Factory Framekits - Something you have not seen before from Iron Horse; limited edition framesets made in the USA. Made for the rider who knows exactly what they want to spec on their personal bikes.

MADE IN
USA
LIMITED EDITION

To All of our Riders, Fans, and Friends:

In preparation for the 2005 model year we had goals of building on our racing success on the downhill circuit and expanding that to other disciplines. However, our first commitment was to you the rider. For 2005 we have crafted a lineup of the best performing bicycles on the market and yet tried to ensure that they will be available to as many riders as possible. Our successful Hollowpoint line, utilizing the dw-link suspension system, has been expanded to downhill, freeride, and XC race platforms. On prototype dw-link downhill frames our Iron Horse/Mad Catz team had a tremendous year, and were joined in their success by the Iron Horse/Answer freeriders and Team SeaSilver domestic road racing team.

For 2005 we continue to bring new technology to you, our riders, fans, and friends. We have committed a huge amount of research and testing in the development of our bicycles. Many of you may have seen Dave Weagle with his Data Acquisition System at some of this years races, plotting suspension curves, tinkering with shock valving, and gathering feedback on stress analysis for each of the frames. The culmination of years of suspension theory and prototype testing is our 2005 lineup; the Sunday, the 7POINT, the Azure, and the completely redesigned Hollowpoint MKIII. These frames were all designed from the ground up to be the best performing bikes available in each discipline.

With the release of our new high-end lineup it would have been very easy to relax and leave the remainder of our lineup unchanged from last year, but we think that you, the rider, deserves better. Our Warrior series continues to offer value-oriented cross country performance and we have added three new dual suspension models to this range. Our Yakuza lineup offers economically priced freeride full suspension bikes as well as tough, durable freeride hardtails. Even our road line has expanded to include an all new triathlon model!

Whether you are a top pro racer or just someone like me who enjoys going out for a ride, Iron Horse has the perfect bike for you.

Sincerely

Stew Barnett

Owner & CEO Iron Horse Bicycle Company, LLC

SUNDAY Factory

Component Hi-lites

- 8 inch travel downhill dw-link race frame featuring:
- triple butted proprietary tubing
- 150mm x 12mm thru axle spacing
- onePOINTfive standard headtube
- 83mm bottom bracket shell
- 9.5" x 3" Progressive 5th Element Coil shock
- DT/Hugi 150mm x 12mm thru axle hub
- Thomson Elite 30.0 seatpost
- E13 zerostack reducer cups
- FSA Orbit carbon headset

AZURE Factory

Component Hi-lites

- 3 inch travel dw-link XC race frame
- Zerostack headtube
- 6.5" x 1.5" Progressive 5th Element Air Shock
- FSA Orbit headset
- Seat Clamp

The Iron Horse/Mad Catz Professional Downhill Team is among of the World's most elite race programs. Formed in 2003 in partnership with Mad Catz Interactive, the team instantly rocketed to stardom winning the '03 World Cup Downhill Series title, Jr. World Downhill Champion, and the inaugural US Open.

For 2004 the Iron Horse/Mad Catz Team of Aussie stars Sam Hill and Bryn Atkinson and Canadian newcomer Mathieu Laurin launched a two-front assault on the downhill circuit. With Sam and Mathieu competing on the World Cup circuit and Bryn racing the US Norba Series, Team Iron Horse/Mad Catz won the Australian and Canadian National Championships, US Open, and placed riders on the podium at 10 straight race events!

The Iron Horse/Mad Catz Team has also played an important role in the development of the new Iron Horse line. Working closely with engineer Dave Weagle and Iron Horse Product Manager Todd Seplavy, the team riders have helped create, shape, and refine the 05 product line. From geometries, to component choices, to finishing touches; team riders provided feedback for us that translates into a better, faster ride for you!

Sam Hill - Perth, Australia – “Green is 5 seconds faster mate!” - Sam started off the season with a bang by winning the Australian National Championship and capped it off with a 3rd Place result at the World Championships in Les Gets, France. Along the way Sam also won the 2nd annual US Open of Mountain Biking at Diablo Freeride Park in Vernon, NJ and finished 2nd Place overall in the UCI World Cup Downhill Series. The Sunday World Cup model is a replica of the same bike raced to the podium by Sam at Les Gets and the 04 World Cup finale at Livigno.

Bryn Atkinson - Cairns, Australia – Bryn had a breakout year in 2004. Placing 5th Overall in the US Norba National Series Bryn has elevated his racing to the next level and is a rider for the World to keep their eyes on in years to come.

Mathieu Laurin - Quebec, Canada – Mathieu joined the Iron Horse/Mad Catz Team for 04 after winning the Canada Cup Series the previous two seasons. This season Mathieu’s season was highlighted by winning the Canadian National Championship. A specialist on steep, wet courses, Mathieu adds East Coast flavor to the program.

