FL-R24 Aerolite Zipp

- Zipp 280 carbon fibre rim for Tubular tires. 38mm profile. Weight 285g.
- Hole pattern: 20 holes front and 24 holes rear
- Hubs: FRM FL-R Team CA with Carbon Fibre body and axles
- Light Alloy flanges bonded to a Carbon Fibre centre tube
- Aerodynamic & hyperlight aero bladed spokes DT Swiss Aerolite Black
- SK-R Team quick releases (titanium axle). Lever colour matches flange colour
- Rear hubs are supplied with a cogset lock-ring in light alloy for 12-13T smallest cog. Lock-ring for 11T small cog on request
- Hand built and tensioned with digital tensiometer for consistent even true
- OPTION: Silver or Gold anodised flanges
- Shimano or Campagnolo compatible
- HCB Enduro Ceramic bearings (4pcs) No warranty
- SK-R Team SL quick release
- 11T cogset lock-ring
- Wheelbag

- Weight set: 1.075g. without Q.R. 1.133g. with SK-R Team Q.R.

BLACK HOLE INTEGRAL ROAD

- Made in Italy at Carboacom under FRM licence
- Monocoque stem made from High Module Carbon Fibre
- Stem and handlebar are joined tube to tube
- Aero shaped handlebar
- Expander-Plug and light alloy (gold anodised) bolt included
- Stem angle: - 8°
- Handlebar reach: 80mm (c. to c.)
- Handlebar drop: 135mm (c. to c.)
- Available in all stem length / bar width combination
- OPTION: handlebar width 400-420-440mm (c. to c.)
stem length 90-100-110-120-130mm
Gold or Black anodised collar with titanium fixing bolt
- Rider weight limit: 85kg
- **Weight: 338g (110 / 420mm)**

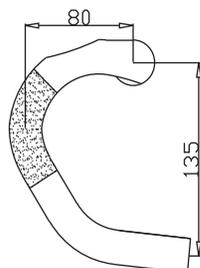

Manual available on www.frbmbike.com

HS-R BLACK HOLE

- Made in Italy at Carboacom under FRM licence
- Monocoque made from High Module Carbon Fibre. Revolutionary new clamping system
- Lightest Carbon Fibre stem ever made: 95g (110mm)
- Highest torsion to weight ratio
- Best load distribution on the handlebar for maximum safety
- Aluminium collars fix the handlebar and steerer tube to the stem
- Compatible with handlebars with a central section of 31,8mm dia. no shorter than 80mm
- Three titanium fixing bolts (gold plated)
- Expander-Plug and light alloy (gold anodised) bolt included
- Angle: - 8°
- OPTION: length 90-100-110-120-130mm
Gold or Black anodised steerer collar
- Rider weight limit: 80kg
- **Weight: 95g (110mm)**

- Stem / Bar combo
- **Weight: 285g. (110 / 400mm)**

WEB-BAR CARBON 32 ROAD

- Handlebar manufactured in High Grade Carbon Fibre for torsion strength and vibration damping
- Oversized 31,8mm centre section for higher strength and rigidity
- OPTION: width 40-42-44cm centre to centre
- **Weight: 190g. (40cm)**

ROAD

WEB-STEM CF Ti. WEB-STEM CF

- Made in Italy
- Tubular construction in high strength carbon fibre bonded to light alloy lugs
- Lugs are CNC machined from a solid billet of 7075 alloy
- Two-bolt system for less stress on light weight handlebars
- Interchangeable angle +/-10° with flip-flop logo
- 31,8mm handlebar diameter
- OPTION: Gold or Black anodised lugs
Titanium or steel bolts (The Red front Cap is available with Black body and Titanium hardware only)
Length: 90-95-100-105-110-115-120-125-130mm
- Rider weight limit: 85kg
- **Weight: Web-Stem CF Ti. 125g. (110mm)**
Web-Stem CF 132g.

Titanium M5x15 Allen Bolts

- High Grade Titanium. Rolled thread
- Gold plated

Manual available on www.frbmbike.com

WEB-STEM 32 Ti. WEB-STEM 32

- Made in Italy
- CNC machined from a solid billet of Scandium light alloy
- Two-bolt system for less stress on light weight or carbon fibre handlebars
- Interchangeable angle +/-10° with flip-flop logo
- 31,8 mm clamp diameter for higher strength and rigidity
- Black anodised and laser etched
- OPTION: Titanium or steel bolts (The Red front Cap is available with Black body and Titanium hardware only)
Length: 100-110-120-130mm
- Rider weight limit: 85kg
- **Weight: Web-Stem 32 Ti. 118g. (110 mm)**
Web-Stem 32 125g.

