SR-XL - 13 butted Superlite Felt 20/20 tubing

- 8.2" high, 28" wide
- 12 degree backsweep, 1degree upsweep

PIVOTAL FB SEAT

Strong and light, designed to be used with Pivotal posts.

- 3-pc cover
- FB Embossed Design
- All Black

PIVOTAL SKULL SEAT

Strong and light, designed to be used with Pivotal posts.

- Slim Design
- 1-pc cover
- Skull print Black/Purple

RAILED FB SEAT

Standard saddle with 8mm rails, clean and simple.

- 3-Piece Cover
- FB Embossed Design
- All Black

FB SPACELY CHAINRING

Classic Felt design, super light.

- CNC Machined 6061 Alloy
- 5mm Thick
- Laser FB logo
- 25T x 1/8" Chain
- Black

BACKPEDAL DIE-CAST

Perfect alloy replacement pedal.

- Felt Design die cast body
- Looseball
- 9/16" or 1/2"
- Black

ROCKWELL PEGS

Simple, light and hard pegs

- Heat-treated cr-mo axle pegs
- 100mm X 37mm
- 14mm axle holes

FB PIVOTAL SEAT POST

Compatible with any Pivotal seat, super short and super light.

- Pivotal "Stump" Design
- 3D Forged Aluminum
- 25.4 OD x 135mm Length
- Laser FB Logo • Black

FB RACE/DIRT FORK

Super clean and super light with too many bells and whistles to list.

- 14mm Axle Slot with CNC 3/8" adapters, for 3/8" or 14mm axles
- Heat Treated and CNC-Machined Steer Tube
- Butted/Tapered Legs using Japanese Cr-Mo Tubing
- Lightweight Laser Cut Chromoly Dropouts w/Internal cutouts
- Alloy FB Top Cap Threaded into Fork
- Black or White

BACKPEDAL CNC

Super low profile, clean and smooth pedal.

- CNC'd low profile body
- Double sealed bearing
- Removable pins
- 9/16" only
- Black

FB BMX GRIPS

What else can you say about grips? Simple and comfortable.

- Super-soft Kraton Rubber
- 29mm OD, 138mm length, 50mm Flange
- Includes Screw-In Plastic Bar End
- Black, Purple or Dirty White

20" BMX BLACK FRONT WHEEL

Our high-end aftermarket front wheel

- Felt FB Sealed Front Hub with 3-pc 3/8" Axle, 36H
- Alex Supra Dome Rim, Doublewall, 36H
- Black Stainless Steel Spokes

20" BMX BLACK REAR WHEEL

Our mid level rear wheel (as on 2009 Chasm)

- 9T driver, 4 sealed bearings, 36H Alloy hub, 14mm Axle
- Alex Single-wall Black 36H Rim
- Standard Silver Spokes

20" BMX CP REAR WHEEL

Our High-end aftermarket rear wheel

- Joytech Alloy Hub, 4 sealed bearings, 36H
- 14mm Hollow Chromoly Axle
- 9T Driver, compatible with Odyssey drivers
- Alex Supra Dome Rim, CP, Welded Double-wall, 36H
- Black Stainless Steel Spokes

FELT TT FRAME PAD

Featured on our popular urban models, this top tube pad gives a bit of insurance for your fixie and assurance your package arrives safely.

- Used on Curbside model
- Features attractive argyle pattern
- White/Orange

CAFÉ COFFEE CUP HOLDER

Our handlebar-mounted coffee cup holder will give you a secure way to keep your joe with you as you run errands around your neighborhood.

- Lightweight Aluminum Construction
- Fits Common 22.2mm Handlebars
- Fits Most Popular Coffee Cups & Travel Mugs

BEERNUTS

Flip from fixed to freewheel with this handy 15mm wrench, or flip the cap off your favorite bottle.

- Bottle Opener/15mm Socket Combo Wrench
- 4140 Cr/Va
- Mounting studs and wing nuts included

FELT WATER BOTTLE

Stay hydrated on your rides with these bottles featuring a large nozzle for quick drinks.

- Platinum/Black/Clear
- 24oz.

DECALS

- Decal set 8pc Adult frame, vinyl transfer, Black
- Decal set 8pc Adult frame, vinyl transfer, White

FELT MEN'S LONG SLEEVE JERSEY

This long sleeve jersey packs the same exceptional features of our short sleeve jersey, but with a little added arm coverage for those chilly days. Features include Quadretto fabric, SmartDry technology, Sun Smart fiber, Gel-Grip waist, full-length front zipper, comfort collar and three roomy back pockets. The men's "Race Cut" features a tapered torso for a form-fit. Made by Hincapie.

Five sizes: S-XXL

FELT MEN'S SHORT SLEEVE JERSEY

Our short sleeve jersey features Quadretto fabric with SmartDry technology to keep you cool and dry, while the Sun Smart fiber provides a 30+ Ultraviolet Protection Factor to help protect you from the sun. The Gel-Grip waist, full-length front zipper and three roomy back pockets make the jersey great for racing and riding. The men's "Race Cut" features a tapered torso for a form-fit. Made by Hincapie.

Five sizes: S-XXL

FELT MEN'S BIB SHORT

The Felt Lycra Power Bib Shorts combine high stretch and compression to reduce muscle fatigue and increase performance. They feature a CoolMax chamois with four-channel technology to enhance breathability. Exclusive Gel-Gripper leg openings, and a vented bib top provide superior comfort for those long days in the saddle. Available in men's "Race Cut." Made by Hincapie.

Five sizes: S-XXL

FELT MEN'S VEST

The new Felt Team vest brings the convenience of two rear pockets, a lightweight waterproof/windproof WindTex fabric and waterproof zipper. These combine to seal out the wind while providing superior packing ability and compact storage. The men's "Race Cut" features a tapered torso for a form-fit. Made by Hincapie.

Five sizes: S-XXL