TEAM IRON HORSE/MADCATZ

IRON HORSE/ANSWER FREERIDE TEAM

In addition to the Iron Horse/Mad Catz Team, Iron Horse is proud to support the Iron Horse/Answer Freeride Team. These riders expand the scope of the sport and push the boundaries in the name of progression and product development. This group of riders represents the core values of our sport and of our company.

George Ryan - E. Northport, NY – George represents the new era of riders who are equally at home winning a Plattekill Series downhill race, shredding the skatepark, or hitting up local street spots or dirt jumps. George lives close to Iron Horse’s Long Island, NY headquarters and assists in product testing and R&D for both frames and components.

Todd Bosch - Chaddsford, PA – After several seasons of Norba and World Cup downhill racing, Todd shifted his focus for 04 by traveling all around North America pushing his own riding limits and going big for photos and video. Todd is a longtime friend of Iron Horse and a welcome addition to our crew.

Eric Porter - Vernon, NJ (by way of Durango, CO & Louisville, KY) – A recent transplant to the Northeast, Eric is one of the innovators of the freeride scene. Well rounded in street, dirt jumping, and slopestyle riding; Eric has been pushing boundaries at street contests and slopestyle events in North America and Europe with his unique lines and new mountain bike tricks. The Iron Horse line features a range of Porter hardtail models designed and developed in conjunction with Eric himself.

SUNDAY World Cup

SUNDAY Team

Over two years in the making, the Sunday frame platform is the direct combination of joining the World Cup race experience of the Iron Horse/Mad Catz Team with Dave Weagle's engineering expertise and the incredibly efficient dw-link suspension system.

Component Hi-lites

- Iron Horse/Mad Catz Team spec
- Boxxer World Cup fork w/ SIC direct mount stem

Bryn Atkinson

7POINT7

The **7POINT** frame platform evolved from the countless requests by riders for a "longer travel, high strength Hollowpoint." The **7POINT** is the perfect bike for deepwoods freeride use or rampaging bike parks. The 7" travel dw-link design allows for a crisp, incredibly responsive pedaling ride but with enough travel to nail the sketchiest of landings. Design features of the **7POINT** frame include: 7" travel dw-link rear suspension, 150x12mm hub spacing, 83mm BB, 1.5" headtube, full length seattube, & front derailleur compatibility.

Component Hi-lites

- Manitou Sherman Breakout Plus 1.5 fork

MK III Team

HOLLOWPOINT™

Iron Horse first introduced dw-link technology to the mountain bike world in 2002 with the Hollowpoint model. Often called "the best climbing bike that I have ever ridden," the Hollowpoint soon became the insiders' choice for high performance trail bikes. For 2005 the Hollowpoint frame has been completely redesigned from a clean sheet of paper. This 3rd generation of Hollowpoint frame chassis and its revised dw-link system improves pedaling and braking performance and in addition, is lighter, stiffer, and stronger than ever. For 2005 and beyond, the **MK III** promises to redefine the expectations for high performance trail mountain bikes.

Component Hi-lites

AZURE Team

No truly great lineup of high performance frames is complete without a World Cup caliber XC frame. The **AZURE** project was conceived after two years of testing and refining our Hollowpoint series of XC frames. Starting from scratch, and drawing from rider feedback, we engineered the Azure from the ground up to represent the pinnacle of XC racing technology. Its 90mm dw-link rear suspension delivers never before seen pedaling efficiency, and its custom developed, triple butted tubeset makes this frame one of the lightest full suspension XC race frames ever made.

YAKUZA Kumicho

The **KUMICHO** is where "freeride" and "downhill" become blurred. Is riding lift access trails all-day long freeride or is it downhill? Maybe it's just a little of both. The closest definition of the could be that it's simply a bikepark bike. While the frame is most certainly raceable, the purpose of the Kumicho was designed from the start to be the perfect bike for lift access riders on a budget.

Component Hi-lites

- Race-ready DH frame, single-pivot with a floating rear brake, 8" travel, 1.5 headtube
- Manitou Stance Kingpin fork, 170mm travel w/ TPC+ damping
- Progressive 3-way rear shock
- Truvativ Hussefelt bar/stem/crankset/BB
- E13 SRS Chainguide w/ 38T ring
- SRAM X.7 8-speed trigger shifter/derailleur
- Hayes Hydraulic HFX-9 8" disc brakes
- Mavic EX325 36 spoke rims
- SDG I-Beam saddle/post