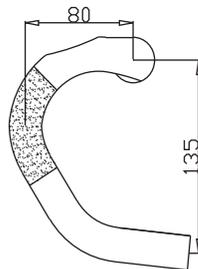

STEM SPACERS

- Team Carbon spacers. 5mm or 10mm thick
- Pro Plastic spacers. 5mm or 10mm thick

WEB-BAR 32

- Triple butted drawn from 7075 light alloy
- IMPORTANT: Not compatible with Black Hole stem
- Black anodised and laser etched
- Diameter: 31,8mm
- Drop: 135mm centre to centre
- Reach: 80 mm centre to centre
- OPTION: width 40-42-44cm centre to centre
- **Weight: 230g. (40cm)**

SC32 Ti. - SC32 SC35 Ti. - SC35

- Made in Italy
- Asymmetric seatpost collars are a must for carbon fibre seatposts as they put less pressure on the frame slot
- SC32 is compatible with frames featuring 31.8mm seat tube
- SC35 is compatible with frames featuring 34,9 mm seat tube
- OPTION: Titanium (gold plated) or steel bolt
Red, Black or Gold anodised and laser etched
- **Weight: 11g. SC35 Ti. 13g. SC35**

SS-DB

- Sleeve for oversized diameters in light alloy protects carbon fibre seatposts from being damaged by pressure on the frame slot.
- Externally Double butted
- Inner dia.: 27,2mm
- OPTION: Outer dia. 29,4-29,8-30,9-31,4-31,6-31,8-33,2mm
- **Weight: 20g. (31,6mm)**

ROAD

ST-R BLACK HOLE 31,6 x 260mm

- Made in Italy at Carbocon under FRM licence
- Monocone made from High Modulus Carbon Fibre
- Perfect match with Black Hole stem and saddle
- Amongst the lightest seatposts worldwide
- Aluminium collars allow for secure tilt and fore/aft saddle position
- Two Titanium bolts (gold plated)
- OPTION: cradle compatible with regular railed saddles
cradle compatible with Black Hole saddle
- Dimensions: 31,6 x 260mm
- Offset: 22mm
- Rider weight limit: 80kg
- **Weight: 120g.**

Manuals available on www.frbike.com

SA-R BLACK HOLE

- Made in Italy at Carbocon under FRM licence
- Monocone shell made from Carbon and Vectran Fibres
- Offers much more comfort than other carbon fibre saddles whose shells are bonded to tubular rails
- Excellent anatomical shape which will not deform over time
- Finish: matt clear coating
- Dimensions: 265 x 120mm
- Rider weight limit: 80kg
- **Weight: 58g. for road use**

ST-R21 Carbon Ti. 31,6 x 250mm 27,2 x 250mm

- Made in Italy
- Shaft manufactured in High Grade Carbon Fibre
- Head and clamp are CNC machined from 7075 light alloy
- Two-bolt adjustment for accurate and easy tilt
- Titanium hardware
- 22mm offset
- OPTION: Gold or Black anodised head
- Dimensions: 27,2 - 31,6 x 250mm
- Rider weight limit: 85kg
- **Weight: 145g. 27,2mm**
180g. 31,6mm

ST-R11 Ti. ST-R11 31,6 x 250mm

- Made in Italy
- Shaft manufactured in Scandium light alloy
- Head and clamp are CNC machined from 7075 light alloy
- Two-bolt adjustment for accurate and easy tilt
- Titanium or Steel hardware
- 22mm offset
- OPTION: Black or Gold anodised head
- Dimensions: 31,6 x 250mm
- Rider weight limit: 80kg
- **Weight: ST-R11 Ti. 175g.**
ST-R11 179g.

ASPEN Ti. ASPEN

- Carbon Fibre reinforced molded base
- Titanium rails for Aspen Ti. and Cromo Steel rails for Aspen
- Leather surface with Kevlar reinforced wings
- Super Light foam filling
- Dimensions: 270 x 130mm
- Colour: Black and Grey with embroidered gold FRM logo
- Rider weight limit: 80kg
- **Weight: 188g. Aspen Ti.**
215g. Aspen

ROAD

CL2 TEAM CL2 PRO Ti. CL2

- Made in Italy
- CNC machined from high strength 7075 light alloy
- Both brakes feature a Swing-Link lever for increased leverage and power with a 1: 6 ratio
A pressure of 30 kg on the brake lever increases to 180 kg on the brake pads
- Hardware: Steel (CL2) or Titanium (CL2 Pro Ti. and Team)
- CL2 padholders: in light alloy with steel bolts
- CL2 Pro Ti. padholders: Skeleton type in light alloy with titanium bolts. Adjustable tilt
- CL2 Team padholders: true Carbon Fibre with titanium bolts. Adjustable tilt
- Pads: new FRM CL2P Multicondition, 54mm long, (Dura Ace BR-7800 compatible)
- OPTION: Gold or Black anodised. Laser etched
Corima Red pads for Carbon Fibre rims

- Weight saved with respect to Dura Ace or Record calipers: set 110/140g.

- Reach: 34-39mm

Warranty

FRM products are guaranteed against any defects for a period of 2 years from the date of purchase by the first owner, registered in a dealer shop. **OBLIGATIONS:** In case of defects, FRM pledge to replace or repair, at their discretion, the part recognised as defective. To be accepted, the rider compliant must be communicated to FRM through the dealer/importer after his own control. If FRM after sales checking reveals that the damage is due to one of the reasons mentioned in the following paragraph, the replacement is no longer accepted and the defective item is sent back to the plaintiff who supports the shipping fees. **LIMITATIONS:** The guarantee does not cover damage resulting from transportation, warehousing, accidents, negligence, impact or falls, non-compliance with the information in the instruction manuals, assembly errors, assembly using non-compatible products, bad maintenance, modifications or alterations to the product. The guarantee does not cover parts and components subject to normal wear and tear such as ball-bearings, bushings, seals, brake pads, disc rotors, etc.
