

## DJ/Urban

We drew upon 30 years of BMX expertise when we created our Thread and Steel Reserve hardtails. They're like big BMX bikes for big kids. Whether you choose to ride singlespeed or geared, these are the perfect play bikes bred for doubles, gaps, rhythm sections, rail slides, and skateparks. No matter where you ride, our Threads and Steel Reserves are winners that were decades in the making.

## Metro

With gas prices hovering at record highs, you are undoubtedly looking for ways to ease the pain you've felt at the pump. Why not start riding a bike? Our Metro series makes bicycle commuting a breeze. With triple chainrings up front, you'll be able to tackle most any hill with ease. An adjustable stem lets you ride in comfort, and a seatpost with a built-in blinking tail light helps make you more visible to drivers. Consider a Metro powerful pain relief from the pump.

## Heartland

Comfort. When you hear this word, chances are a bicycle isn't the first thing that pops into your mind. Our Heartland series was created to change that way of thinking. We started with a lightweight aluminum frame that offers a comfortable, upright riding position and outfitted each one with a cushy seat, a front suspension fork, and a suspension seatpost. The Heartland is the perfect choice to pedal your favorite bike path or explore your neighborhood on. Exercise has never been more enjoyable or this comfortable.

# Zimzala

Whether you cruise your local boardwalk at the beach, ride to school, pedal the bike path, or zip around your neighborhood, nothing makes you feel more like a kid again than riding a beach cruiser. Our Zimzala cruisers are fun, fresh, comfy, and packed with personality. And since they are made of aluminum, they are as light as a feather. Think lighter weight isn't important for a beach cruiser? We'd be willing to bet you'll think twice after you try to lug a heavy steel bike up a set of stairs or load it onto your car's bike rack. Come on, put on some shorts and flip flops. It's time to have some fun and take a little two-wheeled time out.

# Railer

Beach cruisers are a dime a dozen these days. With so many colors, themes, and models, it seems like the more different they try to be, the more they seem the same. When we designed our all-new Railer series, we took a good, hard look at our heritage and drew upon our BMX roots. Rainers are unlike any cruiser on the market today with sporty looks and BMX-inspired forks, stems, bars, and chainrings. Cool. Casual. Hip. Fresh. Relaxed. There are lots of ways to describe a Railer, but it can't be done with words alone. You need to experience a Railer.