Todd Bosch

YAKUZA Ojiki

Component Hi-lites

- 7" Travel FR frame, single-pivot, 1.5 Headtube Manitou Stance Blunt fork, 150mm travel, 1.5 steerer, hex thru-axle
- Manitou Metal R rear shock
- Truvativ Hussefelt handlebar, crankset, Holzfeller stem
- Shimano Deore shifters/derailleurs
- Hayes HFX-9 hydraulic disc brakes w/ 8" rotors
- WTB Dual Duty FR 36H Rims
- SDG I-Beam saddle/post
- Maxxis High Roller 2.5 tires

YAKUZA Aniki 26"

Component Hi-lites

- 7" Travel FR frame, single-pivot, 1.5 HT
- Manitou Splice Comp w/ Air Assist, 130mm travel
- Truvativ Hussefelt bar/stem
- FSA Alpha Drive ISIS crankset/BB
- Shimano Alivio shifters/derailleurs
- Hayes MX2 Cable Disc Brakes w/ 8" rotors
- WTB Dual Duty FR 36H rims
- SDG I-Beam saddle/post

YAKUZA Aniki 24"

YAKUZA Waka Gashira

Following the same concepts as the full suspension bikes, these **YAKUZA** hardtail frames were designed from the ground up strength and value in mind. With a new proprietary oversize tubeset, onePOINTfive headtube, 3D dropouts, box chainstays and seatstay gusseting, these frames are built to take almost any punishment you can dish out. Featuring beefy components and 8" disc brakes, these are black-diamond rated, huck-tastic, jib-worthy hardtails.

Component Hi-lites

- Freeride HT, 1.5 headtube
- Manitou Stance Flow, 120/150mm adjustable travel, 1.5 steerer, hex thru-axle
- FSA FR330 handlebar, DH350 stem
- Truvativ Hussefelt crankset/bb
- e13 DRS chainguide w/ 36/24T rings
- SRAM X.7 8-speed trigger shifter/rear derailleur
- Hayes HFX-9 hydraulic disc brakes w/ 8" rotors
- WTB Dual Duty FR 36H rims
- SDG I-Beam saddle/post
- Maxxis High Roller 2.5/2.35 tires

YAKUZA Bakuto

Component Hi-lites

- Freeride HT, 1.5 Headtube Manitou Splice Comp w/ Air Assist, 120mm travel

- e13 bashguard
- Shimano Alivio shifter/derailleurs
- Hayes MX2 cable disc brakes w/ 8" rotors
- WTB Dual Duty FR 36H rims
- SDG I-Beam saddle/post
- Maxxis High Roller 2.5/2.35 tires

YAKUZA Chimpira

Component Hi-lites

- Freeride HT, 1.5 Headtube
- SR Suntour XCP75 DJ Fork, 120mm travel
- DH Bar/Stem
- FSA Alpha Drive ISIS crankset/bb 32/22T rings w/ Alloy bashguard
- Hayes MX2 cable disc brakes w/ 8" rotors
- WTB Dual Duty FR 36H rims
- WTB Motoraptor 2.4 tires
- Available in 24" wheel version

WARRIOR Elite

WARRIOR Pro

Component Hi-lites

- Manitou Splice Elite suspension fork, 130mm travel
- Rock Shox Bar rear air shock
- FSA Gamma 2 piece Crankset
- Hayes Mechanical MX-2 XC disc brakes
- Shimano LX rear derailleur

For 2005 Iron Horse has expanded our **WARRIOR** line of trail/all mountain bikes to include three new models of dual suspension bikes. Built around a 7005 series aluminum frame, elevated chainstays, a zero-stack headtube and featuring great tire clearance. The 5" of rear wheel travel is assisted by sealed bearings and features a finely tuned leverage ratio for maximum benefit for all day riding.

Component Hi-lites

- Rock Shock Reba SL suspension fork, 115mm Travel
- Shimano Deore LX Hydraulic Dual Control shifters
- Rock Shox Bar Adjust rear air shock
- Shimano Deore LX Hydraulic Brakes, 6" rotors
- Truvativ Blaze crankset w/Powerspline bottom bracket
- Crank Brothers Egg Beater clipless pedals

WARRIOR Trail

Component Hi-lites

- Suntour XCP75 DJ suspension fork, 120mm travel
- Manitou Glyde R Coil rear shock
- WTB Speed Disc rims, 32H
- Tektro Mechanical Disc brakes, w/6" rotors
- WTB Speed V Sport saddle

Warrior DS Trail - Chrome

WARRIOR Race

WARRIOR Expert

Warrior Expert - Red

WARRIOR A renewed dedication to hardtails led to a redesigned frameset for the '05 cross country Warrior Series. Our goal was to create a durable, lighter frameset that was stable at higher speeds. Achieving these goals required careful component selection to compliment the formed downtube gusset, 3D dropouts, new monostay bridge, zero-stack headsets and oversize chainstays.

Component Hi-lites

- Rock Shox Pilot SL suspension fork, 100mm travel
- SRAM X.9 Rear Derailleur with X.7 Trigger shifters
- Truvativ Firex SX crankset w/Gigapipe Isis Bottom Bracket
- Hayes Hydraulic HFX-9XC disc brakes w/6" Mud cutter rotors
- Easton stem, seatpost and handlebar
- Crank Brothers Eggbeater pedals

Warrior Comp - Orange

PORTER SERIES

Eric Porter, a rider who is well known for his skills on the street/skatepark scene. He is capable of doing things on his mountain bike that no one has tried before; one of the riders merging BMX, trials, dirt jumping and downhill skills in a unique style. So whether you want to throw a bar spin at the end of a trials line or bust out a pegless dropout handrail grind, you owe a little something to pioneers like Eric Porter.

Working closely with Iron Horse to develop a signature series of bikes that reflect his take on riding, Eric has continually field tested a series of prototypes, making recommendations on geometry, frame construction and component spec. In addition to being an important member of the Answer/Iron Horse freeride team, Eric has acted as an ambassador, riding at festivals and contests in Europe and North America.

Component Hi-lites

- 7005 aluminum jumping/street frame, 1.5" headtube, 3D drop outs
- Marzocchi Dirt Jumper II, 110mm travel
- Hayes HMX-1 Mechanical disc brake
- E13 Chainguide
- Maxxis Hookworm 26x2.5" Downhill compound tires
- SRAM X.7 rear derailleur
- SRAM X.7 trigger shifters

PORTER 26"/24"

Component Hi-lites

- 7005 aluminum jumping/street frame, 1.5" headtube, 3D drop outs
- Surly Singulator single speed converter
- Truvativ Hussefelt crankset with Gigapipe Isis BB
- Marzocchi MX Comp suspension fork, 80mm travel
- Sun Rhyno Lite XL rims, 36H
- ACS Claws Freewheel, 16T

26" shown, 24" version also available

VICTORY Team

VICTORY series. These finely tuned and refined racing bikes offer the best frame materials available; a blend of truly superior aluminum front triangles mated to carbon fiber seatstays and double butted chainstays. Whether you are a National-class sprinter or a hill-climbing fanatic you will appreciate the lightness and stiffness of these top-shelf frames and components. Additionally we offer the **TRIUMPH** series Regularly mentioned on "buyers guides" as a great value our base model Triumph is no slouch. The addition of our first ever Triathalon bike and an Easton Ultralite frame in our Triumph Race create a dynamic range of bikes built on that same principle of performance and value.

Component Hi-lites

- Kinesis road frame with carbon fiber seatstays and double butted chainstays
- Campagnolo Chorus 10 speed Ergopower
- Campagnolo Chorus 10 speed derailleurs
- Columbus Carve carbon fork w/carbon steerer tube
- Truvativ Rouler Carbon crankset, 53/39 chainrings
- Velomax Orion II wheels
- FSA Carbon Orbit 1 headset

VICTORY

TEAM SEASILVER

Iron Horse entered the discipline of professional road racing through a partnership with Team SeaSilver a UCI Division 3 team, to pursue the US Professional Cycling Championship in 2004. The team is managed and directed by Greg Bourque and features real deal championship athletes, Olympic hopefuls and seasoned pros all of whom are riding exclusively on Iron Horse road bikes. Their feedback on what makes a racing bike faster has led to several modifications in our Victory line-up. This team trains hard in pursuit of their goal. Once riding nearly a century from their base in San Diego, members of the team arrived to compete in a local Criterium. Training hard at local races, grinding endless hills and competing in stage races all over the country the team is building momentum. Outstanding podium finishes aside, Team SeaSilver works closely with the Parish Foundation, a cancer charity focused on comforting the survivors of cancer and their families. Together they pursue the goals of raising funds and awareness for the fight against cancer. We salute their spirit of philanthropy and desire to give back to the community while they pursue their passion, road racing.

Component Hi-lites

- Kinesis road frame with Carbon Fiber seatstays and double butted chainstays
- Columbus Tusk Carbon fork w/alloy steerer tube
- Campagnolo Centaur 10 speed Ergopower shifters
- Campagnolo Centaur derailleurs
- Velomax Vista SL wheels
- Fizik Aliante Sport saddle, magnesium rails

TRIUMPH Tri

Component Hi-lites

- Aero triathlon aluminum frame with teardrop shaped seatube
- Shimano Tiagra derailleurs, Shimano Bar end shifters
- Carbon aero-blade fork w/alloy steerer
- Syntace C2 clip aerobar w/Syntace Stratos bar
- Vittoria folding bead tire
- SDG I-Beam seatpost
